Life Orientation Memorandum For Grade 11 2014:

Memorandum, 1961 *Memorandum* Rand Corporation, 1969 *Diversity and Education* Michael Vavrus, 2015-04-28

In his new book Michael Vavrus helps readers better understand why issues of diversity and difference are so highly contested in the United States and across the globe. Vavrus incorporates specific education examples throughout the text to examine six contested areas: race and ethnicity, socioeconomic class and culture, multicultural and ethnic studies, language, religion, and sexuality and gender. In each of these areas, the author explores how contrasting worldviews found in social conservatism, liberal multiculturalism, and critical multiculturalism influence our understandings about difference and diversity and the education policies we develop. As a result, *Diversity and Education* is designed to help educators move beyond the knee-jerk reaction toward a more informed strategic understanding of belief systems and political affiliations. Book Features: Brings a contemporary 21st century perspective to differing political orientations toward diversity and education; Examines outcomes of diversity debates on children of color, the poor, immigrants, women, and sexual and religious minorities; Uses critical pedagogy with a historical and political economy lens to explain current diversity issues in education; Critiques the diversity stance of new national teacher education standards from the Council for Accreditation of Educator Preparation; *Diversity and Education* can not only help us have conversations about racism, institutionalized oppression, and cultural fear; it can also offer an intervention that can move readers toward a deeper critical consciousness about diversity and multicultural education in their own lives. From the Foreword by Wayne Au, associate professor at the University of Washington Bothell and an editor for *Rethinking Schools*. Few education scholars have offered as potent and cogent a political and economic analysis of multicultural education and diversity as Professor Michael Vavrus has in his new book. His critique of neoliberalism via critical pedagogy and his advocacy of social justice education are timely and praiseworthy. Ramin Farahmandpur, professor, Graduate School of Education, Portland State University. *Diversity and Education* is a must-read for anyone concerned about why so many policies claiming to help diverse students fail and what alternatives exist. Vavrus clearly believes in the power of teachers who are well educated critical thinkers. In this lucid and compelling text, he skillfully applies a highly useful framework to unpack historical and contemporary debates about core concepts underlying multiple struggles for education and rights. Christine Sleeter, professor emerita, California State University, Monterey Bay.
