**Handbook of Systems Engineering and Risk Management in Control Systems, Communication, Space Technology, Missile, Security and Defense Operations** Anna M. Doro-on, 2022-09-27 This book provides multifaceted components and full practical perspectives of systems engineering and risk management in security and defense operations with a focus on infrastructure and manpower control systems missile design space technology satellites intercontinental ballistic missiles and space security While there are many existing selections of systems

engineering and risk management textbooks there is no existing work that connects systems engineering and risk management concepts to solidify its usability in the entire security and defense actions With this book Dr Anna M Doro on rectifies the current imbalance She provides a comprehensive overview of systems engineering and risk management before moving to deeper practical engineering principles integrated with newly developed concepts and examples based on industry and government methodologies The chapters also cover related points including design principles for defeating and deactivating improvised explosive devices and land mines and security measures against kinds of threats The book is designed for systems engineers in practice political risk professionals managers policy makers engineers in other engineering fields scientists decision makers in industry and government and to serve as a reference work in systems engineering and risk management courses with focus on security and defense operations *A History of Scientific Journals*

Aileen Fyfe, Noah Moxham, Julie McDougall-Waters, Camilla Mørk Røstvik, 2022-10-03 Modern scientific research has changed so much since Isaac Newton's day it is more professional collaborative and international with more complicated equipment and a more diverse community of researchers Yet the use of scientific journals to report share and store results is a thread that runs through the history of science from Newton's day to ours Scientific journals are now central to academic research and careers Their editorial and peer review processes act as a check on new claims and findings and researchers build their careers on the list of journal articles they have published The journal that reported Newton's optical experiments still exists First published in 1665 and now fully digital the Philosophical Transactions has carried papers by Charles Darwin Dorothy Hodgkin and Stephen Hawking It is now one of eleven journals published by the Royal Society of London Unrivalled insights from the Royal Society's comprehensive archives have enabled the authors to investigate more than 350 years of scientific journal publishing The editorial management business practices and financial difficulties of the Philosophical Transactions and its sibling Proceedings reveal the meaning and purpose of journals in a changing scientific community At a time when we are surrounded by calls to reform the academic publishing system it has never been more urgent that we understand its history **Fake Science** Austin Ruse, 2017-07-17 If you listen to any political argument you're eventually bound to hear something like The science is settled on this Or Just look at the statistics Or There have been studies that say You'd think we were living in the golden age of science and reason But the truth is far more sinister says Austin Ruse We're actually living in the age of the low information voter easily misled by all too convincing false statistics and studies In Fake Science Ruse debunks so-called facts used to advance political causes one after the other revealing how poorly they stand up to actual science Better data collection in shark fisheries - Learning from practice Food and Agriculture Organization of the United Nations, 2021-07-07 Some species and stocks of sharks rays skates and chimaeras termed shark in this review are rapidly depleting due to climate change land-based influences and overfishing These pressures coupled with sharks' low reproductive potential slow growth and delayed maturation long reproductive cycles low fecundity and long lifespans place

sharks in a risk profile that is more akin to mammals on land than fish in the ocean The development of policy and the delivery of management and conservation measures regulating the use international trade and capture of sharks whether as a targeted species or as bycatch in fisheries is hindered by gaps in basic knowledge a knowledge that is required in order to get a clear sense of their status in real time Many countries are establishing or strengthening monitoring across shark value chains to overcome these shortfalls in information This document reviews what shark fisheries data is being collected highlighting the opportunities and constraints in collecting information on sharks in fisheries based on practical experience It includes information from 28 surveys across 19 countries 9 in the Mediterranean 5 in Africa 3 in Asia and 1 in Oceania Interviews were conducted with data collectors and managers across the entirety of the survey process while data collection variables were documented in order to inform those interested in the collection provision and exchange of shark information on common practices and their commonalities The review identifies standardized information metrics which if collected more generally would strengthen the opportunity for harmonized reporting and cross comparability across surveys In addition and in order to assess the status quo the current data collection requirements of management measures applied to sharks by regional fisheries management organizations RFMOs were reviewed including no retention measures Finally the review proposes a list of the minimum standard measurements and common life history parameters required to support the assessment of shark stocks in fisheries

its gaze on the legacy of the Communist Party of Great Britain Communists anticipated that the party formed in the world's first industrialised nation would be in the vanguard of world revolution Instead the party never came close to matching the political power of the British Labour Party or continental Communist parties in France or Italy and dissolved itself in 1991 In this book Ben Harker draws on the ideas of Antonio Gramsci to argue that the CPGB despite having great influence over British culture never fully appreciated the importance of civil society to its political strength Analysing members efforts in fields such as science journalism the arts broadcasting and education *The Chronology of Revolution* offers an alternative radical history of Britain between 1920 and 1991 which draws out important lessons for the contemporary Left

