World War II Memory and Contested Commemorations in Europe and Russia Jennifer A. Yoder, 2024-01-01 Instrumentalization of the wartime past for political gain is the subject of this study of eleven World War II commemorations Using a comparative conceptually original approach Yoder identifies the actors who manipulate memory surrounding wartime anniversaries such as the bombing of Dresden and ceremonies to honor fallen soldiers and fascist collaborators The cases of memory contestation span three geographic regions Western Europe Eastern Europe and Russia recognizing that each developed distinctive interpretations of the war and different patterns of memory politics This empirically rich study reveals the grievances that motivate memory challengers and their strategies for shaping the commemoration discourses and rituals The memory challengers toolkit includes varieties of emotional manipulation subtle distortion revisionism and full scale denial The study finds that while there are differences in context and strategy across cases and regions there are also areas of convergence Moreover a memory challenge in one country can spill over into others with serious consequences for foreign relations While World War II Memory and Contested Commemorations in Europe and Russia deals with debates and narratives about events in the last century its focus is on power persuasion and identity in the present

Germany and the United States, a "special Relationship?" Hans Wilhelm Gatzke,1980 A discerning statement about Germany and other nations this book reevaluates for the general reader and the historian the impact of rapid industrialization the origins of the world wars the question of war guilt the decade of Weimar democracy and the rise and fall of Hitler Gatzke looks anew at the economic miracle in West Germany and the consequences of making prosperity the cornerstone of a new republic **Paul VI** Yves Chiron,2022-05-13 Following after brilliant authoritarian Pope Pius XII and good humored Pope John XXIII Pope Paul VI seemed hesitant anxious even tormented Yet the impact of his fifteen year long papacy was colossal not a single aspect of Church life was left untouched in the whirlwind of change unleashed by the Ecumenical Council he guided and sought to implement Who was this man Giovanni Battista Montini 1897 1978 who so altered the face the voice the bearing of Catholicism Versatile historian Yves Chiron is equal to the challenge of portraying this multifaceted and in many ways enigmatic figure who was ordained a priest without passing through the seminary and never held a simple parish assignment Taking advantage of hitherto untapped archival sources and the testimony of numerous witnesses Chiron builds up a faithful portrait of a figure controversial at every stage of his career from his anti fascist activities as university chaplain to his work in the diplomatic corps which would create tensions with Pius XII from his heavy years as Archbishop of Milan to his Janus like role at the Second Vatican Council when his interventions alternately delighted and devastated both progressives and conservatives from his intimate involvement in the recasting of the Roman Catholic liturgy to his adamant rejection of contraception which left him abandoned by bishops and theologians who held the world s willing ear Paul VI emerges as a pope torn between conflicting interpretations of aggiornamento and overwhelmed by crises in the Church as he tried to reconcile fundamental principles of dogma with pressures from modernist reformers
