methodology *English Language-Mediated Settings and Educational Inequalities* Prashneel Ravisan Goundar, 2025-03-17
 In this book Goundar explores how educational inequalities are responsible for the way students perform in English language mediated school settings. He seeks to establish an explicit connection between language testing and educational inequalities at the higher education level. With its focus on higher education, this research is a fresh reminder of the need to continuously revisit and unsettle inequalities that are embedded in education systems. In the South Pacific context, this study reveals the current issues including medium of instruction challenges, lack of teaching and learning resources, teacher shortages, and language barriers. Goundar's research seeks new answers to the problem of academic English language skills faced by undergraduate students. Since English is a second language for the majority of students in Fiji, and as the quality of education varies between urban and rural schools, this cumulatively impacts students' acquisition of English skills and consequently their university performance. The important questions posed and addressed in this book are as follows: What are the language implications of colonisation on education in the South Pacific? What resources and learning opportunities are provided in schools to promote equal access to education content for students from non-English speaking backgrounds? How do students from different schooling backgrounds in Fiji cope with an English language mediated university learning environment? Do educational inequalities manifest in the performance of students from all schooling backgrounds, or are they confined to specific sociocultural zones? Drawing on a unique dataset from a context in the Global South, this book provides new insights for a more holistic approach to examining academic language proficiency and the use of language testing. *English Language Mediated Settings and Educational Inequalities: Language Education Policy Agendas in the South Pacific* is suitable for postgraduate students in language policy and planning, multilingual language policies for schools, medium of instruction studies, and language testing and South Pacific studies.

Students will be rigorously prepared for assessment practice, and support is included for each part of the exam to help with this. Boosting students' interest and building motivation is also a priority, and an attractive, clear, and colourful design helps students to enjoy developing their skills and understand the syllabus. The most comprehensive full coverage on all the core topics and options at SL and HL included. Ensure strong performance includes support for each part of the exam plus practice on every aspect of the syllabus. Teach fully in li

Archaeology, the Public and the Recent Past Chris Dalglish, 2013-08-15
 Heritage, memory, community, archaeology, and the politics of the past form the main strands running through the papers in this volume. The authors tackle these subjects from a range of different

philosophical perspectives with many drawing on the experience of recent community commercial and other projects
Throughout there is a strong emphasis on both the philosophy of engagement and with its enactment in specific contexts the essays deal with an interest in the meaning value and contested nature of the recent past and in the theory and practice of archaeological engagements with that past
