"An original, ambitious, and consistently provocative book that should change the way we study and teach American history." —Eric Foner, Columbia University

A Nation Among Nations Americas Place In World History

Thomas A. Tweed

A Nation Among Nations Americas Place In World History:

A Nation Among Nations Thomas Bender, 2006 Publisher Description **India's First Diplomat** Vineet Thakur, 2021-06-15 Though now largely a forgotten figure V S Srinivasa Sastri was a celebrated Indian politician and diplomat in the early 20th Century This book rehabilitates Sastri and offers a diplomatic biography of his years as India's roving ambassador in the 1920s Historians Across Borders Nicolas Barreyre, 2014-03-14 In this stimulating and highly original study of the writing of American history twenty four scholars from eleven European countries explore the impact of writing history from abroad Six distinguished scholars from around the world add their commentaries Arguing that historical writing is conditioned crucially by the place from which it is written this volume identifies the formative impact of a wide variety of institutional and cultural factors that are commonly overlooked Examining how American history is written from Europe the contributors shed light on how history is written in the United States and indeed on the way history is written anywhere The innovative perspectives included in *Historians across Borders* are designed to reinvigorate American historiography as the rise of global and transnational history is creating a critical need to understand the impact of place on the writing and teaching of history This book is designed for students in historiography global and transnational history and related courses in the United States and abroad for US historians and for anyone interested in how historians work

Shifting Grounds Paul Quigley, 2011-11-14 Between 1848 and 1865 white southerners felt the grounds of nationhood shift beneath their feet The conflict over slavery that led to the Civil War forced them to confront the difficult problems of nationalism What made a nation a nation Could an individual or a group change nationality at will What were the rights and responsibilities of national citizenship Why should nations exist at all As they contemplated these questions white southerners drew on their long experience as Americans and their knowledge of nationalism in the wider world This was true of not just the radical secessionists who shattered the Union in 1861 but also of the moderate majority who struggled to balance their southern and American loyalties As they pondered the changing significance of the Fourth of July as they fused ideals of masculinity and femininity with national identity they revealed the shifting meanings of nationalism and citizenship Southerners also looked across the Atlantic comparing southern separatism with movements in Hungary and Ireland and applying the European model of romantic nationalism first to the United States and later to the Confederacy In the turmoil of war the Confederacy's national government imposed new stringent obligations of citizenship while the shared experience of suffering united many Confederates in a sacred national community of sacrifice For Unionists die hard Confederates and the large majority torn between the two nationalism became an increasingly pressing problem In *Shifting Grounds* Paul Quigley brilliantly reinterprets southern conceptions of allegiance identity and citizenship within the contexts of antebellum American national identity and the transatlantic Age of Nationalism shedding new light on the ideas and motivations behind America's greatest conflict The Lawyer of the Church Pablo Mijangos y Gonzalez, 2015-06-01 Mexico's Reforma the mid nineteenth

century liberal revolution decisively shaped the country by disestablishing the Catholic Church secularizing public affairs and laying the foundations of a truly national economy and culture The Lawyer of the Church is an examination of the Mexican clergy's response to the Reforma through a study of the life and works of Bishop Clemente de Jesús Munguá 1810-68 one of the most influential yet least known figures of the period By analyzing how Munguá responded to changing political and intellectual scenarios in defense of the clergy's legal prerogatives and social role Pablo Mijangos y González argues that the Catholic Church opposed the liberal revolution not because of its supposed attachment to a bygone past but rather because of its efforts to supersede colonial tradition and refashion itself within a liberal yet confessional state With an eye on the international influences and dimensions of the Mexican church state conflict The Lawyer of the Church also explores how Mexican bishops gradually tightened their relationship with the Holy See and simultaneously managed to incorporate the papacy into their local affairs thus paving the way for the eventual Romanization of Mexican Catholicism during the later decades of the century

Urban Assemblages Ignacio Farias, Thomas Bender, 2010 This book takes it as a given that the city is made of multiple partially localized assemblages built of heterogeneous networks spaces and practices The past century of urban studies has focused on various aspects space culture politics economy but these too often address each domain and the city itself as a bounded and cohesive entity The multiple and overlapping enactments that constitute urban life require a commensurate method of analysis that encompasses the human and non human aspects of cities from nature to socio technical networks to hybrid collectivities physical artefacts and historical legacies and the virtual or imagined city This book proposes and its various chapters offer demonstrations importing into urban studies a body of theories concepts and perspectives developed in the field of science and technology studies STS and more specifically Actor Network Theory ANT The essays examine artefacts technical systems architectures place and eventful spaces the persistence of history imaginary and virtual elements of city life and the politics and ethical challenges of a mode of analysis that incorporates multiple actors as hybrid chains of causation The chapters are attentive to the multiple scales of both the object of analysis and the analysis itself The aim is more ambitious than the mere transfer of a fashionable template The authors embrace ANT critically as much as a metaphor as a method of analysis deploying it to think with to ask new questions to find the language to achieve more compelling descriptions of city life and of urban transformations By greatly extending the chain or network of causation proliferating heterogeneous agents non human as well as human without limit as to their enrolment in urban assemblages Actor Network Theory offers a way of addressing the particular complexity and openness characteristic of cities By enabling an escape from the reification of the city so common in social theory ANT's notion of hybrid assemblages offers richer framing of the reality of the city of urban experience that is responsive to contingency and complexity Therefore Urban Assemblages is a pertinent book for students practitioners and scholars as it aims to shift the parameters of urban studies and contribute a meaningful argument for the urban arena which will dominate the coming decades in government policies

