Habitats Local and Far Away, Grade 1 Carla C. Johnson, Janet B. Walton, Erin E. Peters-Burton, 2024-03-13 What if you could challenge your first graders to imagine saving an endangered species learning about different global habitats along the way With this volume in the STEM Road Map Curriculum Series you can *Habitats Local and Far Away* outlines a journey that will steer your students toward authentic problem solving while grounding them in integrated STEM disciplines Like the other volumes in the series this book is designed to meet the growing need to infuse real world learning into K 12 classrooms This interdisciplinary four lesson module uses project and problem based learning to help students develop an action plan to encourage preservation of an endangered species Students will work in teams to describe the habitat characteristics of a species outside their home region explain why the species is endangered and offer solutions about how humans might be able to support this species survival In developing their plan they will act as explorers of species locally and around the world learning about climate plant and animal inhabitants and key factors affecting habitat vitality or decline To support this goal students will do the following Explain that there are various types of habitats that vary with geographical location around the world Identify several habitats in the U S and globally Explain how various habitats meet animals basic needs Identify climatic characteristics of several habitats Identify humans as species that live within and in interaction with various habitats Identify technological advances and tools that scientists use to learn about habitats and endangered species Design and construct models to demonstrate understanding of features of various habitats local and global and endangered species Apply their knowledge of habitat characteristics interdependence in ecosystems and endangered species to develop an action plan to help preserve their selected endangered species The STEM Road Map Curriculum Series is anchored in the Next Generation Science Standards the Common Core State Standards and the Framework for 21st Century Learning In depth and flexible *Habitats Local and Far Away* can be used as a whole unit or in part to meet the needs of districts schools and teachers who are charting a course toward an integrated STEM approach *Research in Education* ,1971 [Resources in Education](#) ,2001-04 *The Science Teacher* ,2006 **Pathways to the Science Standards** Steven J. Rakow,1998 The purposes of this guide are to demonstrate how to apply the National Science Education Standards to the real world of the middle school classroom and to serve as a tool for collaboration among principals state and local administrators parents and school board members Different sections focus on science teaching standards professional development standards assessment standards content standards program standards and system standards The unifying concepts and processes discussed in the content standards include science as inquiry physical science life science earth and space science science and technology science in personal and social perspectives and the history and nature of science The appendices contain an account of the relevant history of the National Science Education Standards the actual National Science Education Standards and ideas about the design of middle school science facilities DDR **Science Education in the Arab Gulf States** Nasser

Mansour, Saeed Al-Shamrani, 2015-04-27 The book introduces the development of science education in the Arab Gulf states and presents a critical analysis of current issues and concerns in educational research in science education. The key purpose is to provide some perspectives on the state of science education in Gulf and to share experiences with international scholars about the impact of the innovations and reforms implemented in science education in Arabian Gulf. But Science Education in the Arab Gulf States also intends to present new visions and to make suggestions and recommendations about the contribution of science education to prepare students in the knowledge age. The volume is organised into three main sections. The first section addresses the current practices and challenges in science education in some of the Arab Gulf states. This section sheds critically the light on the challenges and problems that hinder or constrain the implementation of innovations in science education. The second section analyses the science educational reforms and innovations that are being implemented in the Arabian Gulf. This section presents experiences and research with using new approaches to teaching and learning in science classrooms in some of the Arab Gulf states. The third section discusses the socio cultural issues that have impacted on shaping and reshaping the science education in the Arabian Gulf. This section focuses on exploring the socio cultural factors that influence engagement and non engagement in science education. It also explores how socio cultural issues and contexts guide the reform of science education in the Arabian Gulf and presents various examples of how we can respond to cultural issues.

Hard-to-Teach Science Concepts Susan Koba, Carol T. Mitchell, 2011 Authors Susan Koba and Carol Mitchell introduce teachers of grades 3-5 to their conceptual framework for successful instruction of hard to teach science concepts. Their methodology comprises four steps: 1. engage students about their preconceptions and address their thinking; 2. target lessons to be learned; 3. determine appropriate strategies; and 4. use Standards based teaching that builds on student understandings. The authors not only explain how to use their framework but also provide a variety of tools and examples of its application on four hard to teach foundational concepts: the flow of energy and matter in ecosystems, force and motion, matter and its transformation, and Earth's shape. Both preservice and inservice elementary school teachers will find this approach appealing and the authors' engaging writing style and user friendly tables help educators adapt the method with ease.
