Buchhave, L. Lading, G. Wigley, 2013-11-11 The origin of optical methods for fluid flow investigations appears to be nontraceable This is no matter for surprise After all seeing provides the most direct and common way for humans to learn about their environment But at the same time some of the most sophisticated methods for doing measurements in fluids are also based on light and often laser light A very large amount of material has been published in this area over the last two decades Why then another publication Well the field is still in a state of rapid development It is characterised by the use of results and methods developed within very different areas like optical physics spectroscopy communication systems electronics and computer science mechanical engineering chemical engineering and of course fluid dynamics We are not aware of a book containing both introductory and more advanced material that covers the same material as presented here The book is the result of a compilation and expansion of material presented at a summer school on Optical Diagnostics for Flow Processes held at RiSO National Laboratory and the Technical University of Denmark in September 1993 The aim of the course was to provide a solid background for understanding evaluating and using modern optical diagnostic methods addressing Ph D students and researchers active in areas of fluid flow research The disciplines represented by the participants ranged from atmospheric fluid dynamics to biomedicine *The Challenge of Rethinking History Education* Bruce VanSledright, 2010-09-13 In *The Challenge of Rethinking History Education* Bruce A VanSledright argues for a more inquiry oriented approach to history teaching and learning that fosters a sense of citizenship through the critical skills of historical investigation **Democracy's Reconstruction** Lawrie Balfour, 2011-02-11 In *Democracy's Reconstruction* the latest addition to Cathy Cohen and Fredrick Harris's *Transgressing Boundaries* series noted political

theorist Lawrie Balfour challenges a longstanding tendency in political theory the disciplinary division that separates political theory proper from the study of black politics Political theory rarely engages with black political thinkers despite the fact that the problem of racial inequality is central to the entire enterprise of American political theory To address this lacuna she focuses on the political thought of W E B Du Bois particularly his longstanding concern with the relationship between slavery s legacy and the prospects for democracy in the era he lived in Balfour utilizes Du Bois as an intellectual resource applying his method of addressing contemporary problems via the historical prism of slavery to address some of the fundamental racial divides and inequalities in contemporary America By establishing his theoretical method to study these historical connections she positions Du Bois s work in the political theory canon similar to the status it already has in history sociology philosophy and literature

A Heart for the Work Claire L. Wendland, 2010-10 Burnout is common among doctors in the West so one might assume that a medical career in Malawi one of the poorest countries in the world would place far greater strain on the idealism that drives many doctors But as *A Heart for the Work* makes clear Malawian medical students learn to confront poverty creatively experiencing fatigue and frustration but also joy and commitment on their way to becoming physicians The first ethnography of medical training in the global South Claire L Wendland s book is a moving and perceptive look at medicine in a world where the transnational movement of people and ideas creates both devastation and possibility Wendland a physician anthropologist conducted extensive interviews and worked in wards clinics and operating theaters alongside the student doctors whose stories she relates From the relative calm of Malawi s College of Medicine to the turbulence of training at hospitals with gravely ill patients and dramatically inadequate supplies staff and technology Wendland s work reveals the way these young doctors engage the contradictions of their circumstances shedding new light on debates about the effects of medical training the impact of traditional healing and the purposes of medicine

Perceptual Linguistic Salience: Modeling Causes and Consequences Alice Blumenthal-Dramé, Adriana Hanulíková, Bernd Kortmann, 2017-06-05 Recent years have seen an upsurge of interest in the notion of salience in linguistics and related disciplines While in top down salience perceivers endogenously direct their attention to a certain stimulus in the bottom up salience it is the stimulus itself which attracts attention In prototypical cases of bottom up salience the stimulus stands out because it is incongruous with a given ground by virtue of intrinsic physical characteristics But a stimulus may also cause surprise by virtue of deviating from a cognitive ground e g when violating social or probabilistic expectations This has prompted researchers to examine the relationship between expectations and the perceptual salience of linguistic stimuli in new ways This e book features contributions from different scientific frameworks The reader will find commentaries reviews and original research articles on models of sociolinguistic and morphological salience the role of attention affect and predictability and on how salient items are processed categorized and learned Taken together the articles in this volume contribute to our understanding of how the perceptual salience of linguistic forms and variants can be theoretically framed
