digital content even if they lack any knowledge about the content's infringing nature. Moreover, the grey areas in circumventing geo-blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo-blocking. End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement. Despite the intricacies between copyright and access to digital content, the recently implemented website blocking laws have emboldened copyright owners while suppressing end users' access to digital content. This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions.

Milton Friedman Jennifer Burns, 2023-11-14. An Economist Best Book of 2023. One of The New York Times 33 Nonfiction Books to Read This Fall. Named a most anticipated fall book by the Chicago Tribune and Bloomberg. Finalist for the 2024 Hayek Book Prize. Wherever you sit on the political spectrum, there's a lot to learn from this book. More than a biography of one controversial person, it's an intellectual history of twentieth-century economic thought. Greg Rosalesky NPR's Planet Money. The first full biography of America's most renowned economist, Milton Friedman, was alongside John Maynard Keynes, the most influential economist of the twentieth century. His work was instrumental in the turn toward free markets that defined the 1980s, and his full-throated defenses of capitalism and freedom resonated with audiences around the world. It's no wonder the last decades of the twentieth century have been called the Age of Friedman, or that analysts have sought to hold him responsible for both the rising prosperity and the social ills of recent times. In *Milton Friedman*, the first full biography to employ archival sources, the historian Jennifer Burns tells Friedman's extraordinary story with the nuance it deserves. She provides lucid and lively context for his groundbreaking work on everything from why dentists earn less than doctors to the vital importance of the money supply to inflation and the limits of government planning and stimulus. She traces Friedman's long-standing collaborations with women, including the economist Anna Schwartz, his complex relationships with powerful figures such as the Federal Reserve chairman Arthur Burns and the Treasury secretary George Shultz, and his direct interventions in policymaking at the highest

levels Most of all Burns explores Friedman s key role in creating a new economic vision and a modern American conservatism The result is a revelatory biography of America s first neoliberal and perhaps its last great conservative *Asia-Pacific Regional Security Assessment 2022* The International Institute for Strategic Studies (IISS),2022-06-10 The Asia Pacific Regional Security Assessment examines key regional security issues relevant to the policy focused discussions of the IISS Shangri La Dialogue Asia s premier defence summit convened by the International Institute for Strategic Studies It is published each year in association with the Dialogue and the issues analysed within its covers are central to discussions at the event Among the topics explored are US Indo Pacific strategy alliances and security partnerships Chinese perspectives on regional security Taiwan s security and the possibility of conflict the continuing challenges posed by North Korea s nuclear and missile programmes the nuclear dynamics of Sino American security relations air and naval operations in the Asia Pacific Sino American technology competition Japan s competition and cooperation with China India s role in the Quadrilateral Security Dialogue Quad the evolving regional security engagement of European states and the European Union China s role as an upstream state in the Mekong sub region and the climate crisis and Asia Pacific security As this volume goes to press the war in Ukraine overshadows the international security landscape and many chapters in this volume touch on the conflict s ramifications for security in the Asia Pacific Authors include leading regional analysts and academics at the forefront of research and analysis Aidan Foster Carter James Crabtree Peter A Dutton Brian Eyler Michael Green Sheryn Lee Jeffrey G Lewis Tanvi Madan Jeffrey Mazo Ben Schreer Yun Sun Nicholas Szechenyi Brendan Taylor Ashley Townshend and Paul Triolo
