Life Orientation November 2013:

Systems and Software Quality Martin Wieczorek, Diederik Vos, Heinz Bons, 2014-05-08 Software and systems quality is playing an increasingly important role in the growth of almost all profit and non profit organisations Quality is vital to the success of enterprises in their markets Most small trade and repair businesses use software systems in their administration and marketing processes Every doctor s surgery is managing its patients using software Banking is no longer conceivable without software Aircraft trucks and cars use more and more software to handle their increasingly complex technical systems Innovation competition and cost pressure are always present in on going business decisions The question facing all these organisations is how to achieve the right quality of their software based systems and products how to get the required level of quality a level that the market will reward a level that mitigates the organisation s risks and a level that the organisation is willing to pay for Although a number of good practices are in place there is still room for huge improvements Thus let us take a look into the two worlds of Embedded systems and ICT systems and let us learn from both worlds from overlaps and individual solutions The next step for industrialisation in the software industry is required now Hence three pillars will be focused in this book 1 a fundamental notion of right software and systems quality RiSSQ 2 portfolio management quality governance quality management and quality engineering as holistic approach over the three layers of an enterprise i e strategic tactical and operational layer and 3 an industrialisation framework for implementing our approach *Religious*

Education in a Global-Local World Jenny Berglund, Yafa Shanneik, Brian Bocking, 2016-07-15 This book examines Religious Education RE in over ten countries including Australia Indonesia Mali Russia UK Ireland USA and Canada Investigating RE from a global and multi interdisciplinary perspective it presents research on the diverse past present and possible future forms of RE In doing so it enhances public and professional understanding of the complex issues and debates surrounding RE in the wider world The volume emphasizes a student centred approach viewing any kind of RE or its absence as a formative lived experience for pupils It stresses a bottom up sociological and ethnographic anthropological research based approach to the study of RE rather than the top down approaches which often start from prescriptive legal ideological or religious standpoints The twelve chapters in this volume regard RE as an entity that has multiple and contested meanings and interpretations that are constantly negotiated For some RE means religious nurturing either tailored to parental views or meant to inculcate a uniform religiosity For others RE means learning about the many religious and non religious world views and secular ethics that exist not promoting one religion or another Some seek to avoid the ambiguous term religious education replacing it with terms such as education about religions and beliefs or the religious dimension of intercultural education

Trans* Policies & Experiences in Housing & Residence Life Jason C. Garvey, Stephanie H. Chang, Z Nicolazzo, Rex Jackson, 2023-07-03 Co published with What are the institutional politics associated with fostering trans inclusive policies When formalizing a policy what unanticipated challenges may emerge How are students particularly trans

students influenced by the implementation of gender inclusive housing practices and policies Also what are campus administrators and practitioners learning from their involvement with the development of trans work on campus Housing and Residence Life HRL plays an important role in the safety well being and sense of belonging for college students but gender inclusive policies and practices in HRL are largely under explored in student affairs and higher education publications There are five key objectives that guide this book 1 To promote and challenge student affairs and higher education staff knowledge about trans students identities and experiences 2 To support and celebrate the accomplishments of educators and professionals in their strides to promote trans inclusive policies and practices 3 To highlight the unique role that housing and residence life plays in creating institutional change and serving trans student populations 4 To demonstrate the value and use of scholarly personal narratives particularly for narrating experiences related to implementing trans inclusive policies in housing and residence life and 5 To create a strong partnership between scholarship and student affairs practice by developing an avenue for practitioner scholars to publish their experiences related to gender inclusive policies in housing and residence life and for others to use these stories to improve their practice Administrators educators and student affairs staff will find this book useful at any stage in the process of creating gender inclusive housing policies on their campuses

Business Ethics Gael McDonald, 2015 *Business Ethics* introduces students to ethical issues and decision making in a variety of contemporary contexts The book addresses corporate social responsibility stakeholder management and sustainability It develops an awareness of the many ways in which ethical considerations can manifest in commercial domains thereby helping prepare students for their professional careers , *International Comparative Perspectives on Religion and Education* Charl C. Wolhuter, Corene de Wet, 2014-05-31 This book scrutinises religion in education in ten countries It reveals much about the tension between religion and education in secular countries and the blending between religion and education in religious countries such as Iran and Malaysia as well as secular countries such as the Netherlands It also shows the important role the church currently plays in education in developing countries such as Tanzania

