How the Ear Works

1. Color the big ear (pinna) and the parts of the ear.
2. Cut out the labels and put them in order to show how the human ear works. Glue them on the template.
3. Cut out the outside of your template. Don't cut off the gray tabs on the ends.
4. Cut around the outside of the ear and along the dashed line in the middle.
5. Glue one half of the ear to the left side of the template, and the other half on the right.
6. When the glue is dry, fold the template along the black lines. There is a picture to help you with this part.
