Twenty Years of Education Transformation in Gauteng 1994 to 2014 Maringe, Felix, Prew, Martin, 2015-05-05
Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years *School Teachers' Review Body twenty-second report - 2013*
School Teachers' Review Body, 2013-06-27 In this 22nd report the Review Body was asked to consider how to apply teachers pay the Government's average 1 percent pay uplift policy which applies across the public sector This remit follows a two year pay freeze and the Government has made clear there will be two further years of pay restraint for the public sector as a whole In light of the Review Body's 21st report the Education Department published advice to schools on revising their approach to pay September 2013 will be the last time annual pay increments will be awarded to teachers based on length of service Thereafter schools will be free to make individual progression decisions based on appraisal with points retained for reference only on the main pay scale The Department has said there was no additional funding for schools to cover the 2013 pay award In the area of recruitment and retention the Body suggested there were some emerging areas of concern including competitive pressures especially in urban areas The Review Body has given particular weight to the need for simplicity so schools can concentrate on preparing for implementation of proposals in the last report and also the need to provide some underpinning support for the teacher labour market as a whole They recommend an increase of 1 percent from September 2013
Using Evidence in Policy and Practice Ian Goldman, Mine Pabari, 2020-06-10 This book asks how governments in Africa can use evidence to improve their policies and programmes and ultimately to achieve positive change for their citizens Looking at different evidence sources across a range of contexts the book brings policy makers and researchers together to uncover what does and doesn't work and why Case studies are drawn from five countries and the ECOWAS west African region and a range of sectors from education wildlife sanitation through to government procurement processes The book is supported by a range of policy briefs and videos intended to be both practical and critically rigorous It uses evidence sources such as evaluations research synthesis and citizen engagement to show how these cases succeeded in

informing policy and practice The voices of policy makers are key to the book ensuring that the examples deployed are useful to practitioners and researchers alike This innovative book will be perfect for policy makers practitioners in government and civil society and researchers and academics with an interest in how evidence can be used to support policy making in Africa The Open Access version of this book available at <https://doi.org/10.4324/9781003007043> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