Religion and Human Rights Hans-Georg Ziebertz, Gordan Črpić, 2015-01-13 This book examines the relationship between human rights and religiosity It discusses whether the impact of religiosity on human rights is liberational or suppressive and sheds light on the direction in which the relationship between religion and human rights is expected to develop The questions explored in this volume are Which are the rights that are currently debated or under pressure What is the position on human rights that churches and religious communities represent Are there tensions between churches religious communities and the state Which rights are especially relevant for young people and which relate to adolescents life world experiences Covering 17 countries the book describes two separate yet connected studies The first study presents research by experts from individual countries describing the state of human rights and neuralgic points anticipated in individual societies The other study presents specific findings on the relationship between these two social phenomena from empirical research in a population of

high school students Studying this particular population allows insights into social trends value systems and attitudes on human rights as well as an indication of the likely directions of development and potential room for intervention *The United Nations and Freedom of Expression and Information* Tarlach McGonagle,Yvonne Donders,2015-06-11 Maps the UN legal instruments relevant for the protection and promotion of the rights to freedom of expression and information *The Millennials on Film and Television* Betty Kaklamanidou,Margaret Tally,2014-03-13 The millennials who constitute the largest generation in America s history may resist a simple definition nevertheless they do share a number of common traits and also an ever increasing presence on film and television This collection of new essays first situates the millennials within their historical context and then proceeds to an examination of specific characteristics as addressed in the television and film narratives created about them including their relationship to work technology family religion romance and history Drawing on a multiplicity of theoretical frameworks the essays show how these cultural products work at a number of levels and through a variety of means to shape our understanding of the millennials **Qatar and the Arab Spring** Kristian Ulrichsen,2014 Qatar and the Arab Spring offers a frank examination of Qatar s startling rise to regional and international prominence describing how its distinctive policy stance toward the Arab Spring emerged In only a decade Qatari policy makers led by the Emir Sheikh Hamad bin Khalifa Al Thani and his prime minister Sheikh Hamad bin Jassim Al Thani catapulted Qatar from a sleepy backwater to a regional power with truly international reach In addition to pursuing an aggressive state branding strategy with its successful bid for the 2022 FIFA World Cup Qatar forged a reputation for diplomatic mediation that combined intensely personalized engagement with financial backing and favorable media coverage through the Al Jazeera These factors converged in early 2011 with the outbreak of the Arab Spring revolts in North Africa Syria and Yemen which Qatari leaders saw as an opportunity to seal their regional and international influence rather than as a challenge to their authority and this guided their support of the rebellions against the Gaddafi and Assad regimes in Libya and Syria From the high watermark of Qatari influence after the toppling of Gaddafi in 2011 that rapidly gave way to policy overreach in Syria in 2012 Coates Ulrichsen analyses Qatari ambition and capabilities as the tiny emirate sought to shape the transitions in the Arab world *Global and Regional Leadership of BRICS Countries* Stephen Kingah,Cintia Quiliconi,2015-11-17 This book presents a systematic collation of the regional and global dimensions of the leadership role of BRICS countries Brazil Russia India China and South Africa It analyses the rising regional and global leadership of BRICS using specific benchmarks to gauge the nature of this leadership The elements examined include willingness to lead the capacity to do as much and the degree to which the given actor is accepted as a leader both within and beyond its region The chapters in the book capture the nature of trends in regional and global leadership within the contexts of a changing international order It is taken for granted that Brazil Russia India China and South Africa are now engineering a unique pool of governance that is seeking alternatives to the current order of global economic and political affairs The fact that these

countries have jointly decided to forge ahead with the BRICS constellation of states that is now taking consequential decisions such as the creation of the BRICS New Development Bank is not to be treated lightly In this book the majority of papers take a step back and systematically analyse the real state of the leadership that is provided by the BRICS on a litany of regionally and globally relevant issues While no one doubts the fact that these countries have the capacity to provide leadership especially in their various regions on many issues what remains moot is whether they are willing and capable to do so at the global level Even in those cases where there is the willingness and capacity the book argues that the acceptance of such leadership by potential followers is not always a given

Fundamental Rights in the EU Sonia Morano-Foadi, Lucy Vickers, 2015-04-30 This collection joins the new and expanding scholarship on the protection of fundamental rights in Europe and reflects on the relationship between the Court of Justice of the European Union CJEU and the European Court of Human Rights ECtHR The book questions whether the changes introduced by the Lisbon Treaty align the CJEU to the ECtHR's interpretation and methods triggering different processes of institutionalisation within a coherent European system These issues are explored through a contextual analysis of areas of law such as equality rights in employment law citizenship and migration internet law and access to justice This volume includes perspectives from the scholarly community as well as practitioners judges and European policy makers It also examines the state of accession of the EU to the European Convention on Human Rights ECHR and considers the legal implications of the interactions of the two courts for the protection of the fundamental rights of EU citizens and individuals legally residing in Europe The volume is essential reading for practitioners judges European policy makers and members of the scholarly community working in this area of law
