Western Gold Adventures 1849-1854 (Abridged, Annotated) Kimball Webster, In April 1849 a little over six months before he was twenty-one, Kimball Webster caught the gold fever. Characteristic of his methodical ways, he kept a journal of his journey across the country and of his experiences as a miner in California and land surveyor in Oregon. His experiences in the Land of Gold is told in his own vivid language in these pages and forms one of the most interesting narratives of the days of the gold seekers of the Pacific Slope. Under trying circumstances that we can't fully appreciate today, the hardy men and women of the Gold Rush the 49ers faced danger from disease, accident, Native Americans, other miners, and most likely poverty. Yet nearly 300,000 came to California to seek their fortune and tempt fate. Kimball Webster didn't strike it rich but went on to make a good life for himself. And he made us richer by leaving his account of those tumultuous years of the 1849 Gold Rush. Be sure to LOOK INSIDE or download a sample.

Climate, Culture, Change Timothy B. Leduc, 2011-02-21 Every day brings new headlines about climate change as politicians debate how to respond, scientists offer new data, and skeptics critique the validity of the research. To step outside these scientific and political debates, Timothy Leduc engages with various Inuit understandings of northern climate change. What he learns is that today's climate changes are not only affecting our environments but also our cultures. By focusing on the changes currently occurring in the north, he highlights the challenges being posed to Western climate research, Canadian politics, and traditional Inuit knowledge. *Climate Culture Change* sheds light on the cultural challenges posed by northern warming and proposes an intercultural response that is demonstrated by the blending of Inuit and Western perspectives. Every perspective.
