Local Officials and the Struggle to Transform Cities Claire Bénit-Gbaffou ,2024-02-27 Why are even progressive local authorities with the will to improve seldom able to change cities Why does it seem almost impossible to redress spatial inequalities deliver and maintain basic services elevate impoverished areas and protect the marginalised communities Why do municipalities in the Global South refuse to work with prevailing social informalities and resort instead to interventions that are known to displace and aggravate the very issues they aim to address *Local Officials and the Struggle to Transform Cities* analyses these challenges in South African cities where the brief post apartheid moment opened a window for progressive city government and made research into state practices both possible and necessary In debate with other progressive moments in large cities in Brazil the USA and India the book interrogates City officials practices It considers the instruments they invent and negotiate to implement urban policies the agency they develop and the constraints they navigate in governing unequal cities This focus on actual officials practices is captured through first hand experience state ethnographies and engaged research These reveal day to day practice that question generalised explanations of state failure in complex urban societies as essential malevolence contextual weakness corruption and inefficiency It is hoped that opening the black box of the workings of state opens paths for the construction of progressive policies in contemporary cities

Queering the Church Penelope Cowell Doe,2024-05-31 Church dialogues including official reports and debates within the General Synod operate under the premise that canonical authority can shape a viable theology and coherent ecclesiastical and liturgical practices In a groundbreaking departure from conventional methodologies *Queering the Church* offers a rigorous examination of the hermeneutical frameworks that inform discussions on homosexuality within ecclesiastical governance Drawing inspiration from Halberstam s concept of the queer art of failure Doe advocates for a fundamental shift a move away from entrenched institutionalized debates toward a more inclusive deconstructive discourse Rather than perpetuating cycles of authoritative rhetoric Doe proposes a transformative realignment one that challenges traditional power dynamics and fosters a more equitable theological dialogue Provocative and timely this book promises to illuminate new avenues toward a nuanced comprehension of church discourse

country represents a microcosm of the global political economy By taking a political economy approach the book provides a clear explanation of the deep and pervasive problem of the denial which fails to acknowledge global warming as a systemic rather than a market problem The book should be of interest to students and scholars researching climate change environmental politics environmental and ecological economics development studies and political economics

The History of Africa Molefi Kete Asante, 2014-10-10 There is a paradox about Africa it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity African historiography has typically consisted of writing Africa for Europe instead of writing Africa for itself as itself from its own perspectives The History of Africa redresses this by letting the perspectives of Africans themselves take center stage Authoritative and comprehensive this book provides a wide ranging history of Africa from earliest prehistory to the present day using the cultural social political and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans The result is a fresh survey that includes a wealth of indigenous ideas African concepts and traditional outlooks that have escaped the writing of African history in the West The new edition includes information on the Arab Spring the rise of FrancAfrica the presence of the Chinese in Africa and the birth of South Sudan The chapters go up to the present day addressing US President Barack Obama's policies toward Africa A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter including images video and audio clips and links to sites for further research This straightforward illustrated and factual text allows the reader to access the major developments personalities and events on the African continent This groundbreaking survey is an indispensable guide to African history
