Euripides and the Tragic Tradition Anne Norris Micheleni, 2006-10-02 Euripides and the Tragic Tradition asks all the right questions It forces us to confront the many contradictions in Euripides work demonstrates the differences between the literary assumptions of Sophocles and Euripides and challenges us to respond to Euripidean drama with sophistication and sensitivity Francis M Dunn Scholia The Hellenistic Aesthetic Barbara Hughes Fowler, 1989 Fowler's own insights are apparent throughout and they seem to distill the personal appreciation and understanding of a scholar who has devoted much of her career to both contemplating and enjoying Hellenistic poetry This book would make an excellent background text for courses in later Greek and Roman art and it can be read with profit by anyone interested in exploring the character of Hellenistic culture J J Pollitt American Journal of Archaeology Outstanding is the range of examples discussed both in poetry and art Theocritus Callimachus Apollonius the epigrammatists and others that is the major figures of the time are considered at length and in several different contexts Passages are quoted in the original Greek translated and analyzed Fowler's sensitivity to poetic forms evident in her other published writings is again evident here In addition however the philosophical context is not overlooked Also highly commendable are the liberal references to works of art Sculpture in the round and in relief portraits terracotta figurines original paintings grave stelai and Campanian murals mosaics gold and silver vessels and jewelry are introduced at various points Every work of art discussed is illustrated in astonishingly clear photographs which are interspersed in the body of the text Christine Mitchell Havelock The Hellenistic Aesthetic provides classicists with their first thorough discussion of the aesthetic unity found in Hellenistic art and literature Fowler examines

parallels both in subject matter and in artistic approach among a diverse group of literary genres and artistic forms In twelve chapters *The Hellenistic Aesthetic* surveys Alexandrian epigrams pastorals epics sculptural groups mosaics paintings and jewelry to supply a convincing and frequently unexpected picture of a unified aesthetic vision Jeffrey Buller *Classical Outlook*

The Discourse of Marriage in the Greco-Roman World Jeffrey Beneker, Georgia Tsouvala, 2020-08-25 The famous polymath Plutarch often discussed the relationship between spouses in his works including *Marriage Advice* *Dialogue on Love* and many of the *Parallel Lives* In this collection leading scholars explore the marital views expressed in Plutarch's works and the art philosophy and literature produced by his contemporaries and predecessors Through aesthetically informed and sensitive modes of analysis these contributors examine a wealth of representations including violence in weddings and spousal devotion after death *The Discourse of Marriage in the Greco Roman World* demonstrates the varying conceptions of an institution that was central to ancient social and political life and remains prominent in the modern world This volume will contribute to scholars understanding of the era and fascinate anyone interested in historic depictions of marriage and the role and status of women in the late Hellenistic and early Imperial periods **Archaic Greek Poetry** Barbara Hughes Fowler, 1992 With this anthology Barbara Hughes Fowler presents a comprehensive selection of Greek poetry of the 7th and 6th centuries BC Fowler's translations provide access to six Homeric hymns eight selections from Bakchylides 11 odes of Pindar selections from the iambicists and elegists virtually all of Archilochos and of the lyricists including Sappho and a number of anonymous poems about work play and politics Classical Epic Tradition John Kevin Newman, 2003-04-01 The literary epic and critical theories about the epic tradition are traced from Aristotle and Callimachus through Apollonius Virgil and their successors such as Chaucer and Milton to Eisenstein Tolstoy and Thomas Mann Newman's revisionist critique will challenge all scholars students and general readers of the classics comparative literature and western literary traditions
