has grave sexual descriptions of fantasy A remarkable work in this genre **The Power of the Soul Over the Body** George Moore,1846 *The Uncanny Rise of Medical Hypnotism, 1888-1914* Gordon David Lyle Bates,2023-12-02 This book explores the improbable rise of medical hypnotism in Victorian Britain and its subsequent assimilation and neglect It follows the careers of the New Hypnotists Charles Lloyd Tuckey John Milne Bramwell George Kingsbury and Robert Felkin This loosely knit group all trained with the Suggestion School of Nancy and published books on hypnotism They had to confront the many public and medical prejudices against the trance state which had persisted after the scandalous disgrace of John Elliotson and medical mesmerism fifty years before Hypnotism was a highly contested technology and in the 1890s the debates about safety and utility were fought in the national newspapers as well as the medical journals The new hypnotists took on the might of the medical institutions personified by Ernest Hart Editor of the British Medical Journal However their timing was propitious as the rise of faith healing forced the medical profession to confront the non physical therapeutic aspects of the doctor patient relationship The hypnotic discourse was shaped by these developments but also by the fascination of the general public novelists occultists psychic investigators educationalists and spiritualists in the myriad possibilities of the trance state Despite growing interest in the prehistory of British psychology and talking therapies and the recent challenges to the primacy of Freudian histories there are few accounts of the development of British eclectic therapy This book uses the New Hypnotists as a lens to examine Victorian medicine and society exploring their role in establishing the term psychotherapy and legitimising medical hypnotism a precursor of psychological therapies **The Power of the Soul Over the Body, Considered in Relation to Health and Morals** George Moore,1845 **Nineteenth Century Science Fiction** David Seed,2023-07-18 This volume presents a selection from the American and British fiction of the nineteenth century which was evolving into what we now know as science fiction Taking *Frankenstein* as its formative work it assembles stories and excerpts from narratives exploring the complex impact of new technologies like the telegraph and later the cinema or new scientific practices like mesmerism hypnotism and microscopy The selected authors range from those famous within the realist tradition like George Eliot and Mark Twain to scientists like the physician Silas Weir Mitchell and the inventor Thomas Edison They repeatedly destabilize their narratives so that some come to resemble scientific records and frequently leave their endings unresolved encouraging the reader to speculate about their subjects which include extensions to the senses new inventions and challenges to individual autonomy Many focus on experiments but might combine scientific enquiry with the supernatural producing hybrid narratives as a result which are difficult to classify

The Power of Mesmerism Anonymous,2012 *The Power of Mesmerism - Anonymous* ,2010-02-26 A passage from the book *Brackley Hall* was a fine old place in the lovely country of Devon and had been in the possession of the Etheridges for centuries The park was beautifully wooded and stretched down on one side to the coast commanding in all directions the most enchanting views Mr Etheridge was a man of some forty years of age of singularly handsome appearance and bore

evident traces of the Italian blood which flowed in his veins He had the appearance of a man having strong amorous passions but his manners were as gentle as those of a woman and he was universally popular throughout the whole county His wife was a woman of unusual beauty Descended from an old Spanish family she had married when but sixteen years of age Mr Etheridge having met her at the house of some friends and as they mutually fell in love with each other their united entreaties overcame the objection raised on account of her youth and in fact the warm blood that flowed in her veins had ripened her beauty to an extent almost unusual in those of more phlegmatic races **The Zoist** ,1847 The Publishers' Trade List Annual ,1983 **Isis Unveiled** H.
