Over four decades ago Yoshihiro Tatsumi expanded the horizons of comics story telling by using the visual language of manga to tell gritty literacy short stories about the private lives of everyday people he had been called the grandfather of Japanese alternative comics and has influenced generations of cartoonists but until now the majority of his work has remained unavailable outside of Japan By turns poetic comical and deeply unsettling *Abandon the Old in Tokyo* is a collection of unforgettable short stories from the modern master BOOK JACKET [Litcomix](#) Adam Geczy, Jonathan McBurnie, 2023-03-17 Critical studies of the graphic novel have often employed methodologies taken from film theory and art criticism Yet as graphic novels from *Maus* to *Watchmen* have entered the literary canon perhaps the time has come to develop theories for interpreting and evaluating graphic novels that are drawn from classic models of literary theory and criticism Using the methodology of Georg Lukács and his detailed defense of literary realism as a socially embedded practice *Litcomix* tackles difficult questions about reading graphic novels as literature What critical standards should we use to measure the quality of a graphic novel How does the genre contribute to our understanding of ourselves and the world What qualities distinguish it from other forms of literature *LitComix* hones its theoretical approach through case studies taken from across the diverse world of comics from Yoshihiro Tatsumi's groundbreaking manga to the Hernandez Brothers influential alt comix Whether looking at graphic novel adaptations of Proust or considering how Jack Kirby's use of intertextuality makes him the Balzac of comics this study offers fresh perspectives on how we might appreciate graphic novels as literature

Aging and Loss Jason Danely, 2015-01-02 By 2030 over 30% of the Japanese population will be 65 or older foreshadowing the demographic changes occurring elsewhere in Asia and around the world What can we learn from a study of the aging population of Japan and how can these findings inform a path forward for the elderly their families and for policy makers Based on nearly a decade of research *Aging and Loss* examines how the landscape of aging is felt understood and embodied by older adults themselves In detailed portraits anthropologist Jason Danely delves into the everyday lives of older Japanese adults as they construct narratives through acts of reminiscence social engagement and ritual practice and reveals the pervasive cultural aesthetic of loss and of being a burden Through first hand accounts of rituals in homes cemeteries and religious centers Danely argues that what he calls the self in suspense can lead to the emergence of creative participation in an economy of care In everyday rituals for the spirits older adults exercise agency and reinterpret concerns of social abandonment within a meaningful cultural narrative and by reimagining themselves and their place in the family through these rituals older adults in Japan challenge popular attitudes about eldercare Danely's discussion of health and long term care policy and community welfare organizations reveal a complex picture of Japan's aging society

Manga's Cultural Crossroads Jaqueline Berndt, Bettina Kümmerling-Meibauer, 2014-03-14 Focusing on the art and literary form of manga this volume examines the intercultural exchanges that have shaped manga during the twentieth century and how manga's culturalization is related to its globalization Through contributions from leading scholars in the fields of comics and Japanese culture it describes manga culture in two ways as a fundamentally hybrid culture comprised of both subcultures and transcultures and as an aesthetic culture which has eluded modernist notions of art originality and authorship The latter is demonstrated in a special focus on the best selling manga franchise NARUTO

Folktales Told Around the World Richard M. Dorson, 1975 Authentic field recorded texts of over one hundred tales recited by story tellers from forty six cultures around the world collected as a representative sampling of the world's folk traditions Korea and the Politics of Imperialism Chong Ik Eugene Kim, Han-Kyo Kim, *Local Government Development in Post-war Japan* Michio Muramatsu, Farrukh Iqbal, Ikuo Kume, 2001 This book examines the evolution of intergovernmental relations in postwar Japan These relations are shown to be both complex and dynamic and the Japanese model is revealed as one in which aspects of both central control and local autonomy have co existed with the balance shifting gradually over time towards the latter The Japanese system has helped to maintain broad based economic growth since it has at its core a strongly egalitarian fiscal transfer mechanism At the same time it has proved to be consistent to a much greater extent than previously recognized with political development or progress in the attainment of such political values as liberty personal rights and equality broad participation in public affairs for individuals and communities This is because the national government has proved flexible enough to accommodate although not always with grace or alacrity citizen concerns about the quality of life The Japanese approach to intergovernmental relationships has also been successful in solving coordination problems which often arise between local and central government units and in building capacity to support greater and effective decentralization Coordination problems have been handled through a variety of mechanisms including the practice of agency delegated functions while local capacity issues have been addressed through such practices as the exchange of personnel across different levels of government and the use of attractive compensation and training packages to recruit and retain local staff The Japanese experience thus provides an example of gradual and guided decentralization based on shared
