*The Female Performer between Exhibitionism and Feminism in Novels by James, Hawthorne, and Zola*

Nodhar Hammami Ben Fradj, 2021-03-11 This book is concerned with the figure of the female performer in nineteenth century fiction It explores the attitudes of Henry James Nathaniel Hawthorne and Emile Zola towards women's appearances on political daises and theatrical stages Literature as a cultural force can either boost women's participation in public life or bolster the patriarchal ideology The book verifies Henry James's feminist ideology that lies behind the positive representation of women's political activism and acting as two different modes of performance through a comparative study between him and two of his contemporary novelists It reflects the clash of opinions among nineteenth century American and French

authors on the issue of women's public manifestation as caught between the spectacular and the political. While some writers have deemed it an exhibitionist demeanour, others have considered it a commitment to the feminist project. The first section shows how a feminist reading in the history of European and American female performers as emerging figures in the nineteenth century can help to understand the position of the figure in the literary works of the period. Nathaniel Hawthorne is shown to be an author who holds the same feminist temperament as James through his portrayal of a talented political rhetorician in his novel *The Blithedale Romance*, which is compared to James's *The Bostonians* in the second section. The final part conducts a study in contrasts between James's supportive rendering of the actress in *The Tragic Muse* and Emile Zola's derogatory stereotyping of the female performer as a prostitute in his novel *Nana*.

*Eavesdropping in the Novel from Austen to Proust* Ann Gaylin, 2002 *Eavesdropping in the Novel from Austen to Proust* investigates human curiosity and its representation in eavesdropping scenes in nineteenth century English and French novels. Ann Gaylin argues that eavesdropping dramatizes a primal human urge to know and offers a paradigm of narrative transmission and reception of information among characters, narrators, and readers. Gaylin sheds light on the social and psychological effects of the nineteenth century rise of information technology and accelerated flow of information as manifested in the anxieties about and delight in displays of private life and its secrets. Analysing eavesdropping in Austen, Balzac, Collins, Dickens, and Proust, Gaylin demonstrates the flexibility of the scene to produce narrative complication or resolution to foreground questions of gender and narrative agency to place the debates of privacy and publicity within the literal and metaphoric spaces of the nineteenth century novel. This 2003 study will be of interest to scholars of nineteenth century English and European literature.

**Aging by the Book** Kay Heath, 2009-02-19 *Aging by the Book* offers an innovative look at the ways in which middle age, which for centuries had been considered the prime of life, was transformed during the Victorian era into a period of decline. Single women were nearing middle age at thirty, and mothers in their forties were expected to become sexless; meanwhile, fortyish men anguished over whether their time for love had gone by. Looking at well-known novels of the period as well as advertisements, cartoons, and medical and advice manuals, Kay Heath uncovers how this ideology of decline permeated a changing culture. *Aging by the Book* unmasks and confronts midlife anxiety by examining its origins, demonstrating that our current negative attitude toward midlife springs from Victorian roots and arguing that only when we understand the culturally constructed nature of age can we expose its ubiquitous and stealthy influence.
