Automated Essay Scoring Mark D. Shermis, Jill C. Burstein, 2003-01-30 This new volume is the first to focus entirely on automated essay scoring and evaluation. It is intended to provide a comprehensive overview of the evolution and state of the art of automated essay scoring and evaluation technology across several disciplines including education testing and measurement, cognitive science, computer science, and computational linguistics. The development of this technology has led to many questions and concerns. Automated Essay Scoring attempts to address some of these questions including: How can automated scoring and evaluation supplement classroom instruction? How does the technology actually work? Can it improve students' writing? How reliable is the technology? How can these computing methods be used to develop evaluation tools? What are the state-of-the-art essay evaluation technologies and automated scoring systems? Divided into four parts, the first part reviews the teaching of writing and how computers can contribute to it. Part II analyzes actual automated essay scorers including e-rater™, Intellimetric, and the Intelligent Essay Assessor. The third part analyzes related psychometric issues, and the final part reviews innovations in the field. This book is ideal for researchers and advanced students interested in automated essay scoring from the fields of testing and measurement, education, cognitive science, language, and computational linguistics.

Writing as a Learning Tool Päivi Tynjälä, L. Mason, K. Lonka, 2012-12-06 In a brief summary, the debate concerning the nature of writing processes is about whether the essential characteristic of expertise in writing is a matter of mastering problem-solving strategies. In this respect, the role of social and interactive factors such as writers' familiarity with the particular genre in which they are writing and their relationship with the discourse community in which they are participating have been pointed out. e.g. Nystrand 1989. According to the socio-interactive approach, which refers to Vygotsky's theory, the composition process is a dialogue between the writer and the reader made possible by socially shared knowledge. The meaning of a text is a social construct that is negotiated between the reader and the writer through the medium of the text. The importance of motivational aspects has also been highlighted by two main lines of research: studies of the relationship between writing and self-efficacy (e.g. Pajares, Benton, Corkill, Sharp, Downey, Khramtsova 1995; Hidi, McLaren 1990; 1991). Self-efficacy in this context: individuals' beliefs about their ability to produce certain types of texts have been found to be predictive of writing skills, strategy use, and writing performance.
