Political Economy of Education in Lebanon Husein Abdul-Hamid, Mohamed Yassine, 2020-03-18 Education is a source of national pride in Lebanon When the general public was asked how the education system was performing 76 percent of respondents had a positive opinion and these satisfaction rates have been consistently high over the years However perception of education quality does not reflect the reality of the sector and learning outcomes which are the determining metrics of success in education have been lower than the international average with a declining trend since 2007 This volume seeks to uncover why the education system in Lebanon is not reaching its full potential It uses a political economy approach to study the drivers and factors that guide education operations to produce and utilize education outcomes This includes the study of context stakeholders and processes that shape education policies institutions and activities It also aims to identify enablers of and constraints on policy

change and implementation as well as the achievement of results In this context the analysis encompasses how education policies are developed how education consumables such as curricula textbooks and learning materials are produced distributed and used by learners how education services are delivered and monitored and how achieved results are measured It includes the identification of the most influential actors in the education arena as well as their vested interests It also examines unfavorable frameworks for action that are likely to block the adoption of reforms and delay or derail their implementation The system level analysis presented in this volume used a mixed method approach Qualitative and quantitative analyses were conducted based on a review and analysis of more than 1 900 research papers articles and books laws and policies expenditures trends and enrollment and outcome indicators Primary methods of inquiry were also used and included interviews focus group discussions and a household based perception survey The College Handbook ,1987

Sustainability Standards and Global Governance Archana Negi,Jorge Antonio Pérez-Pineda,Johannes Blankenbach,2020-07-02 This open access book focuses on the issue of sustainability standards from the perspective of both global governance frameworks and emerging economies It stems from the recognition that the accelerated pace of economic globalization has generated production and consumption patterns that are generating sustainability concerns Sustainability standards and regulations are increasingly being used in a bid to make global consumption and production more sustainable Given the dense inter connectedness of economic affairs globally the use of sustainability standards has become a concern of global governance who face the challenge of achieving a balance between the use of standards for genuine sustainability objectives and not allowing them to turn into instruments of protectionism or coercion The emerging economies given their increasing engagement with the global economy are most impacted by the use of sustainability standards The emphasis of emerging economies in this book is retained both by using case studies from these economies and by collating perceptions and assessments of those located in these economies The case studies included span sectors such as palm oil forestry food quality vehicular emissions and water standards and address the problems unique to the emerging economies including capacity building for compliance with standards adapting international standards in domestic contexts and addressing the exclusion of small and medium enterprises etc Complex interfaces and dynamics of a global nature are not limited to the thematic of this book but also extend to the process through which it was written This book brings together insights from

developed as well as emerging economies Germany India Mexico Brazil Indonesia Pakistan Mexico and China It also brings together scholars and practitioners to jointly ponder upon the conceptual aspects of the global frameworks for sustainability standards This book is a very useful resource for researchers and practitioners alike and provides valuable insights for policy makers as well *Catalog of Copyright Entries. Salomone, 2022 A sweeping account of the global rise of English and the high stakes politics of language Spoken by a quarter of the world's population English is today's lingua franca its common tongue The language of business popular media and international politics English has become commodified for its economic value and increasingly detached from any particular nation This meteoric rise of English has many obvious benefits to communication Tourists can travel abroad with greater ease Political leaders can directly engage their counterparts Researchers can collaborate with foreign colleagues Business interests can flourish in the global economy But the rise of English has very real downsides as well In Europe imperatives of political integration and job mobility compete with pride in national language and heritage In the United States and England English isolates us from the cultural and economic benefits of speaking other languages And in countries like India South Africa Morocco and Rwanda it has stratified society along lines of English proficiency In **The Rise of English** Rosemary Salomone offers a commanding view of the unprecedented spread of English and the far reaching effects it has on global and local politics economics media education and business From the inner workings of the European Union to linguistic battles over influence in Africa Salomone draws on a wealth of research to tell the complex story of English and ultimately to argue for English not as a force for domination but as a core component of multilingualism and the transcendence of linguistic and cultural borders

