including the serial killer sub genre that rose to prominence in the late 1980s Its themes are also echoed in contemporary films associated with arthouse cinema which are variously dubbed post horror and elevated horror The book will illuminate The Vanishing s close associations with modern day cinema arguing that its particular type of psychological horror has consistently resonated with audiences in the decades since its release

The Wind At My Back Paul Maunder, 2021-01-05 A lone cyclist disappearing into a wild landscape brave free engaged with the world It s the kind of image that sells bikes magazines clothing a romantic image that all cyclists aspire to For cycling is an activity deeply and intimately involved with landscape The bicycle allows us to explore to engage with wild places and return in time for dinner It also allows us to investigate our surroundings closer to home It is an activity which for most of us happens at a speed that allows a great deal of voyeurism We peer into houses and shops gardens and farmyards fields and hedgerows What we see may be familiar or alien but for the creative mind it is always stimulating Yet unlike with walking or swimming the connection between cycling and creativity has only been explored in

fragments On a bicycle as one is exposed to sights new or otherwise through chance or purposeful searching the repetitive physical actions of cycling work on the mind in a different way to those of walking The shape of a long ride can become the shape of a novel the atmosphere imbued by the weather the hills the physical exertion can all influence a writer's tone Our memories have a dialogue with the landscape we remember rides through the landscape and the landscape shapes our thinking And for Paul Maunder a writer all his adult life cycling and creativity have always been interlinked In *The Wind on Your Back* Maunder takes a journey from the most dense centres of population to the wild places starting from cycling in a major city then moving through suburbia the edgelands at the periphery of the city then into the managed and pastoral farmland and beyond to the sublime mountains He explores the experience and history of cycling in these different types of place and seeks to understand how cycling has played a role in his own creative life as well as that of other cyclist artists musicians photographers writers and painters Played out against the backdrop of the British countryside and drawing of elements of psychogeography and human geography Maunder seeks to understand the way the outside world interacts with the creative mind and the way our surroundings help to shape who we are Provided by publisher *Into the Suffersphere* Jon Malnick, 2016-08-31 According to the website of The Velominati the self-professed Keepers of the Cog the optimal number of bikes owned is $n + 1$ where n is the number of bikes owned But there's also an important corollary $s + 1$ where s is the number of bikes that will cause your wife or partner to leave you *Into the Suffersphere* Cycling and the Art of Pain is a brilliantly witty account of one former racer's exploration of whether cycling is the one sport that pushes its participants to the very limits of human endurance and delves painfully into the role that physical and mental suffering can play in this elite endurance sport Drawing together sporting history and pro cycling interviews and investigating current medical business and psychological theories this is the story of the extraordinary lengths to which minds and bodies can be pushed Peppered with recollections from the author's own racing experiences and offering a fascinating insight into the unique allure of pain in a sporting context *Into the Suffersphere* explores a side of cycling that you would never have dreamed of not even in your worst nightmare An essential read for all MAMILs middle aged men in Lycra and fans of sports writing and smart thinking