Essays on Twentieth-Century History Michael Adas, American Historical Association, 2010-05-28 Probing the paradoxes of the long twentieth century Unprecedented human opportunity and deprivation to the rise of the United States as a hegemon

The Art and Thought of John La Farge Katie Kresser, 2017-07-05 The Art and Thought of John La Farge Picturing Authenticity in Gilded Age America offers an unprecedented portrait of one of the most celebrated artists of the Gilded Age and opens a window onto nineteenth century American culture The book reveals how the work of John La Farge contributed to a rich philosophical dialogue concerning the trustworthiness of human perception In his struggle against a common truth of iconic symbols presented by a new mass visual culture La Farge developed a subversive approach to visual representation that focused attention not on the artwork itself but on the complex real encounter of artist subject and medium from which the artwork came Katie Kresser charts La Farge s efforts to assert his own reality his own intrinsic uniqueness in a postwar society that increasingly based personal identity on standardized vocational labels and economic productivity La Farge s work is contrasted with that of Kenyon Cox James Whistler and Henry Adams all of whom for La Farge had fallen prey to the crass new visual environment albeit in very different ways This innovative study suggests that La Farge dealt with issues still relevant in a world characterized by ubiquitous mass media and the proliferation of normative visions

Humanities and Big Data in Ibero-America Ana Gallego Cuiñas, Daniel Torres-Salinas, 2023-11-20 This volume presents the first comprehensive study on the relationship between the Human Sciences and Big Data with special emphasis on the Ibero American space The volume is divided into three parts theoretical methodological and practical with an interdisciplinary vision that integrates thought culture language literature theoretical criticism society or the use of new bibliometric techniques

The New World History Ross E. Dunn, Laura J. Mitchell, Kerry Ward, 2016-08-23 The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field The forty four articles in this book take stock of the history evolving literature and current trajectories of new world history These essays together with the editors introductions to thematic chapters encourage educators and students to reflect critically on the development of the field and to explore concepts approaches and insights valuable to their own work The selections are organized in ten chapters that survey the history of the movement the seminal ideas of founding thinkers and today s practitioners changing concepts of world historical space and time comparative methods environmental history the big history movement globalization debates over the meaning of Western power and ongoing questions about the intellectual premises and assumptions that have shaped the field

The Global Atlantic Christoph Strobel, 2015-02-11 The Global Atlantic provides a concise lively overview of the complex and diverse history of the greater Atlantic region from 1400 to 1900 During this period the lands around the Atlantic basin Europe Africa and the Americas became deeply interconnected in networks of trade cultural exchange and geopolitics that reshaped these regions and the world beyond In this accessible and engaging text Christoph Strobel integrates the Atlantic into world history showing that the Atlantic oceanic system was

always interlinked with the rest of globe From the Mediterranean origins of slave worked sugar plantations to the Chinese demand for silver from American mines The Global Atlantic discusses key examples of these connections with clarity enabling students to understand how existing ideas and incentives shaped the emerging Global Atlantic and how these Atlantic systems in turn created the world we live in today *The Cambridge History of Nationhood and Nationalism: Volume 2, Nationalism's Fields of Interaction* Cathie Carmichael,Matthew D'Auria,Aviel Roshwald,2023-11-09 This major new reference work with contributions from an international team of scholars provides a comprehensive account of ideas and practices of nationhood and nationalism from antiquity to the present It considers both continuities and discontinuities engaging critically and analytically with the scholarly literature in the field In volume II leading scholars in their fields explore the dynamics of nationhood and nationalism s interactions with a wide variety of cultural practices and social institutions in addition to the phenomenon s crucial political dimensions The relationships between imperialism and nationhood nationalism and between major world religions and ethno national identities are among the key themes explained and explored The wide range of case studies from around the world brings a truly global comparative perspective to a field whose study was long constrained by Eurocentric assumptions *On Whiteness* ,2020-05-18 The essays cover an astonishing range of subject matter from mental health and plastic surgery to literature music political philosophy performance popular culture and history They interrogate the dominance of whiteness exposing the underpinnings of white privilege and considering its global consequences

