Human Physiology: Expression of Veda and the Vedic Literature Tony Nader,2025-02-08 A Textbook of Life for Everyone Modern Science and Ancient Vedic Science Discover the Fabrics of Immortality in the Human Physiology Magnificent in scope this groundbreaking work details the relationship between the 40 branches of the Vedic Literature and their corresponding parts in the human physiology Our physiology is continuously performing millions of tasks to maintain order and balance in its functioning to allow growth and evolution to occur and to bring about increasing achievement and fulfillment The perfect order displayed in the human physiology and throughout the universe is based on Laws of Nature that have been studied by modern science for more than 150 years The profound insights into the ancient Vedic Literature brought to light by Maharishi Mahesh Yogi over the past forty years have guided the discovery that the laws that construct the human mind and body are the same as those that give structure to the syllables verses chapters and books of the Vedic

Literature This discovery has rendered the study of physiology to be the actualization of the supreme philosophy of life which establishes individual consciousness and national consciousness on the level of Cosmic Life     **Maharishi's Vedic Science and Post-secondary Art Education** Lee C.
