The Nutmeg's Curse Amitav Ghosh,2021-10-14 Do not miss this book NAOMI KLEIN author of This Changes Everything The history of the nutmeg is one of conquest and exploitation of both human life and the natural environment and the origin of our contemporary climate crisis Tracing the threats to our future to the discovery of the New World and the sea route to the Indian Ocean The Nutmeg s Curse argues that the dynamics of climate change are rooted in a centuries old geopolitical order constructed by Western colonialism The story of the nutmeg becomes a parable revealing the ways human history has always been entangled with earthly materials spices tea sugarcane opium and fossil fuels Our crisis Ghosh shows is ultimately the result of a mechanistic view of the earth where nature exists only as a resource for humans to use for our own ends rather than a force of its own full of agency and meaning Writing against the backdrop of the global pandemic and the Black Lives Matter protests Ghosh frames these historical stories in a way that connects our shared colonial past with the deep inequality we see around us today By interweaving discussions on everything from the global history of the oil trade to the migrant crisis and the animist spirituality of indigenous communities around the world The Nutmeg s Curse offers a sharp critique of contemporary society and speaks to the profoundly remarkable ways in which human history is shaped by non human forces

Resources in Education,1995-04 *An Evaluation of the Public Schools of the District of Columbia* National Research Council,Division of Behavioral and Social Sciences and Education,Board on Testing and Assessment,Committee for the Five-Year (2009-2013) Summative Evaluation of the District of Columbia Public Schools,2015-08-31 An Evaluation of the Public Schools of the District of Columbia is a comprehensive five year summative evaluation report for Phase Two of an initiative to evaluate the District of Columbia s public schools Consistent with the recommendations in the 2011 report A Plan for Evaluating the District of Columbia s Public Schools this new report describes changes in the public schools during the period from 2009 to 2013 An Evaluation of the Public Schools of the District of Columbia examines business practices human resources operations and human capital strategies academic plans and student achievement This report identifies what is working well seven years

after legislation was enacted to give control of public schools to the mayor of the District of Columbia and which areas need additional attention

The Struggle to Reform Our Colleges Derek Bok, 2017-09-05 Why efforts to improve American higher educational attainment haven't worked and where to go from here During the first decade of this century many commentators predicted that American higher education was about to undergo major changes that would be brought about under the stimulus of online learning and other technological advances Toward the end of the decade the president of the United States declared that America would regain its historic lead in the education of its workforce within the next ten years through a huge increase in the number of students earning quality college degrees Several years have elapsed since these pronouncements were made yet the rate of progress has increased very little if at all in the number of college graduates or the nature and quality of the education they receive In *The Struggle to Reform Our Colleges* Derek Bok seeks to explain why so little change has occurred by analyzing the response of America's colleges the influence of students employers foundations accrediting organizations and government officials and the impact of market forces and technological innovation In the last part of the book Bok identifies a number of initiatives that could improve the performance of colleges and universities The final chapter examines the process of change itself and describes the strategy best calculated to quicken the pace of reform and enable colleges to meet the challenges that confront them

American Public School Finance William A.

Owings, Leslie S. Kaplan, 2025-09-29 Designed for aspiring school leaders this fully updated fourth edition presents the realities of school finance policy and issues as well as the tools for formulating and managing school budgets In an era of dwindling fiscal support for public schools increasing federal mandates and additional local budget requirements educational leaders must be able to articulate sound finance theory and application The authors move beyond coverage found in other texts by providing critical analysis and unique chapters on misconceptions about school finance fiscal capacity fiscal effort adequacy and efficiency demographic issues districts strategic plans role in budgeting and spending and student achievement Examining local state and federal education spending this text gives readers the foundation to understand school finance and knowledgeably educate colleagues parents and other stakeholders about its big picture issues facts and trends The fourth edition of *American Public School Finance* helps educational leaders at all stages of their careers become informed advocates for education finance practice and reform New in this edition Updated discussion of school choice the pandemic's impact on student enrollment funding and learning challenges to the structure of school finance and equity implications of school funding Refreshed case studies focus questions and chapter assignments Updated online supplemental resources including PowerPoint slides and other additional chapter resources accessible at www.routledge.com/cw/owings

