Applied Degree Education and the Future of Learning Christina Hong, Will W. K. Ma, 2022-06-03 This book draws on the responses to learning and teaching and applied education futures thinking that provide insights into the future of learning. It brings together more than 30 novel and important applied research and scholarly contributions from around the world including Australia, Canada, Finland, Germany, Hong Kong, Japan, Macau, Mainland China, Malaysia, Morocco, Pakistan, and the UK. The chapters, including reflective essays and practice-based case examples, are divided into five major themes: Future-ready values and competencies for the future of work; Innovative pedagogies in applied degree learning and training; Driving student access, engagement, and success through digital technologies; Intelligent technologies; Embedding the new world of work into applied degrees; Lifelong learning, partnering, and the future of work. This book is important for readers interested in international perspectives on the future of work and professional education.

Giants Peter Phillips, 2018-08-28 A look at the top 300 most powerful players in world capitalism who are at the controls of our economic future. Who holds the purse strings to the majority of the world's wealth? There is a new global elite at the controls of our economic future, and here former Project Censored director and media monitoring sociologist Peter Phillips unveils for the general reader just who these players are. The book includes such power players as Mark Zuckerberg, Bill Gates, Jeff Bezos, Jamie Dimon, and Warren Buffett. As the number of men with as much wealth as half the world fell from sixty-two to just eight between January 2016 and January 2017, according to Oxfam International, fewer than 200 super-connected asset managers at only 17 asset management firms, each with well over a trillion dollars in assets under management, now represent the financial core of the world's transnational capitalist class. Members of the global power elite are the management, the facilitators of world capitalism, the firewall protecting the capital investment growth and debt collection that keeps the status quo from changing. Each chapter in *Giants* identifies by name the members of this international club of multi-millionaires, their 17 global financial companies, and including NGOs such as the Group of Thirty and the Trilateral Commission, and their transnational military protectors, so the reader for the first time anywhere can identify who constitutes this network of influence where the wealth is concentrated, how it suppresses social movements, and how it can be redistributed for maximum systemic change.

Building and Maintaining Adult Learning Advantage Hai-Jew, Shalin, 2020-06-26 Adult learning ability is by and large considered a net good and is established through extra resources, the cultivation of experiences, and services like tutoring and test-taking. However, even with the proliferation of such tools, there is no single solution that can address the needs of a broad population of students. To address each learner's individual needs, educators must equip themselves with as many methods as they can to ensure learners' success. *Building and Maintaining Adult Learning Advantage* is an essential publication that covers the varied facets of adult learning as well as how to keep learners on the cutting edge of their education.
