Regime and Education in Zimbabwe Bekithemba Dube,Albert Mufanechiya,2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy

Global Anti-Money Laundering Regulation Nkechikwu Azinge-Egbiri,Nicholas Ryder,Ehi Eric Esoimeme,2024-11-25 This book explores the politics of money laundering and terrorist financing ML TF regulation in several countries across Africa and the Small Island States Developed countries created the Financial Action Task Force FATF to combat ML TF globally Expectedly the FATF s standards mirror existing banking regulations within the G7 countries Yet the standards apply to all countries irrespective of the limited ML TF risks

they pose to the global economy their weak pre conditions for effective regulation and their non involvement in the FATF s framing Still such countries mainly within the Global South have worked hard to amplify their compliance with the regime due to fears of the repercussions of their non compliance This collection demonstrates how the global ML TF regulation is treated as an implicitly superior legal regime where the Global South must comply irrespective of their perception of the FATF s legitimacy challenges It shows that beyond exogenous factors such as neo colonialism endogenous factors such as weak institutions and corruption undermine the compliance trajectory of the Global South Furthermore it analyses the unintended consequences of transplanting FATF standards into diverse legal and cultural contexts The volume contributes to our understanding of the challenges of transplantation from the Global North and how the Global South is steering within the constraints created by the FATF It advocates for a comprehensive understanding of the nuanced compliance challenges of developing countries It further proposes practical solutions to address them emphasizing the importance of risk based understanding accountability capacity building and coordination in achieving effective anti money laundering and counter terrorist financing measures The collection will be essential reading for researchers academics and policy makers working in financial crime regulation and international economic law

Titles Without Merit Francis Machingura, Munyaradzi Mawere, 2024-05-29 This book examines the controversial issues surrounding the desire for titles both earned and unearned in Zimbabwe and beyond The desire for titles is often associated with the quest for status power class and recognition Unfortunately this desire has resulted in faking and the problem of distinguishing genuine PhDs from fake ones The unscrupulous quest for fake degrees is referred to in this book as Titlemania or Taitolomania The scramble for titles has not spared community leaders across the divide Of concern is the failure of higher education students to use their earned titles to contribute to the search for solutions to societal problems through national technological development The perspectives of the contributors in this volume provoke debates on the value of doctorates in Africa and Zimbabwe in particular considering that most PhD holders are not using their degrees to contribute to national development production of goods and services and the improvement of societal conditions
