## **A Nation Of Emigrants How Mexico Manages Its Migration:**

**A Nation of Emigrants** David FitzGerald, 2008-12-02 What do governments do when much of their population simply gets up and walks away In Mexico and other migrant sending countries mass emigration prompts governments to negotiate a new social contract with their citizens abroad After decades of failed efforts to control outflow the Mexican state now emphasizes voluntary ties dual nationality and rights over obligations In this groundbreaking book David Fitzgerald examines a region of Mexico whose citizens have been migrating to the United States for more than a century He finds that emigrant citizenship does not signal the decline of the nation state but does lead to a new form of citizenship and that bureaucratic efforts to manage emigration and its effects are based on the membership model of the Catholic Church *A Nation of Emigrants* David FitzGerald, 2008-12-02 What do governments do when much of their population simply gets up and walks away In Mexico and other migrant sending countries mass emigration prompts governments to negotiate a new social contract with their citizens abroad After decades of failed efforts to control outflow the Mexican state now emphasizes voluntary ties dual nationality and rights over obligations In this groundbreaking book David Fitzgerald examines a region of Mexico whose citizens have been migrating to the United States for more than a century He finds that emigrant citizenship does not signal the decline of the nation state but does lead to a new form of citizenship and that bureaucratic efforts to manage emigration and its effects are based on the membership model of the Catholic Church **Reseña de "A Nation of Emigrants. How Mexico Manages Its Migration" de David Fitzgerald** Cecilia Imaz Bayona, 2010 Global Migration K.

Khory, 2012-10-22 Immigration today evokes passionate debates over questions of national identity state sovereignty and citizenship Even as capital goods and services flow easily over national boundaries human beings are subjected to intense scrutiny and resistance when crossing borders In this collection of essays distinguished scholars probe the challenges and opportunities that global migration presents for individuals states and societies grappling with questions of identity belonging and citizenship Multidisciplinary in scope the book demonstrates how forced and voluntary migrations intersect with global politics from economic and environmental crises to human rights and security **World Population and Human Capital in the Twenty-first Century** Wolfgang Lutz, William P. Butz, Samir KC, 2017 Condensed into a detailed analysis and a selection of continent wide datasets this revised edition of World Population Human Capital in the Twenty First Century addresses the role of educational attainment in global population trends and models Presenting the full chapter text of the original edition alongside a concise selection of data it summarizes past trends in fertility mortality migration and education and examines relevant theories to identify key determining factors Deriving from a global survey of hundreds of experts and five expert meetings on as many continents World Population Human Capital in the Twenty First Century An Overview emphasizes alternative trends in human capital new ways of studying ageing and the quantification of alternative population and education pathways in the context of global sustainable development It is an ideal companion to the county

### **Migrant Integration Between Homeland and Host Society**

**Volume 1** Agnieszka Weinar, Anne Unterreiner, Philippe Fargues, 2017-05-23 This book provides a theoretical framing to analyse and examine the interaction between origin and destination in the migrant integration process Coverage offers a set of concrete conceptual tools which can be operationalised when measuring integration This title is the first of two complementary volumes each of which is designed to stand alone and provide a different approach to the topic Here the chapters offer a detailed look at integration across eight key areas labour education language and culture civic and political participation housing social ties religion and access to citizenship Readers are presented with an examination into the globally available knowledge on interactions between emigration diaspora policies on one hand and integration policies on the other Migrants actively belong to two places the land they left behind and the home they are seeking to build This book gives an insightful argument for the need to include information about countries and communities of origin when examining integration which is often overlooked It will appeal to academics policymakers integration practitioners civil society organisations as well as students Overall the chapters establish a cohesive analytical framework to this important topic A complementary volume Migrant Integration between Homeland and Host Society Volume 2 How countries of origin impact migrant integration outcomes an analysis edited by A Di Bartolomeo S Kalantaryan J Salamonska and P Fargues builds upon this foundation and presents an empirical approach to migrant integration

### **Diaspora, Development, and Democracy**

Devesh Kapur, 2013-12-01 What happens to a country when its skilled workers emigrate The first book to examine the complex economic social and political effects of emigration on India Diaspora Development and Democracy provides a conceptual framework for understanding the repercussions of international migration on migrants home countries Devesh Kapur finds that migration has influenced India far beyond a simplistic brain drain migration s impact greatly depends on who leaves and why The book offers new methods and empirical evidence for measuring these traits and shows how data about these characteristics link to specific outcomes For instance the positive selection of Indian migrants through education has strengthened India s democracy by creating a political space for previously excluded social groups Because older Indian elites have an exit option they are less likely to resist the loss of political power at home Education and training abroad has played an important role in facilitating the flow of expertise to India integrating the country into the world economy positively shaping how India is perceived and changing traditional conceptions of citizenship The book highlights a paradox while international migration is a cause and consequence of globalization its effects on countries of origin depend largely on factors internal to those countries A rich portrait of the Indian migrant community Diaspora Development and Democracy explores the complex political and economic consequences of migration for the countries migrants leave behind

