**Race and the Obama Phenomenon** G. Reginald Daniel, Hettie V. Williams, 2014-07-17 The concept of a more perfect union remains a constant theme in the political rhetoric of Barack Obama From his now historic race speech to his second victory speech delivered on November 7 2012 that striving is evident Tonight more than two hundred years after a former colony won the right to determine its own destiny the task of perfecting our union moves forward stated the forty fourth president of the United States upon securing a second term in office after a hard fought political contest Obama borrows this rhetoric from the founding documents of the United States set forth in the US Constitution and in Abraham Lincoln s Gettysburg Address How naive or realistic is Obama s vision of a more perfect American union that brings together people across racial class and political lines How can this vision of a more inclusive America be realized in a society that remains racist at its core These essays seek answers to these complicated questions by examining the 2008 and 2012 elections as well as the events of President Obama s first term Written by preeminent race scholars from multiple disciplines the volume brings together competing perspectives on race gender and the historic significance of Obama s election and reelection The president heralded in his November 2012 acceptance speech The idea that if you re willing to work hard it doesn t matter who you are or where you come from or what you look like whether you re black or white Hispanic or Asian or Native American These essayists argue the truth of that statement and assess whether

America has made any progress toward that vision      **Social Determinants of Health, Fourth Edition** Dennis Raphael, 2025-01-06 Now in its fourth edition Dennis Raphael's *Social Determinants of Health* offers the definitive Canadian discussion of the primary factors that influence the health of Canada's population. This unique text on the social determinants of health contains contributions from top academics and high profile experts from across Canada. Taking a public policy approach, the contributors to this edited collection critically analyze the structural inequalities embedded in our society and the socio-economic factors that affect health, including income, education, employment, housing, food security, gender, and race. This new edition includes recent statistics, new developments in early childhood education, and the implementation of Canada's national childcare system, and new content on the social determinants of Indigenous Peoples' health. Particular attention is paid to how economic globalization and the acceptance of neoliberal governing ideology is shaping the health of Canadians. The COVID-19 epidemic vividly illustrated the importance of the social determinants of health, as sickness and death rates were strikingly higher among Canadians in groups already experiencing adverse living and working conditions and poorer health: lower income Canadians, recent immigrants, of colour, and those experiencing housing and food insecurity. If anything positive is to come out of this experience, it will be recognition that in the current post-COVID-19 environment, it is essential to understand the socio-economic conditions that shape the health of individuals and communities. *Social Determinants of Health, Fourth Edition* is aimed at courses focusing on the social determinants of health at Canadian universities and colleges, particularly those in health studies and nursing, but also allied health, sociology, and human services.      [Research Handbook on Human Rights and Intellectual Property](#) Christophe Geiger, 2015-02-27 *Research Handbook on Human Rights and Intellectual Property* is a comprehensive reference work on the intersection of human rights and intellectual property law.
