Sixteen for '16 Salvatore J. Babones,2015-04-08 The election of the next US president is upon us and with established politicians such as Hillary Clinton and Jeb Bush poised to be key players the campaigns seem destined to be as contentious as ugly and as seemingly removed from the reality of American lives as ever In Sixteen for 16 Salvatore Babones takes the politics out of policy bringing the debate back to the issues that matter in a new unified agenda for the 2016 elections Decades of destructive social and economic policies have devastated poor working and middle class American communities It is now clear that harsh austerity does not bring prosperity that the wealthy have no intention of seeing their wealth trickle down and that each generation is no longer better off than the ones that came before But what to do In this progressive election field manual Babones outlines sixteen core principles to combat these entrenched problems America needs jobs infrastructure a rededication to public education universal healthcare higher taxes on higher incomes a more secure Social Security an end to the rule of the bankers stronger unions a living minimum wage better working conditions an end to the prison state secure reproductive rights voter equality a more moral foreign policy a more humane refugee policy and action on global warming A clear concise manifesto supported by hard data Sixteen for 16 makes a compelling case for each of these ambitious positions And as ambitious as Babones s suggested policies are they represent a beginning not an end The progressive movement is on the march in America and this accessible book charts a realistic path toward a destination all can believe in a better tomorrow

National Resources Development Report for 1943 ... United States. National Resources Planning Board,1943