Centering Multilingual Learners and Countering Raciolinguistic Ideologies in Teacher Education Jeff Bale, Shakina Rajendram, Katie Brubacher, Mama Adobea Nii Owoo, Jennifer Burton, Wales Wong, Yiran Zhang, Elizabeth Jean Larson, Antoinette Gagné, Julie Kerekes, 2023-09-12 This book details a three year multi stranded study of teacher education programs that prepare future teachers to work with multilingual learners The book examines how racism and linguisticism collaborate to shape the conditions under which teacher candidates learn how to teach The analysis traces dynamic shifts in thinking and practice as participants reflected on their personal professional and academic experiences in relation to formal curriculum and assessment policies to interpret what it means to work with multilingual learners in the classroom The book offers guiding principles above all learning from multilingual learners not only about them and presents a suite of teacher education practices to disrupt the interplay of language and race that so deeply shapes teacher candidate learning about multilingual learners

The California ELD Standards Companion, Grades K-2 Ivannia Soto, Linda Carstens, Jim Burke, 2018-11-27 This is an era of extraordinary promise and support for addressing the needs of California's English learners That's why this book **The California ELD Standards Companion** is so important It's exactly the kind of bridge teachers need between standards and what it looks like in the classroom LAURIE OLSEN Strategic Adviser The Sobrato Early Academic Language SEAL Initiative Just for California teachers California teachers you're going to love this Here at last is that single teaching resource for making the critical link between our ELD Standards and the CCSS ELA Standards Standard by standard you'll quickly discover how to integrate

Immune mechanisms of protection against Mycobacterium tuberculosis
Rhea Coler, Sarah Fortune, Willem Henry Boom, JoAnne L. Flynn, 2025-08-11 There were an estimated 1.6 million deaths due to tuberculosis (TB) in 2021 including 187,000 people with HIV and AIDS Mycobacterium tuberculosis (Mtb) a NIAID Category C pathogen the causative agent of TB is the 13th leading cause of death globally and has again taken the lead as the number one killer due to a single infectious agent after being second to SARS-CoV-2 during the COVID-19 pandemic In 2021 an estimated 10.6 million people fell ill with TB worldwide 6 million men 3.4 million women and 1.2 million children TB is present in all countries and age groups The Immune Mechanisms of Protection Against Mycobacterium tuberculosis Centers (IMPAC) TB program is an initiative established by NIAID in 2019 to elucidate the immune responses needed to protect against infection with Mtb The program also aims to develop a better understanding of various pathogenesis aspects of TB infection such as latent infection and transition to active TB disease To accomplish these objectives multidisciplinary research teams at Harvard T.H. Chan School of Public Health Boston and Seattle Children's Research Institute were selected to conduct immunological analyses of tissue specific and systemic responses in small animals non-human primates (NHPs) and humans to identify the key immune responses needed for protection against Mtb identify immunologic targets that can be used to improve TB vaccine strategies determine the impact of human immunodeficiency virus (HIV) simian immunodeficiency virus (SIV) and nontuberculous mycobacteria (NTM) infections on relevant immune responses to Mtb infection or TB vaccines and identify how bacterial immune evasion mechanisms subvert immune responses to Mtb This Research Topic will provide Center Objectives and Goals as well as some data that have been generated since execution of the three IMPAC TB contracts

In this Research Topic we discuss important questions including What are the mediators of the complex immune responses required to prevent M tb infection or active TB disease What are the common protective correlates of immunity against M tb in escalating preclinical animal models of TB How does NTM exposure affect the rational design and development of candidate vaccines that generate robust levels of durable protective immunity against TB What is the role of Systems Immunology in the context of investigating immune correlates of protection against M tb Why is it important to develop standardized reagents and standard operating procedures to profile immune responses in preclinical and human experimental medicine TB studies Are transcriptional signatures predictive What benefits are afforded by including the guinea pig model in the TB preclinical vaccine evaluation pipeline How to manage data across consortiums generating large datasets The Topic Editors RC SF WB JF declare that they are supported by the NIH on this IMPAc TB collaboration
