period Created by architects and artists these gardens were often conceived as tableaux in which plants played a role only as pigment or texture This handsomely illustrated book by Dorothe Imbert presents for the first time in word and image a comprehensive study of these arresting architectonic gardens La Reconstruction en Europe Après la Première Et la Seconde Guerre Mondiale Et Le Rôle de la Conservation Des Monuments Historiques Luc Verpoest, 2011 Living with History focuses on a particular aspect of heritage preservation in the twentieth century destruction and postwar reconstruction in Belgium France Germany Great Britain and The Netherlands This book establishes a status quaestionis for the historiography of wartime and postwar preservation and sets these particular developments in preservation history in the context of the general evolution of architecture and urbanism The authors investigate the specific role of conservationists and heritage institutions and administrations in the overall reconstruction and examine the part played by architects and planners in heritage preservation *Répertoire des historiens français pour la période moderne et contemporaine* Arlette Faugères, Régine Ferré, 1983-01-01 T00:00:00+01:00 Cet ouvrage est une réédition numérique d'un livre paru au XXe siècle désormais indisponible dans son format d'origine *An encyclopædia of architecture* Joseph Gwilt, 1888 **Architecture in France in the Eighteenth Century** Wend Graf Kalnein, Wend von Kalnein, 1995-01-01 Architecture in France in the Eighteenth Century Wend von Kalnein French architecture of the eighteenth century which exhibited great technical ability and refined taste influenced architectural style throughout Europe This handsome book is a survey of the French architecture of the period It begins with the origins of the style moderne under the last years of Louis XIV discusses the end of Rococo and the return to antiquity and concludes with the Revolutionary architecture and the house of Madame Rcamier Kalnein describes the development of palace and hotel architecture by the two great architects de Cotte and Boffrand discussing such large urban projects as the reconstruction of Rennes and the Places Royales He traces the return to antiquity which began when the scholars of the Académie d'Architecture were sent to Rome the revolutionary architecture with its grand but never executed projects and the shift from neoclassicism to early romanticism Kalnein also examines the decorative arts of the period which became even more important than architecture in the Rococo period Focusing on such architects as Boffrand Gabriel and Redoux he shows how a study of their building decoration illuminates the evolution of style moderne the battle between Rococo and Neoclassicism and the dissemination of French styles throughout Europe Alternative Visions of Post-War Reconstruction John Pendlebury, Erdem Erten, Larkham J Peter, 2014-08-19 The history of post Second World War reconstruction has recently become an important field of research around the world Alternative Visions of Post War Reconstruction is a provocative work that questions the orthodoxies of twentieth century design history This book provides a key critical statement on mid twentieth century urban design and city planning focused principally upon the period between the start of the Second World War to the mid sixties The various figures and currents covered here represent a largely overlooked field within the history of 20th century urbanism In this period while certain modernist

practices assumed an institutional role for post war reconstruction and flourished into the mainstream such practices also faced opposition and criticism leading to the production of alternative visions and strategies Spanning from a historically informed modernism to the increasing presence of urban conservation the contributors examine these alternative approaches to the city and its architecture
