scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it as today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

Library,1972 *Issues in Contemporary Philosophy of Religion* Eugene Thomas Long,2012-12-06 This collection of original articles written by leading contemporary European and American philosophers of religion is presented in celebration of the publication of the fiftieth volume of the International Journal for Philosophy of Religion Following the Editor s Introduction John Macquarrie Adriaan Peperzak and Hent de Vries take up central themes in continental philosophy of religion Macquarrie analyzes postmodernism and its influence in philosophy and theology Peperzak argues for a form of universality different from that of modern philosophy and de Vries analyzes an intrinsic and structural relationship between religion and the media The next three essays discuss issues in analytic philosophy of religion Philip Quinn argues that religious diversity reduces the epistemic status of exclusivism and makes it possible for a religious person to be justified while living within a pluralistic environment William Wainwright plumbs the work of Jonathan Edwards in order to better understand debates concerning freedom determinism and the problem of evil and William Hasker asks whether theological incompatibilism is less inimical to traditional theism than some have supposed Representing the Thomist tradition Fergus Kerr challenges standard readings of Aquinas on the arguments for the existence of God David Griffin analyzes the contributions of process philosophy to the problem of evil and the relation between science and religion Illustrating comparative approaches Keith Ward argues that the Semitic and Indian traditions have developed a similar concept of God that should be revised in view of post Enlightenment theories of the individual and the historical Keith Yandell explores themes in the Indian metaphysical tradition and considers what account of persons is most in accord with reincarnation and karma doctrines Feminist philosophy of religion is represented in Pamela Anderson s article in which she argues for a gender sensitive and more inclusive approach to the craving for infinitude

Between Philosophy and Religion: Hermeneutics and ontology Brayton Polka, 2006 In Between Philosophy and Religion Volumes I and II Brayton Polka examines Spinoza s three major works on religion politics and ethics in order to show that his thought is at once biblical and modern Indeed Polka argues that Spinoza is biblical only insofar as he is understood to be one of the great philosophers of

modernity and that he is modern only when it is understood that he is unique in making the interpretation of the Bible central to philosophy and philosophy central to the interpretation of the Bible This book and its companion volume are essential reading for any scholar of Spinoza The Writing of History and the Study of Law Donald R. Re-visioning Gender in Philosophy of Religion Pamela Sue Anderson,2017-10-24 A passion for justice and truth motivates the bold challenge of Revisioning Gender in Philosophy of Religion Unearthing the ways in which the myths of Christian patriarchy have historically inhibited and prohibited women from thinking and writing their own ideas this book lays fresh ground for re visioning the epistemic practices of philosophers Pamela Sue Anderson seeks both to draw out the salient threads in the gendering of philosophy of religion as it has been practiced and to re vision gender for philosophy today The arguments put forth by contemporary philosophers of religion concerning human and divine attributes are epistemically located yet the motivation to recognize this locatedness has to come from a concern for justice This book presents invaluable new perspectives on the philosopher s ever increasing awareness of his or her own locatedness on the gender often unwittingly given to God the ineffability in both analytic and Continental philosophy the still critical role of reason in the field the aims of a feminist philosophy of religion the roles of beauty and justice the vision of love and reason and a gendering which opens philosophy of religion up to diversity **Reading Philosophy** Samuel Guttenplan,Jennifer