Academic Framework for 21st-Century Schooling: Promoting Global Peace and Harmony Mukhopadhyay, Marmar, Kundu, Arnab, 2023-10-16 In an era fraught with existential threats *Academic Framework for 21st Century Schooling Promoting Global Peace and Harmony* answers the urgent call for a new path forward The UN Secretary General's recent

address echoing decades of warnings from UNESCO has underscored the dire state of our world Global warming pollution terrorism unchecked population growth discrimination refugee migration consumerism and the ominous specter of weapons of mass destruction loom large in an age marked by nationalism and imperialism The very fabric of human existence is unraveling and even the UN's well intentioned MDG and SDG initiatives are in jeopardy This book authored by esteemed scholars proposes a transformation of global education as the antidote to this crisis It champions the cultivation of a fresh generation with essential attributes like critical thinking empathy respect for diversity and a profound sense of global responsibility Schools are envisioned as the crucible for shaping these future citizens At its core this book offers a well founded academic framework for global peace and harmony education addressing the intricacies of 21st century schooling curriculum transformation global best practices and the vision of happy schooling It is a clarion call to scholars and educators to lead the way toward a world where peace and harmony are not just ideals but the very foundation upon which humanity thrives Our world and future generations depend on this transformative journey one we must embark upon without delay

[An Age of Accountability](#) John L. Rury, 2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree

The Annalist, 1937

Evidence, policy, impact. WHO guide for evidence-informed decision-making, 2022-01-11 The importance of evidence informed approaches in policy formulation and implementation has long been recognized by the World Health Organization WHO and its Member States With the General Programme of Work GPW 13 and the creation of the Science Division WHO has reinforced its science and evidence based mandate This guide offers staff and partner organizations a compendium of WHO tools to successfully leverage evidence for policy and impact and promote evidence

informed decision making for safe and effective health policy and practice at country and global levels Through its framework the guide will increase awareness and uptake of existing tools and best practices and additionally facilitate collaboration between areas within the Organization and with partners across countries and regions

The Unresolved National Question in South Africa Edward Webster,Karin Pampallis,John Mawbey,Jeremy Cronin,2017-03-01 This volume examines the way in which various strands of left thought have addressed the National Question The re emergence of debates on the decolonisation of knowledge has revived interest in the National Question which began over a century ago and remains unresolved Tensions that were suppressed and hidden in the past are now being openly debated Despite this the goal of one united nation living prosperously under a constitutional democracy remains elusive This edited volume examines the way in which various strands of left thought have addressed the National Question especially during the apartheid years and goes on to discuss its relevance for South Africa today and in the future Instead of imposing a particular understanding of the National Question the editors identified a number of political traditions and allowed contributors the freedom to define the question as they believed appropriate in other words to explain what they thought was the Unresolved National Question This has resulted in a rich tapestry of interweaving perceptions The volume is structured in two parts The first examines four foundational traditions Marxism Leninism the Colonialism of a Special Type thesis the Congress tradition the Trotskyist tradition and Africanism The second part explores the various shifts in the debate from the 1960s onwards and includes chapters on Afrikaner nationalism ethnic issues black consciousness feminism workerism and constitutionalism The editors hope that by revisiting the debates not popularly known among the scholarly mainstream this volume will become a catalyst for an enriched debate on our identity and our future

Financial World ,1940

Teaching for Learning and Learning for Teaching Christopher Klopper,Steve Drew,2015-10-30 Teaching for Learning and Learning for Teaching focuses on the emerging global governmental and institutional agenda about higher education teaching quality and the role that peer review can play in supporting improvements in teaching and student outcomes This agenda is a pervasive element of the further development of higher education internationally through activities of governments global agencies institutions of higher education discrete disciplines and individual teachers Many universities have adopted student evaluations as a mechanism to appraise the quality of teaching These evaluations can be understood as providing a customer centric portrait of quality and when used as the sole arbiter of teaching performance they do not instil confidence in the system of evaluation by academic teaching staff Providing peer perspectives as counterpoint whether in a developmental or summative form goes some way to alleviating this imbalance and is the impetus for the resurgence of interest in peer review and observation of teaching This book seeks to recognise cases of peer review of teaching in Higher Education to affirm best practices and identify areas that

require improvement in establishing local national and international benchmarks of teaching quality **Hoard's Dairyman**
