The biosphere is the thin layer of land, air and water around the earth's surface that supports life. The abiotic, or non-living, portion of each ecosystem in the biosphere includes the flow of energy, nutrients, water, and gases and the concentrations of organic and inorganic substances in the environment. The biotic, or living, portion includes organisms based on their methods of acquiring energy: the primary producers, largely green plants; the consumers, which include all the animals; and the decomposers, which include the microorganisms that break down the remains of plants and animals into simpler components for recycling in the biosphere.

Ecological pyramids are a graphical representation in the shape of a pyramid to show the feeding relationship of groups of organisms, and the flow of energy or biomass through the different trophic levels in a given ecosystem.

Charged Particles in Oncology Marco Durante, Francis A. Cucinotta, Jay S. Loeffler, 2018-01-31 High energy charged particles represent a cutting edge technique in radiation oncology Protons and carbon ions are used in several centers all over the world for the treatment of different solid tumors Typical indications are ocular malignancies tumors of the base of the skull hepatocellular carcinomas and various sarcomas The physical characteristics of the charged particles Bragg peak allow sparing of much more normal tissues than it is possible using conventional X rays and for this reason all pediatric tumors are considered eligible for protontherapy Ions heavier than protons also display special radiobiological characteristics which make them effective against radioresistant and hypoxic tumors On the other hand protons and ions with high charge Z and energy HZE particles represent a major risk for human space exploration The main late effect of radiation exposure is cancer induction and at the moment the dose limits for astronauts are based on cancer mortality risk The Mars Science Laboratory MSL measured the dose on the route to Mars and on the planet's surface suggesting that a human exploration missions will exceed the radiation risk limits Notwithstanding many studies on carcinogenesis induced by protons and heavy ions the risk uncertainty remains very high In this research

topic we aim at gathering the experiences and opinions of scientists dealing with high energy charged particles either for cancer treatment or for space radiation protection Clinical results with protons and heavy ions as well as research in medical physics and pre clinical radiobiology are reported In addition ground based and spaceflight studies on the effects of space radiation are included in this book Particularly relevant for space studies are the clinical results on normal tissue complications and second cancers The eBook nicely demonstrates that particle therapy in oncology and protection of astronauts from space radiation share many common topics and can learn from each other

Trans Rogers Brubaker, 2023-04-06 2015 kurz nachdem sich Caitlyn Jenner zu ihrer Identität als Transgender bekannt hatte wurde Rachel Dolezal Präsidentin einer Ortsgruppe der National Association for the Advancement of Colored People NAACP durch ihre Eltern als weiss geoutet Darauf entbrannte in den Medien eine Debatte über die Fluidität von gender und race Wenn Jenner sich rechtmässig als Frau identifizieren konnte konnte sich Dolezal nicht ebenso als schwarz identifizieren Obwohl sex im Unterschied zu race eine biologische Fundierung hat findet die Wahl bzw. Änderung von sex oder gender paradoxerweise eine grössere Akzeptanz als die Wahl oder Änderung der race Während Dolezals Behauptung sie sei schwarz von wenigen akzeptiert wurde verstrickt sich die Fluidität von Race Identitäten in dem Masse wie die Abstammung zunehmend als gemischt verstanden ihre Vorherrschaft über Identität verliert und race und ethnicity wie auch gender als etwas gesehen werden was wir tun und nicht als etwas was wir haben Indem er race und ethnicity durch die Linse der Transgender Erfahrung neu betrachtet nicht nur als eine Bewegung von einer Kategorie zur anderen sondern auch als Position zwischen und jenseits von bestehenden Kategorien unterstreicht Brubaker die Formbarkeit Kontingenz und Beliebigkeit der Kategorien von race Ausgehend von der kontroversen Koppelung von transgender und transracial zeigt

Rogers Brubaker wie gender und race die w hrend langer Zeit als stabil angeboren und unzweideutig verstanden werden in den letzten Jahrzehnten auf unterschiedliche Art und in unterschiedlichem Ausmass als wandelbar und einer Wahl zug nglich betrachtet werden Transgender Identit ten haben sich in schwindelerregendem Tempo von der Peripherie in den Mainstream bewegt und Grenzen der Ethnizit t und der race wurden unscharf
