Cut/Copy/Paste Whitney Trettien,2022-02-15 How do early modern media underlie today s digital creativity In Cut Copy Paste Whitney Trettien journeys to the fringes of the London print trade to uncover makerspaces and collaboratories where paper media were cut up and reassembled into radical bespoke publications Bringing these long forgotten objects back to life through hand curated digital resources Trettien shows how early experimental book hacks speak to the contemporary conditions of digital scholarship and publishing As a mixed media artifact itself Cut Copy Paste enacts for readers what Trettien argues that digital forms have the potential to decenter patriarchal histories of print From the religious household of Little Gidding whose biblical concordances and manuscripts exemplify protofeminist media innovation to the queer poetic assemblages of Edward Benlowes and the fragment albums of former shoemaker John Bagford Cut Copy Paste demonstrates history s relevance to our understanding of current media Tracing the lives and afterlives of amateur bookwork Trettien creates a method for identifying and comprehending hybrid

objects that resist familiar bibliographic and literary categories In the process she bears witness to the deep history of radical publishing with fragments and found materials With many of Cut Copy Paste s digital resources left thrillingly open for additions and revisions this book reimagines our ideas of publication while fostering a spirit of generosity and inclusivity An open invitation to cut copy and paste different histories it is an inspiration for students of publishing or the digital humanities as well as anyone interested in the past present and future of creativity Science Discovery Activities Kit

Becker,1999-01-29 Intensive excavations in settlement areas within greater Tikal generated far more than an understanding of the complex gradations of social classes at this lowland Maya site Identification of a specific architectural pattern associated with relatively small shrines on the eastern side of certain residential groups and of a distinctive mortuary program provides a means by which a plaza plan can be predicted using good site maps alone This discovery enabled archaeologists to predict locations for high

status burials in residential as well as in ceremonial areas Application of these findings at sites beyond Tikal has been demonstrated to be successful throughout the region and even beyond the Maya heartland Identification of this plaza plan also has led us to recognize nine other architectural group plans at Tikal providing a model for planning excavation strategies and developing theories of cultural change at Tikal and other Maya sites University Museum Monograph 104
