Marking Time Michael Korda,2004 **The Serial Thrillers 2012 - 12 spine-tingling tasters** Tess Gerritsen, Lee Child,2012-07-19 A taste of terror Sample 12 of the most electrifying spine tingling books of 2012 from some of the best authors on the scene Lock your doors Check behind the sofa And prepare to be thrilled Get a taste of 12 of the most terrifying stomach churning crime and thriller books of 2012 from some of the best authors on the scene The Affair by Lee Child The Silent Girl by Tess Gerritsen Dead Centre by Andy McNab Finders Keepers by Belinda Bauer Now You See Me by S J Bolton Dead To Me by Cath Staincliffe The Summer of Dead Toys by Antonio Hill Vanished by Liza Marklund Bryant and May and The Invisible Code by Christopher Fowler Another Time Another Life by Leif Persson The Two Deaths of Daniel Hayes by Marcus Sakey The Quarry by Johan Theorin Killer thrillers examine the evidence *The Two Deaths of Daniel Hayes* Marcus Sakey,2012-07-05 It starts with you waking on a Maine beach naked half drowned and very very cold Your name is Daniel Hayes At least you think it is That s the name on the insurance card you find in the BMW parked near you How did you get here And why All you remember is a woman s face So you set off to the only place you might find her But this raises the most chilling question of all what will you find when you get there From Lee Child Like any reader I love old favourites but I love new voices too and I especially love it when a new voice starts to become an old favourite It doesn t

happen often but right now it's happening with Marcus Sakey. He's got it all: he writes like a dream, he creates characters exactly like people you know, he scares you, and above all, he keeps you turning the pages. But most of all, he does the what-if thing better than anyone in the business. What-if questions power a lot of plots, but Sakey is special. He doesn't just check a box or construct a neat twist for the sake of it. Reading him, between the lines, I guarantee he lives this stuff; he thinks it through and sweats it out, probably for weeks at a time. I can see him looking around at all the things he loves, looking at his house, turning and looking at his wife, asking himself, What if? What if I had to put all this at risk? Would I? Could I? How would it feel? What would be the effect on me? It's that kind of depth and intelligence and passion and emotion that sets Sakey apart. These are not just clever plots. These are real people with night sweats and wide eyes and everything to lose.

The Two Deaths of Daniel Hayes takes what-if in a new direction and to new heights. Every writer muses, What if the reader isn't sure whether the husband killed his wife or not? That's a basic whodunit. But Sakey asks, What if the husband isn't sure whether he killed his wife or not? That's a terrific premise, and it boosts an already terrific thriller plot into the stratosphere.

The Truth about the Devlins Lisa Scottoline, 2024-08-06 NEW YORK TIMES BESTSELLER USA Today Bestseller Lisa Scottoline, the #1 bestselling author of *What Happened to the Bennetts*, presents another pulse-pounding domestic thriller about family justice and the lies that tear us apart. This'll Be The Day That I Die John Michael Griffin, 2015-03-25 On Christmas Day, December 25, 2012, four scientists working at the Cold Spring Harbor Labs on Long Island announce a discovery that will change the course of humanity and pit science against theological beliefs that have existed since time began. The team of genetic scientists have located and defined a human gene that can accurately identify the length of a human life from their first day to when their last day will come about. Their 4 years of study of the gene offers no reasons for a person's demise except that they can predict with absolute certainty when an individual tested will meet their death. The evidence rocks the foundations of religions worldwide and shakes the faith of humankind, which has believed that only God has the power to control such decisions. Nations around the globe take up the debate over who defines not the start but the end of a human life. The debate will linger for years. But the discovery also shakes the lives of four test volunteers that had agreed to be subjects and donated their DNA. For each of the 4 subjects, find out that they are scheduled to die exactly one year from the date of the announcement. December 25, 2013 will be the day that they die. The four total

strangers to each other seemingly in perfect health and all from completely separate walks of life and circumstances know only that they share the same date of death The wave of human emotions that accompanies their terrible news at first overwhelms them as they go from disbelief and denial to resignation and resolution They each take a different course as they prepare themselves by looking back on their lives and numbering the days they have left What happens to them and how the human spirit can change so suddenly becomes the focus as each person moves forward towards their final day of our most precious possession life