*Gender in Cross-Cultural Perspective* Adrienne E. Strong, Richard Powis, 2024-08-19 This fully updated new edition of *Gender in Cross Cultural Perspective* carefully introduces and responds to changes in anthropological approaches to and perspectives on gender With two new editors and new authors from the Global South and underrepresented communities it combines theoretically and ethnographically based chapters to examine gender roles and ideology around the world The book is divided thematically into five parts with the editors opening each section with a succinct introduction to the principal issues The book retains some of the classic chapters while offering new contributions and extended discussions throughout on methodology It also has entirely new contributions that reflect more recent developments in the discipline including more emphasis on LGBTQ communities COVID and migration This new edition also features additional support for teaching and learning including a film list and discussion questions that are now offered as supplemental online materials The eighth edition of *Gender in Cross Cultural Perspective* continues to be an essential resource for undergraduate and graduate students encountering the anthropology of gender for the first time

**Designing the American Century** Thomas J. Campanella, 2025-07-08 A richly illustrated look at the lives and collaborations of two unsung giants of American landscape and urban design Gilmore D Clarke and Michael Rapuano were the foremost spatial designers of the American century Their vast portfolio of public landscapes propelled the legacy of Frederick Law Olmsted and Calvert Vaux into the motor age touching the lives of millions and changing the face of the nation *Designing the American Century* recovers the forgotten legacy of Clarke and Rapuano whose parks and parkways highways and housing estates helped modernize for better or worse the American metropolis With the patronage of public works titan Robert Moses Clarke and Rapuano transformed New York over a span of fifty years revitalizing the city's immense park system but also planning expressways public housing and urban renewal projects that laid waste to entire sections of the city In this groundbreaking work Thomas J Campanella describes how Clarke and Rapuano helped create some of the metropolitan region's most iconic landscapes from the Central Park Zoo and Conservatory Garden to the Henry Hudson Parkway and Riverside Park Jones Beach the Palisades and Taconic State Parkways and the Brooklyn Heights Promenade He shows how they left their mark far beyond Gotham as well with projects as diverse as Yellowstone's Mammoth Hot Springs the Mount Vernon Memorial Highway site plans for the Pentagon

and CIA headquarters and Montreal's Olympic Park Richly illustrated with a wealth of previously unpublished drawings plans and photographs *Designing the American Century* fills one of the last major gaps in the history of American urbanism

**Streaming and Copyright Law** Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content's infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions

**Balkan Fighters in the Syrian War** Tanja Dramac Jiries, 2021-09-14 This book analyses the process of the recruitment of foreign fighters from the Western Balkans specifically Bosnia and Herzegovina and Kosovo to Syria and Iraq from 2012 to 2015 Utilizing in depth semi structured interviews with foreign fighters and their families as well as a number of relevant stakeholders it answers the question of what were the processes and circumstances leading up to the departure of foreign fighters from Bosnia and Herzegovina and Kosovo and what informed their agency The author draws on the theories of social movement approaches more specifically contentious politics literature and utilizes the specific concepts of triggering mechanisms which refer to the enabling circumstances that make

the radicalization and departure possible and pleasure in agency to elaborate on individual motivation The book also shows how a wider state fragility within the context of the post Yugoslav wars and the transitional period that never ended aided radicalization and how an incomplete process of post war transition can fuel the process of political and religious radicalization creating a wider enabling web for recruitment It will be of interest to students and scholars of Southeast European politics and foreign policy post war democratic transition security policy and radicalization more broadly The Loss of Small White Clouds Morgan Batch, 2023-08-09 This volume seeks to instigate a discussion about dementia in theatre The discussions in this book borrow from the literature on dementia s representation in other artforms while reflecting on theatre s unique capacity to incorporate multiple artforms in a live context hypermediacy The author examines constructions of diegesis and the use of various performance tools including physical theatre puppetry and postdramatic performance She discusses stage representations of interior experiences of dementia selfhood in dementia the demarcation of those with dementia from those without endings erasure and the pursuit of catharsis placelessness and disruptions of traditional dramatic constructions of time and ultimately performances creatively led by people with dementia The book traces patterns of narrativisation on the stage including common dramaturgical forms settings and character relationships as well as examples that transcend mainstream representation This book is important reading for theatre and performance students scholars and practitioners as well as cultural studies writers engaged in research about narratives of dementia
