conventional approach to endurance training While marathons and triathlons are wildly popular and bring much gratification and camaraderie to the participants the majority of athletes are too slow continually tired and carry too much body fat respective to the time they devote to training The prevailing chronic cardio approach promotes carbohydrate dependency overly stressful lifestyle patterns and ultimately burnout Mark Sisson author of the 2009 bestseller The Primal Blueprint and de facto leader of the primal paleo lifestyle movement expertly applies primal lifestyle principles to the unique challenge of endurance training and racing Unlike the many instant and self anointed experts who have descended upon the endurance scene in recent years Sisson and his co author business partner Brad Kearns boast a rich history in endurance sports Sisson has a 2 18 marathon and 4th place Hawaii Ironman finish to his credit has spearheaded triathlon s global anti doping program for the International Triathlon Union and has coached advised leading professional athletes including Olympic triathlon gold and silver medalist Simon Whitfield and Tour de France cyclist Dave Zabriskie Under Sisson s guidance Kearns won multiple national championships in duathlon and triathlon and rose to a 3 world triathlon ranking in 1991 Primal Endurance applies an all encompassing approach to endurance training that includes primal aligned eating to escape carbohydrate dependency and enhance fat metabolism building an aerobic base with comfortably paced workouts strategically introducing high intensity strength and sprint workouts emphasizing rest recovery and an annual periodization and finally cultivating an intuitive approach to training instead of the usual robotic approach of fixed weekly workout schedules When you go Primal as an endurance athlete you can expect to enjoy these and other benefits in short order Easily reduce excess body fat and keep it off permanently even during periods of reduced training Perform better by reprogramming your genes to burn fat and spare glycogen during sustained endurance efforts Avoid overtraining burnout illness and injury by improving your balance of stress and rest both in training and everyday life Spend fewer total hours training and get more return on investment with periodized and purposeful workout patterns Have more fun be more spontaneous and break free from the pull of the obsessive compulsive mindset that is common among highly motivated goal oriented endurance athletes Have more energy and better focus during daily life instead of suffering from the active couch potato syndrome with cumulative fatigue from incessant heavy training makes you lazy and sluggish Primal Endurance is about slowing down balancing out chilling out and having more fun with your endurance pursuits It s about building your health through sensible training patterns instead of destroying your health through chronic training patterns While it might be hard to believe at first glance you can actually get faster by backing off from the overly aggressive and overly regimented Type A training approach that prevails in today s endurance community Primal Endurance will show you how every step of the way

Moms in Motion Endurance Michael Allison, 2011-05-22 Moms In Motion Endurance is a comprehensive endurance training program for moms Unlike other endurance plans it emphasizes the importance of developing power strength elasticity and stability versus spending time doing long slow distance training Inside you ll find specialized programs for running 5km 10km half

and full marathon distances as well as sprint olympic half and full ironman triathlons Danny Vega's 5K HYBRID TRAINING Danny Vega,2022-01-14 The 5K Hybrid Training template is a 2 month program aimed at preparing someone to run a 5k while managing the volume for lifting to maintain or even increase strength It is useful for lifters who want to start running and do not know where to start or runners who want to add lifting to their program to increase strength but maintain their conditioning In both cases the athlete will probably have to step back and slow down in the discipline he or she is most comfortable with This program is designed to manage the volume on both so that you can train them concurrently without sacrificing one or the other
