Terzo settore 2023 Gabriele Sepio, 2023-01-17 T12:02:00+01:00 Fornisce un quadro puntuale delle novità introdotte dalla Riforma del Terzo settore con particolare attenzione al sistema giuridico e tributario degli ETS con l'obiettivo di dotare gli operatori del settore e i professionisti che accompagnano le realtà non profit nel percorso di accesso al RUNTS di uno strumento di supporto che conduca al corretto inquadramento dell'ente. I nuovi istituti sono corredati dalle interpretazioni della più autorevole dottrina italiana in tema di Terzo settore. Il mondo non profit è stato caratterizzato per anni da un processo di sedimentazione normativa che ha portato a una disciplina frammentaria e disorganica con l'individuazione di diverse figure soggettive sovrapposte a quelle civilistiche: associazioni, fondazioni e comitati. Ciascuna con un sistema di registrazione proprio. La recente riforma del Terzo settore ha introdotto una modifica radicale del preesistente scenario di riferimento prendendo le mosse da due esigenze fondamentali: l'introduzione di una definizione unitaria di Terzo settore e il superamento della parcellizzazione data dalla presenza di una molteplicità di leggi e di registri gestiti da enti diversi. Sei le parti che compongono l'Opera che esaminano rispettivamente la disciplina contenuta nel Codice del Terzo settore, le varie tipologie di enti, i profili fiscali, gli adempimenti contabili e le attività di controllo, i rapporti con la P.A., il lavoro e il volontariato. L'Opera si avvale dei pregevoli contributi di un gruppo di Autori di primissimo livello composto da professionisti di varia estrazione: notai, avvocati, commercialisti e operatori del non profit che hanno seguito da vicino l'evoluzione della riforma contribuendo a vario titolo alla formulazione della bozza dei decreti attuativi. L'orientamento e la formazione degli insegnanti del futuro Mariani, Alessandro, 2014 The volume examines the crucial and current connection between orientation training and teaching professionalism. The various contributions make references to the new regulation on the subject and focus on the institutional task and the pedagogical role played by orientation and training in creating a new physiognomy of the teachers' professionalism: an initial orientation, an itinerant orientation and an outgoing orientation alongside personal and professional training intended as an open and ongoing process. These are two fundamental devices to grasp the complexity of being a teacher and working in schools nowadays. They are also accompanied by the traineeship which in this context is examined through the report of a multi-year work.
