Management and Cost Accounting Andreas Taschner, Michel Charifzadeh, 2020-09-01 Management and cost accounting has been the basic toolbox in business administration for decades Today it is an integral part of all curricula in business education and no student can afford not to be familiar with its basic concepts and instruments At the same time business in general and management accounting in particular is becoming more and more international English clearly has evolved as the lingua franca of international business Academics students as well as practitioners exchange their views and ideas discuss concepts and communicate with each other in English This is certainly also true for cost accounting and management accounting Management Accounting is becoming increasingly international Management and Cost Accounting is a new English language textbook covering concepts and instruments of cost and management accounting at an introductory level Bachelor but also suited for MBA courses due to strong focus on practical applications and cases This textbook covers all topics that are relevant in management accounting in business organizations and that are typically covered in German and Central European Bachelor classes on cost accounting and management accounting After an introduction to the topic including major differences between the German approach and the purely Anglo Saxon approach of management accounting

the book describes different cost terms and concepts applied in German cost accounting The book is much more specific here compared to US American standard textbooks Based on different cost concepts the topic of cost behavior is discussed including the determination of cost functions The heart of the book guides the reader through the general structure of a fully developed cost accounting system following the German and Central European standard It starts with cost type accounting moves on to cost center accounting and finally deals with cost unit accounting assigning cost to goods and services offered in the market The remaining parts of the book deal with decision making and how management and cost accounting data can support managers in this task A comparison of absorption costing and variable costing introduces the reader to management decisions such as product portfolio and outsourcing decisions Additionally cost volume profit analysis break even analysis is covered The book closes with a comprehensive treatment of cost planning and variance analysis

Management Accounting and Control Michel Charifzadeh, Andreas Taschner, 2017-10-30 Management accounting has been the basic toolbox in business administration for decades Today it is an integral part of all curricula in business education and no student can afford not to be familiar with its basic concepts and instruments At the same time business in general and management accounting in particular is becoming more and more international English clearly has evolved as the lingua franca of international business Academics students as well as practitioners exchange their views and ideas discuss concepts and communicate with each other in English This is certainly also true for management accounting and control Management Accounting is becoming more and more international Management Accounting and Control is a new textbook in English covering concepts and instruments of management accounting at an introductory level primarily at the Bachelor level but also suited for general management and MBA courses due to a strong focus on practical relevance This textbook covers all topics that are relevant in management accounting in business organizations that are typically covered in German and Central European Bachelor courses on management accounting and control After a general introduction to the field of management accounting and control the book discusses cost management as an extension of cost accounting Typical cost management instruments such as target costing life cycle costing and process based costing approaches are explained in detail Differences between Anglo American activity based costing ABC and German process based costing are highlighted The book then turns to an extensive discussion of planning and budgeting tasks in management accounting with a strong focus on the practical application of the topic such as developing a budget in practice Another chapter is dedicated to a comparison of traditional budgeting with modern alternative budgeting approaches A major part of the book is dedicated to the broad area of performance management The relevance of financial statement information for performance management purposes is discussed in detail In addition the most widely spread financial performance indicators are illustrated using real world examples The book also includes detailed content on value based management control concepts In a consecutive chapter performance measurement is linked with strategy while extensively discussing the Balanced Scorecard as a key tool

in strategic performance management The remaining parts of the book deal with management reporting as one of the main operative tasks in management accounting practice The book closes with insight into new fields and developments that currently influence management accounting practices and research and promise to play an increasingly important role in the future
