Echizen,2016-03-30 This book constitutes revised selected papers from the 14th International Workshop on Digital Forensics and Watermarking IWDW 2015 held in Tokyo Japan in October 2015 The 35 papers presented in this volume were carefully reviewed and selected from 54 submissions The contributions are organized in topical sections named digital forensics steganography and steganalysis digital watermarking reversible data hiding and visual cryptography **Living Pictures**

Noa Turel,2020-09-25 A significant new interpretation of the emergence of Western pictorial realism When Jan van Eyck c 1390 1441 completed the revolutionary Ghent Altarpiece in 1432 it was unprecedented in European visual culture His novel visual strategies including lifelike detail not only helped make painting the defining medium of Western art they also ushered in new ways of seeing the world This highly original book explores Van Eyck s pivotal work as well as panels by Rogier van der Weyden and their followers to understand how viewers came to appreciate a world depicted in two dimensions Through careful examination of primary documents Noa Turel reveals that paintings were consistently described as au vif made not from life but into life Animation not representation drove Van Eyck and his contemporaries Turel s interpretation reverses the commonly held belief that these artists were inspired by the era s burgeoning empiricism proposing instead that their living pictures helped create the conditions for empiricism Illustrated with exquisite fifteenth century paintings this volume asserts these works key role in shaping rather than simply mirroring the early modern world **Skepticism's Pictures**

Melissa Lo,2023-05-26 In seventeenth century northern Europe as the Aristotelian foundations of scientia were rocked by observation experiment confessional strife and political pressure natural philosophers came to rely on the printed image to fortify their epistemologies and none more so than Ren Descartes In Skepticism s Pictures historian of science Melissa Lo chronicles the visual idioms that made sustained revised and resisted Descartes s new philosophy Drawing on moon maps political cartoons student notebooks treatises on practical mathematics and other sources Lo argues that Descartes transformed natural philosophy with the introduction of a new graphic language that inspired a wide range of pictorial responses shaped by religious affiliation political commitment and cultural convention She begins by historicizing the graphic vocabularies of Descartes s Essais and Principia philosophiae and goes on to analyze the religious and civic volatility of Descartes s thought which compelled defenders such as Jacques Rohault and Wolferd Senguerd to reconfigure his pictures according to their local visual cultures and stimulated enemies such as Gabriel Daniel to unravel Descartes s visual logic with devastating irony In the epilogue Lo explains why nineteenth century French philosophers divorced Descartes s thought from his pictures creating a modern image of reason and a version of philosophy absent visuality Engaging and accessible Skepticism s Pictures presents an exciting new approach to Descartes and the visual reception of seventeenth century physics It will appeal to historians of early modern European science philosophy art and culture and to art historians

**Literacies Across the Curriculum** August, Anita, 2017-08-10 A student's learning experience can be enhanced through a multitude of pedagogical strategies. This can be accomplished by visually engaging students in classroom activities. **Visual Imagery, Metadata, and Multimodal Literacies Across the Curriculum** is a pivotal reference source that examines the role of visual-based stimuli to create meaningful learning in contemporary classroom settings. Highlighting a range of relevant topics such as writing, composition, data visualization, and literature studies, this book is ideally designed for educators, researchers, professionals, and academics interested in the application of visual imagery in learning environments.

**Social and Emotional Learning in Out-Of-School Time** Elizabeth Devaney, Deborah A. Moroney, 2018-09-01 This volume focuses on social and emotional learning (SEL) from a variety of perspectives. The goal of the volume is to offer a clear framing of SEL in relation to other related out-of-school time concepts and initiatives. SEL has gained popularity as a concept in recent years, and there remains confusion as well as great interest in the meaning and implementation of SEL in OST. Policymakers, researchers, and practitioners are pursuing work related to SEL in OST, and this volume offers an opportunity to share that work by defining and explaining SEL in a variety of out-of-school contexts and highlighting opportunities for integration and alignment with other fields, e.g., formal education. Clarifying the language and framework, confusion, and honoring the field's foundation in thinking about social and emotional development through high-quality youth development practice, sharing information about current trends and new developments, and how that work is shaping the field across the developmental continuum. Making the research-to-practice connection by including in each chapter foundational research on the topic, evidence of effective efforts, and practical implications. Offering recommendations for researchers, practitioners, and policymakers related to SEL in OST settings.

**ENDORSEMENTS** The social and emotional development of our nation's youth is a common essential concern of those working in school and out of school. This volume will be the catalyst for long overdue conversation, collaboration, and synergy. It is essential reading for practitioners, researchers, and policy makers in both contexts who are concerned with preparing children for the tests of life and not a life of tests. Maurice J. Elias, Ph.D., Rutgers University, Co-director, Academy for Social Emotional Learning in Schools and After-School Settings. Having spent all of my adult life working with and advocating for high-quality youth programming, I understand the critical role out-of-school time OST programs play in the social and emotional development of young people. As the Executive Director of the New York State Network for Youth Success, I am thrilled to see such a comprehensive view of current best practices and research on social emotional learning SEL in OST programs. It is exciting and encouraging to see so much documented progress with SEL in OST condensed into one comprehensive book that furthers understanding of both research-informed practices and systems building around policy. This book, edited by two leading researchers in the field, Elizabeth Devaney and Deborah Moroney, should be required reading for any practitioners, policy makers, and educators in the field. Both the editors and contributors

The Top Books of the Year 50 Masters Realistic Imagery 2015 2016 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
