

## Parallels and Meridians

### Thursday

1. Lines of latitude are also called parallels. Why?

---

2. Lines of longitude are not parallel to each other. Explain why.

---

### Friday

1. Between which two parallels and which two meridians is the tip of Africa located?

---

2. Are 15°N latitude and 75°E longitude locations in the continent of Asia or Europe?

---

### Challenge

Write the following memory trick as a caption on the map page. Illustrate the caption to help you remember in which directions the parallels and meridians run.

- The lines of *latitude*, which sounds like “ladder,” lie like the rungs of a ladder.
- The lines of *longitude* are “long” and all run from the North Pole to the South Pole.
