Eterno,Cliff Roberson,2017-08-09 The Detective s Handbook details the vital information law enforcement officers need to know to become better detectives Since all essential aspects of detective work cannot be covered in a single volume the editors have selected 20 of the most critical issues detectives face in their day to day work and present them in separate chapters Using a Handbook of Policing Tim Newburn,2012-08-21 This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners themselves *Propaganda, War Crimes Trials and International Law* Predrag Dojcinovic,2013-03-01 First Published in 2012 Propaganda War Crimes Trials and International Law addresses the emerging jurisprudence and international law concerning propaganda in war crimes investigations and trials The role of propaganda in the perpetration of atrocities has emerged as a central theme in the war crimes trials in the past century The Nuremburg trials initially and the International Criminal Tribunal for the former Yugoslavia and the International Criminal Tribunal for Rwanda currently have all substantially contributed to the development of international law in this respect Investigating and exploring the areas between lawful and unlawful propaganda they have dealt with specific mechanisms and consequences of the phenomenon within the perspective and framework of their international legal mandates But the cultural codes and argots through which propaganda operates have vexed international courts struggling to assign responsibility to the instigators of mass crimes as subtle but potentially fatal communications often remain undetected misinterpreted or even dismissed as entirely irrelevant With contributions from leading international scholars and legal practioners Propaganda War Crimes Trials and International Law pursues a comparative approach to this problem providing an overview of the current state of the theory of propaganda in the social sciences exploring this theory in the legal analysis of war crimes and related proceedings and finally offering a study of the prosecution of propaganda related crimes in international law and the newly emerging jurisprudence of war crimes propaganda cases *Measuring Organised Crime in Belgium* Chr. Black,Tom Vander Beken,Brice De Ruyver,2000 The analysis of organised crime is of interest to academics policymakers and regulators The approach taken is necessarily determined by the requirement for analysis and the available resources This book is the outcome of a six month research undertaken for the Belgian Gendarmerie at Ghent University It presents a methodology to measure the impact of organised crime in Belgium and its research design has been shaped primarily by the demands of applied research In doing so the research draws extensively from a breadth of research into organised crime while being shaped by the intelligence and policy requirements of the Gendarmerie s Organised Crime unit This is reflected in the use of a risk management process that provides the iterative framework for the methodology Central to this is a three fold focus that incorporates organised crime

groups illicit markets and economic sectors Each element relies upon a different method of analysis however their complementarity is ensured through the organising principle of the spectrum of enterprise The result is a methodology that is capable of being incorporated into existing systems and provides a richer form of strategic assessments regarding the impact of organised crime in Belgium
