12 Ignored Truths When Picking a Life Partner B.A. Crisostomo, 2023-05-02 Why Rush Into Marriage If love and attraction are all you need for a happy and long lasting marriage why do so many great relationships end in a breakup Why is cohabitation becoming more common while marriages are becoming less common In the past our ancestors usually didn't get married because they loved each other Instead they did it to join families and raise children together Their marriages were usually set up by their parents and they would start with a betrothal They lacked the same benefits rights and systems that modern spouses in many countries enjoy Can we say that the relationships between modern couples are better than those of our ancestors given that mutual love is the main reason people get married today This book talks about the truths most would be couples ignore before they decide on their own to get married Once their marriage becomes miserable they start to realize that they made mistakes in their choice of partner Political Science Class - XII - SBPD Publications Dr. J. The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake

Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America s oldest public schools

Multidisciplinary Perspectives on Zimbabwe's Liberation Struggle Munyaradzi Nyakudya, Wesley Mwatwara, Joseph Mujere, 2022-11-15 This book provides a timely reconceptualization of Zimbabwe s anti colonial liberation struggle resisting simple binaries in favour of more nuanced critical analysis Most historiographies characterize Zimbabwe s liberation struggle as being defined by simple bifurcations along racial ethnic class and ideological perspectives This book argues that the nationalist struggle is far more complex than such simple configurations would suggest and that many actors have been overlooked in the analysis The book broadens our understanding by analysing the roles of a wide range of political figures organizations and members of the military as well as the media and the often overlooked part that women played Over the course of the book the contributors also reflect on the ways in which revolutionary figures have been repainted as sellouts in particular by the ZANU PF ruling party and what that means for the country s interpretation of their recent past Highlighting in particular the expertise of leading scholars from within Zimbabwe across a range of disciplines this book will be of interest to researchers of African history politics and postcolonial studies

The One Percent Solution Gordon Lafer, 2017-04-04 In the aftermath of the 2010 Citizens United decision it s become commonplace to note the growing political dominance of a small segment of the economic elite But what exactly are those members of the elite doing with their newfound influence The One Percent Solution provides an answer to this question for the first time Gordon Lafer s book is a comprehensive account of legislation promoted by the nation s biggest corporate lobbies across all fifty state legislatures and encompassing a wide range of labor and economic policies In an era of growing economic insecurity it turns out that one of the main reasons life is becoming harder for American workers is a relentless and concerted offensive by the country s best funded and most powerful political forces corporate lobbies empowered by the Supreme Court to influence legislative outcomes with an endless supply of cash These actors have successfully championed hundreds of new laws that lower wages eliminate paid sick leave undo the right to sue over job discrimination and cut essential public services Lafer shows how corporate strategies have been shaped by twenty first century conditions including globalization economic decline and the populism reflected in both the Trump and Sanders campaigns of 2016 Perhaps most important Lafer shows that the corporate legislative agenda has come to endanger the scope of democracy itself For anyone who wants to know what to expect from corporate backed Republican leadership in Washington D C there is no better guide than this record of what the same set of actors has been doing in the state legislatures under its control

Net Privacy Sacha Molitorisz, 2020-05-21 In our digital world we are confused by privacy what is public what is private We are also challenged by it the conditions of privacy so uncertain we become unsure about our rights to it We may choose to share personal information but often do so on the assumption that it

won't be re-shared, sold or passed on to other parties without our knowing. In the eighteenth century philosopher Jeremy Bentham wrote about a new model for a prison called a Panopticon where inmates surrounded the jailers always under watch. Have we built ourselves a digital Panopticon? Are we the guards or the prisoners, captive or free? Can we be both? When Kim Kardashian makes the minutiae of her life available online, which is she? With great rigour, this important book draws on a Kantian philosophy of ethics and legal frameworks to examine where we are and to suggest steps, conceptual and practical, to ensure the future is not dystopian. Privacy is one of the defining issues of our time; this lively book explains why this is so and the ways in which we might protect it.

Failing Our Future Joshua R. Eyler, 2024-08-27. An indictment of the grading system in American schools and colleges and a blueprint for how we can change it. One of the most urgent and long-standing issues in the US education system is its obsession with grades. In *Failing Our Future*, Joshua R. Eyler shines a spotlight on how grades inhibit learning, cause problems between parents and children, amplify inequities and contribute to the youth mental health crisis. Eyler, who runs the Center for Excellence in Teaching and Learning at the University of Mississippi, illustrates how grades interfere with students' intrinsic motivation and perpetuate the idea that school is a place for competition rather than discovery. Grades force students to focus on rewards and distract them from exploring ideas or pursuing interests beyond what they'll be tested on. In fact, grades significantly impede the learning process. They are also significantly affecting children's physical, emotional and psychological well-being. Rates of anxiety, depression and suicidal ideation have spiked, and academic stress tied to grades is a leading cause of this escalation. Eyler shares success stories of grading reform efforts that are already under way as an antidote to the harms caused by the practices currently used in educational institutions. Equal parts scathing and hopeful.

Failing Our Future aims to improve the lives of students by encouraging them to define success on their own terms Parents educators policymakers and students will find in these pages a rallying cry for change and a blueprint for how to implement reforms in our homes and classrooms

Making History New Seamus O'Malley, 2014-10-24 Guided by Ezra Pound s dictum Make it new a generation of writers set out to create fiction and poetry that was unlike anything that came before it However as

Seamus O Malley shows historical narrative was a key site for modernist experimentation Taking three of literary modernism s major figures Joseph Conrad Ford Madox Ford and Rebecca West Making History New demonstrates how the movement s literature not only engaged with history but also transformed traditional approaches to its telling in unique ways Informed by Paul Ricoeur s belief that narrative is necessary to comprehend historical processes the study closely examines four major modernist historical novels Conrad s Nostromo interrogates the very term history as it relates the political tumult of a fictitious Latin American country while Ford s The Good Soldier mirrors the cyclical nature of historiography with a protagonist who returns repeatedly to intense periods of his own past to better comprehend them Two epochal World War I novels The Return of the Soldier and Parade s End depict shell shocked veterans that illustrate the paradox of an accurate historical rendering achieved through the process of amnesia These novels in O Malley s view lead to the high point of what he terms modernist historiography Rebecca West s innovative 1941 travelogue Black Lamb and Grey Falcon and its preoccupation with history s impossibility The monograph concludes with a brief consideration of how historians since World War II have adopted some of the approaches to narrative inaugurated by literary modernists while wrestling with how to relate unthinkable atrocities such as genocide Ultimately Making History New foregrounds narrative s essential role as a bridge between fiction and history as it explores the process by which collective human experience becomes historical narrative
