interdisciplinary volume that restores Africa's image using a multidisciplinary lens. It incorporates disciplines such as sociology, education, global studies, economics, development studies, political science, and philosophy to explore and theorise Africa's reality in the global space and to deconstruct the misperceptions and narratives that often infantilise Africa's internal and international relations. The contributions to this volume are a hybrid of both outsider and insider perspectives that create a balanced critical discourse that can provide standard paradigms that can adequately explain, predict, or prevent Africa's current misperceptions and myths about the African crisis and failure status. The authors provide a holistic and perhaps anticolonial and anti-hegemonic perspective that can benefit a wide spectrum of academics, scholars, students, development agents, policy makers in both governmental and non-governmental organisations, and engage some alternative analyses and possibilities for socio-political and economic advancement in Africa. The book provides up-to-date scholarly research on continental trends on various subjects and concerns of paramount importance to globalisation and development in Africa. The book is brilliant. *Remapping Africa in the Global Space: Propositions for Change* explores Africa from the perspective of academics specialised in subject matters pertaining to the continent. In this age of globalisation, I find this book invaluable. It is a good read as it dissects, analyses, and presents issues affecting the continent in an articulate and cogent way. I highly recommend its use in academic institutions.

Magnus Mfoafo MCarthy, Assistant Professor  
 Lyle S. Hallman, Faculty of Social Work Fellow of Tshepo Institute for the Study of Contemporary Africa  
 Wilfrid Laurier University, Kitchener, Canada

More than anything else, *Remapping Africa in the Global Space: Propositions for Change* speaks to the complex, multifaceted, and interfused character of the development challenges and prospects of Africa. Indeed, few books have examined contemporary Africa as comprehensively and insightfully as this edited volume. It is widely welcomed in the African academic, scholarly, and research arena.

Joseph Mensah, Professor of Geography, York University, Toronto

*Handbook of Research on Science Education, Volume II*  
 Norman G. Lederman, Sandra K. Abell, 2014-07-11

Building on the foundation set in Volume I, a landmark synthesis of research in the field, Volume II is a comprehensive state-of-the-art new volume highlighting new and emerging research perspectives. The contributors, all experts in their research areas, represent the international and gender diversity in the science education research community. The volume is organized around six themes: theory and methods of science education research; science learning; culture, gender, and society; and science learning, science teaching, curriculum, and assessment in science; science teacher education. Each chapter presents an integrative review of the research on the topic, pulling together the existing research, working to understand the historical trends and patterns in that body of scholarship, describing how the issue is conceptualized within the literature, how methods and theories have shaped the outcomes of the research, and where the strengths, weaknesses, and gaps are in the literature. Providing guidance to science education faculty and graduate students and leading to new insights and directions for future research, the *Handbook of Research on Science Education, Volume II* is an essential resource for the entire science education community.

*Contemporary Challenges in Business and Life Sciences* Hakan Kapucu, Cüneyt Akar, 2019-10-01 The motivation of this book is the need for understanding the new challenges in business world commercial or social organizations have to face some challenges such as competition economic burden innovation change ethics customer loyalty satisfaction and social responsibility These modern challenges bring new opportunities for any organization besides some threats The most important way to become a developed country is to have a competitive industry in today's global world The other issue is also an innovation which is especially considered by commercial organizations They are finding innovative ways of making their existence in the world On the other hand change is an inevitable fact for any business in today's fast moving competitive environment In addition customer loyalty became as a remarkable research topic Nevertheless satisfaction is one of the newest challenges that means measuring how happy workers and consumers are with their working environment and life In addition to this nowadays businesses started to use digital human resources systems for performing human resource functions By the way in recent years consumption has begun to be examined as a social process that satisfies the psychological needs such as creating and presenting the self identifying the status or social class building relationships with others influencing people in the environment or admiring oneself and proving themselves
