**Unforgettable** W. Michael Gray, 2016-10-12 We have an uneasy relationship with the relentless deluge of information gushing out of academia and our media outlets To turn it off is escapist but to attempt to cognitively grapple with it is overwhelming In *Unforgettable* Enabling Deep and Durable Learning a nationally recognized master teacher gives professors and their students the means to chart a clear path through this information explosion Humans crave explanatory patterns and this book enables teachers to think deeply about their academic disciplines to find and articulate their core explanatory principles and to engage their students in a compelling way of thinking An alternative title for this book could be *Why the Best College Teachers Do What They Do* because the author articulates a compelling rationale that will equip faculty to create and deliver transformative courses Students in transformative courses grapple with essential questions and gain mental muscle that equips them for real world challenges Design Principles for Teaching Effective Writing Raquel

Fidalgo Redondo, Karen Harris, Martine Braaksma, 2017-11-20 This volume presents effective instructional programs focused on two perspectives on writing the teaching and learning of writing as a skill and the use of writing as a learning activity in various school subjects or skills acquisition It is focused on analysing micro design features of the programs such as learning activities supporting materials specific strategies instructional techniques but also macro design rules of intervention programs such as instructional sequence instructional stages based on research evidence provided for previous studies This volume goes beyond a practical volume because it provides additional reflection and discussion about theoretical background and empirically based evidence which support the specific intervention programs described Several chapters in this book include links to an Open Access e book where teacher and student materials for the authors instructional approaches can be found see ToC **Labs of Our Own** Sig / Sara Giordano, 2025-02-11 From climate change to COVID 19 to reproductive

justice there has been deep political polarization around science *Labs of Our Own* provides a unique entry point into these twenty first century science wars by focusing on our affective relationships to science The book delves into various sites where scientists teachers artists and activists claim to create more democratic access to science from DIY biology community labs to feminist classrooms to activist science practitioners The reader will find that these claims for and attempts at democratic sciences not only impact what counts as science and who counts as a scientist but reconfigure who is included in the proper public Instead of arguing for a knee jerk defense of science against right wing attacks *Labs of Our Own* builds the case for a feminist antiracist decolonial queer science tinkering practice that intentionally politically and ethically acts to produce new challenges to the definition and boundaries of the human □□ □□□, □□, 2018-12-01 *Science Fraud: Darwin's Plagiarism of Patrick Matthew's Theory* Mike Sutton, 2023 Patrick Matthew in 1831 originated the complete theory of evolution by natural selection in his book *On Naval Timber and Arboriculture* and did so before Charles Darwin and Alfred Wallace claimed to independently replicate it in 1858 Unjustly and against the Arago convention on priority a ruling that

gives origination of any science theory to the first to publish Matthew has been illicitly denied his priority on the grounds he never influenced anyone with his breakthrough Today Big Data research has uncovered Darwin's science fraud by plagiarism revealing evidence which proves beyond all reasonable doubt that he and Alfred Wallace both independently plagiarised the theory of evolution by natural selection from Patrick Matthew Books have been newly unearthed in the publication record to show that at least 30 people cited Matthew's work in published literature before 1858 and that several were known influencers of Darwin's and Wallace's work in the field Additionally several people in Darwin's and Wallace's social circles were first to be second into print using original terms coined by Matthew in his bombshell breakthrough book This book reveals all the newly unearthed data and essentially explains it alongside the deplorable treatment of Patrick Matthew in scholarly historical context Dr Mike Sutton further reveals using social science participatory observation methods and experimental results how members of the so called Darwin Industry enabled and facilitated by the deliberate publication of falsehoods and other grossly misleading editing on Wikipedia have disgracefully worked to re bury these newly unearthed facts by means of knee jerk blind sight ignorant rejection blatant and deliberate fact denial censorship persistent and serious workplace harassment obscene social media abuse poison pen emails lies mischievous misrepresentation and repeat research plagiarism

*Guyana: from Slavery to the Present* Ramesh Gampat, 2015-04-15 It is common knowledge that slavery and indenture were characterized by long hours of physical labor restriction of movement and other basic human freedoms and severe punishment for violations of draconian labor laws Less well known is the fact that nutrition was very deficient and a range of infectious diseases maimed debilitated and killed on a large scale In trying to narrow the knowledge gap with respect to Guyana Ramesh Gampat shows that extremely poor sanitary conditions hygiene and nutrition hastened infections and created a vicious cycle The British protected its own soldiers officials and colonists by establishing a medical enclave that lasted until Emancipation in 1838 Former slaves were quarantined to neglected and decaying villages and Indians to plantations Concern with health conditions appeared only during periods of epidemics and even then it was essentially for the protection of Europeans Colonial medicine opened the way for stereotyping labeling racialization of disease neutralization of potential leaders in the struggle for justice and crystallization of the view that Europeans were superior to Blacks and Indians Shorter stature and life expectancy are good indications that slaves and indentured immigrants fared considerably less well than Europeans Several infectious diseases sickened and fell Blacks and Indians including malaria and undefined fevers pneumonia and bronchitis diarrhea and enteritis tuberculosis pneumonia and hookworm The conquest of malaria in the early 1950s initiated the epidemiological transition from communicable to chronic

diseases and today NCDs account for some three quarters of all deaths in Guyana Malaria has reemerged fueled by a gold boom that consumes huge amount of mercury The potentially adverse public health consequences of the trio have been neglected

Gender Trouble and Current Archaeological Debates Uroš Matić, Bisserka Gaydarska, Laura Coltofean, Marta Díaz-Guardamino, 2024-10-28 This volume challenges the status quo by addressing a selection of intensely discussed themes in contemporary archaeological practice from a gender perspective It aims to demonstrate that gender is intrinsic to archaeology and that gender archaeology can enrich our studies irrespective of the discipline's possible future directions and so called paradigm shifts The scholarly contributions commissioned for this volume critically discuss and reflect on a wide range of concepts ideas principles and theories presently applied in archaeology within the framework of gender The chapters included in the first part deal with themes in world archaeology that have little or no focus on gender such as the Third Science Revolution e g ancient DNA stable isotopes analyses big data posthumanism e g new materialism symmetrical archaeology and the ontological turn and digital archaeology and heritage The second part focuses on themes in which gender archaeology has made serious advances intersectionality social inequality violence mobility The third part deals with themes crucial for contemporary archaeology and society namely gender education gender representation in museum exhibitions and the future of gender archaeology The volume concludes with a coda chapter that critically assesses the preceding contributions and the volume as a whole The book offers a gender balanced and inclusive authorship consisting of both well established and early career researchers closely connected to the EAA whose professionally culturally and geographically diverse backgrounds and experiences enrich the viewpoints discussed in the chapters The targeted audience is archaeologists from all theoretical and scientific backgrounds at all stages of their career Chapter 2 Sex Gender and the Third Science Revolution is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)
