Mimi's Island Home.

Mimi lives on an island far out in the ocean. You may think that it would be fun to live on an island. But Mimi is sad. Mimi has not seen her friends in a year. There is no one to play with or talk to. There isn't even a school.

Why has Mimi's family chosen such a lonely life? Mimi's parents study animals that only live in the harbor of this island. But Mimi's dad knows how unhappy Mimi is. He wants to do something to make her happy.

Mimi's dad discovered a new kind of fish. It had bright orange fins and a blue tail. Dad named this unusual fish after Mimi. He calls it the Mimifish. It hides in the seaweed. It only comes out in the morning and at dusk.

Mimi's dad takes his underwater camera to the harbor every day. He hopes to capture the Mimifish on film. Maybe someday her dad will learn enough about the Mimifish. Then Mimi can go back to her old school. Then she can see all her old friends again. Mimi hopes that day will come soon.

1	Where does Mimi live?
2	Why is Mimi unhappy?
3	How long has Mimi's family lived on the island?
4	Why do Mimi's parents want to live on the island?
5	Why do you think Mimi's father plans to name the fish after her?

*Teaching Children to Read* National Reading Panel (U.S.),2000 *Resources in Education*,1994 *Learning and Teaching Chinese as a First Language* Sin Manw Sophia Lam,John Chi-Kin Lee,Chung Mou Si,2024-06-28 In this book the authors embark on a critical investigation of the complex field of Chinese language education with a particular focus on exploring new trends and teaching and learning They delve into the intricacies of language education and its effectiveness in teaching Chinese as a first language The book has three objectives establishing a field of study in Chinese language learning and teaching providing critical discussion and progressive insights on language education and offering relevant pedagogical perspectives of learning and teaching Chinese as L1 and L2 The chapters investigate learning and teaching of Chinese in different aspects including four skills culture literature technology assisted learning and

learners identity By focusing on the teaching practices of Chinese at different levels it sheds light on teaching Chinese as a first language Theoretically it broadens the linguistic and geographical reach of previous works on language education that mainly examine English as a lingua franca or children s first language acquisition Drawing upon theories in language learning the book demonstrates the applicability of language theories in the first language and Chinese as a non alphabetic language and examines the impact and effectiveness of some theories in Chinese learning and teaching Academic researchers teacher educators teachers and students interested in Chinese language and education will find this a highly relevant text for its focus on curriculum pedagogy and assessment of teaching Chinese as a first language     Learning Strategies and Learning Styles Ronald R. Schmeck, 2013-11-11 A style is any pattern we see in a person s way of accomplishing a particular type of task The task of interest in the present context is education learning and remembering in school and transferring what is learned to the world outside of school Teachers are expressing some sort of awareness of style when they observe a particular action taken by a particular student and then say something like This doesn t surprise me That s just the way he is Observation of a single action cannot reveal a style One s impression of a person s style is abstracted from multiple experiences of the person under similar circumstances In education if we understand the styles of individual students we can often anticipate their perceptions and subsequent behaviors anticipate their misunderstandings take advantage of their strengths and avoid or correct their weaknesses These are some of the goals of the present text In the first chapter I present an overview of the terminology and research methods used by various authors of the text Although they differ a bit with regard to meanings ascribed to certain terms or with regard to conclusions drawn from certain types of data there is nonetheless considerable agreement especially when one realizes that they represent three different continents and five different nationalities