Rethinking U.S. World Power Daniel Bessner,Michael Brenes,2024-03-06 Since the late 1990s diplomatic historians have emphasized the importance of international and transnational processes flows and events to the history of the United States in the world Rethinking U S World Power provides an alternative to these scholarly frameworks by assembling a diverse group of historians to explore the impact of the United States and its domestic history on U S foreign relations and world affairs In so doing the collection underlines that even in a global age domestic politics and phenomena were crucial to the history of U S foreign policy and international relations more broadly **Woodrow Wilson and American Internationalism** Lloyd E. Ambrosius,2017-06-16 This book critiques President Woodrow Wilson s statecraft and diplomacy during World War I notably with respect to religion and race **As a City on a Hill** Daniel T. Rodgers,2020-10-06 For we must consider that we shall be as a city upon a hill John Winthrop warned his fellow Puritans at New England s founding in 1630 More than three centuries later Ronald Reagan remade that passage into a timeless celebration of American promise How were Winthrop s long forgotten words reinvented as a central statement of American identity and exceptionalism In *As a City on a Hill* leading American intellectual historian Daniel Rodgers tells the surprising story of one of the most celebrated documents in the canon of the American idea In doing so he brings to life the ideas Winthrop s text carried in its own time and the sharply different yearnings that have been attributed to it since *As a City on a Hill* shows how much more malleable more saturated with vulnerability and less distinctly American Winthrop s Model of Christian Charity was than the document

that twentieth century Americans invented Across almost four centuries Rodgers traces striking shifts in the meaning of Winthrop's words from Winthrop's own anxious reckoning with the scrutiny of the world through Abraham Lincoln's haunting reference to this almost chosen people to the city on a hill that African Americans hoped to construct in Liberia to the era of Donald Trump As a City on a Hill reveals the circuitous unexpected ways Winthrop's words came to lodge in American consciousness At the same time the book offers a probing reflection on how nationalism encourages the invention of timeless texts to straighten out the crooked realities of the past

The Oxford History of Historical Writing: 1800-1945 Daniel R. Woolf, Andrew Feldherr, Grant Hardy, Ian Hesketh, 2011 A chronological scholarly survey of the history of historical writing in five volumes Each volume covers a particular period of time from the beginning of writing to the present day and from all over the world

America's Church Thomas A. Tweed, 2011-08-01 The National Shrine in Washington DC has been deeply loved blithely ignored and passionately criticized It has been praised as a dazzling jewel and dismissed as a towering Byzantine beach ball In this intriguing and inventive book Thomas Tweed shows that the Shrine is also an illuminating site from which to tell the story of twentieth century Catholicism He organizes his narrative around six themes that characterize U S Catholicism and he ties these themes to the Shrine's material culture to images artifacts or devotional spaces Thus he begins with the Basilica's foundation stone weaving it into a discussion of brick and mortar Catholicism the drive to build institutions To highlight the Church's inclination to appeal to women he looks at fund raising for the Mary Memorial Altar and he focuses on the Filipino oratory to Our Lady of Antipolo to illustrate the Church's outreach to immigrants Throughout he employs painstaking detective work to shine a light on the many facets of American Catholicism reflected in the shrine

Anglo-America and its Discontents Peter J. Katzenstein, 2012-03-15 Anglo America is a clearly identifiable part of what is commonly referred to as the West The West exists this book argues in the form of multiple traditions that have currency in America Europe the Americas and a few outposts in the Southern hemisphere Led by the British Empire until the beginning and by the United States since the middle of the twentieth century Anglo America has been at the very centre of world politics Bridging the European and the American West Anglo America is distinctive not unique These multiple Wests coexist with each other and with other civilizations as parts of one global civilization containing multiple modernities And like all other civilizations Anglo America is marked by multiple traditions and internal pluralism Once deeply held notions and practices of imperial rule and racial hierarchy now take the form of hegemony or multilateralism and politically contested versions of multiculturalism At its core Anglo America is fluid not fixed The analytical perspectives of this book are laid out in Katzenstein's opening and concluding chapters They are explored in seven outstanding case studies written by widely known authors which combine historical and contemporary perspectives Featuring an exceptional line up and representing a diversity of theoretical views within one integrative perspective this work will be of interest to all scholars and students of international relations sociology and political science

National Identity and the Agrarian Republic Manuela

Albertone, 2016-04-22 With a few exceptions historiography has paid little attention to the impact of French economic thought during the American Revolution focusing instead on the Revolution's links with Britain This book outlines how from the mid eighteenth to the early nineteenth century the political and social dimension of French economic thought and particularly of Physiocracy spurred American Republicans to a radical shaping of American agrarian ideology Such a perspective allows for a reconsideration of several questions that lie at the heart of contemporary historiographic debate the connection between politics and economics the meaning of republicanism the foundations of representation the role of Europe in the Atlantic world and the interaction between national histories and global context In particular the research methodology adopted here makes it possible to reconstruct how American national identity conceived as an expression of society in economic terms emerged through a cosmopolitan way of thinking focused on the uniqueness of the new state

A Nation Among Nations Americas Place In World History Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**A Nation Among Nations Americas Place In World History**," written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
