What Does A Sesotho Paper consist Of:

Introduction to Lesotho Gilad James, PhD, Lesotho is a landlocked country located in southern Africa surrounded by South Africa. The country has a population of approximately 2.2 million people and is known for its mountainous terrain which has earned it the nickname 'The Kingdom in the Sky'. Lesotho is also known for being one of the highest altitude countries in the world with the lowest point in the country being 1 400 metres above sea level. The country's economy is largely based on agriculture with maize, sorghum and wheat being the main crops grown. Lesotho also has a growing textile industry which is largely supported by foreign investment. Despite the country's natural beauty and resources, Lesotho faces a number of challenges including high levels of poverty and HIV/AIDS which is one of the highest rates in the world. The government has made significant efforts to address these issues but there is still a long way to go in terms of improving the quality of life for the people of Lesotho. Overall, Lesotho is a country with a rich cultural heritage and natural beauty but also faces a number of social and economic challenges that must be addressed in order for it to thrive. Coplan, 1994 The workers who migrate from Lesotho to the mines and cities of neighboring South Africa have developed a rich genre of sung oral poetry word music that focuses on the experiences of migrant life. This music provides a culturally reflexive and consciously artistic account of what it is to be a migrant or part of a migrant's life. It reveals the relationship between these Basotho workers and the local and South African powers that be the cannibals who live off of the workers' labor. David Coplan presents a moving collection of material that for the first time reveals the expressive genius of these tenacious but disenfranchised people. Coplan discusses every aspect of the Basotho musical literature taking into account historical conditions, political dynamics and social forces as well as the styles, artistry and occasions of performance. He engages the postmodern challenge to decolonize our representation of the ethnographic subject and demonstrates how performance formulates local knowledge and communicates its shared understandings. Complete with transcriptions of full male and female performances, this book develops a theoretical and methodological framework crucial to anyone seeking to