**Emigration and Diaspora Policies in the Age of Mobility** Agnieszka Weinar, 2017-07-05 This volume examines the ways different countries around the world have responded to rising numbers of mobile citizens Complete with detailed case

studies it provides a groundbreaking and global analysis of emigration and diaspora policies in the 21st century First an introduction considers factors that determines a state s policy choices It draws on rich empirical material to present readers with information on the determinants of policy definition and implementation reactions to emigration and converging and diverging trends Next the volume offers detailed case studies from 15 countries around the world including Argentina Vietnam Senegal the Russian Federation Denmark and Turkey Coverage for each country critically analyzes its emigration or diaspora policies as well as how these policies affect its mobile citizens The contributors also place the policies in context and explore the consequences of pertinent rules and provisions In addition a conclusion presents a comparative analysis of all case studies as well as details a set of best practices Emigration and immigration are two sides of the same coin that every country experiences and in one way or the other must face This book offers readers a new look on diaspora and emigration governance across the globe and explores the future paradigm of reactions to emigration

Transnational Citizenship Across the Americas Ulla Berg, Robyn Magalit Rodriguez, 2015-12-22 Mass migrations diasporas dual citizenship arrangements neoliberal economic reforms and global social justice movements have in recent decades produced shifting boundaries and meanings of citizenship within and beyond the Americas In migrant receiving countries this has raised questions about extending rights to newcomers In migrant sending countries it has prompted states to search for new ways to include their emigrant citizens into the nation state This book situates new practices of immigrant and emigrant citizenship and the policies that both facilitate and delimit them in a broader political economic context It shows how the ability of people to act as transnational citizens is mediated by inequalities along the axes of gender race nationality and class both in and between source and destination countries resulting in a plethora of possible relations between states and migrants The volume provides cross disciplinary and theoretically engaging discussions as well as empirically diverse case studies from countries in Latin America and the Caribbean that have been transformed into emigrant states in recent years offering new concepts and theory for the study of transnational citizenship This book was originally published as a special issue of *Identities: Global Studies in Culture and Power*

**Politics of Development** Heloise Weber, 2014-08-13 An overview of the politics of development with chapters analysing gender race social movements religion security and other relevant issues in terms of development A glossary informs on pertinent issues and terminology

*Citizenship 2.0* Yossi Harpaz, 2019-09-17 The institution of citizenship has undergone significant change in the last two decades Since the 1990s dozens of countries have changed their laws to permit dual citizenship moving away from the previous model that demanded exclusive allegiance As a consequence tens of millions of people around the world now hold citizenship in two and sometimes three or four countries These changes have inevitably had an affect on the lived experience and personal meaning of citizenship but the existing literature on dual citizenship has mostly focused on immigrants in Western Europe and North America and has inquired about identity and sentimental aspects of citizenship Yossi Harpaz looks beyond the West in this

book arguing that the rise of dual citizenship has created new opportunities for non Western elites to convert local advantages into a global resource Millions draw on ancestral or ethnic ties to Western EU countries or create such ties strategically in order to obtain a second nationality that will provide them with additional opportunities an insurance policy a high prestige passport and even social status He draws on qualitative and quantitative material from three cases that represent three pathways to compensatory citizenship Hungarian speaking Serbians who draw on their ethnicity to acquire a second citizenship from Hungary upper class Mexicans who engage in birth tourism in order to secure American citizenship for their children and Israelis who reacquire the citizenship of European countries from which their parents and grandparents had immigrated half a century earlier

*Handbook of International Migration* Steven J. Gold, Stephanie J. Nawyn, 2013-05-02 This revised and expanded second edition of Routledge International Handbook of Migration Studies provides a comprehensive basis for understanding the complexity and patterns of international migration Despite increased efforts to limit its size and consequences migration has wide ranging impacts upon social environmental economic political and cultural life in countries of origin and settlement Such transformations impact not only those who are migrating but those who are left behind as well as those who live in the areas where migrants settle Featuring forty six essays written by leading international and multidisciplinary scholars this new edition showcases evolving research and theorizing around refugees and forced migrants new migration paths through Central Asia and the Middle East the condition of statelessness and South to South migration New chapters also address immigrant labor and entrepreneurship skilled migration ethnic succession contract labor and informal economies Uniquely among texts in the subject area the Handbook provides a six chapter compendium of methodologies for studying international migration and its impacts Written in a clear and direct style this Handbook offers a contemporary integrated resource for students and scholars from the perspectives of social science humanities journalism and other disciplines

*Culling the Masses* David Scott FitzGerald, David Cook-Martín, 2014-04-22 Culling the Masses questions the view that democracy and racism cannot coexist Based on records from 22 countries 1790 2010 it offers a history of the rise and fall of racial selection in the Western Hemisphere showing that democracies were first to select immigrants by race and undemocratic states first to outlaw discrimination

*International Handbook of Migration and Population Distribution* Michael J. White, 2015-12-11 This Handbook offers a comprehensive collection of essays that cover essential features of geographical mobility from internal migration to international migration to urbanization to the adaptation of migrants in their destinations Part I of the collection introduces the range of theoretical perspectives offered by several social science disciplines while also examining the crucial relationship between internal and international migration Part II takes up methods ranging from how migration data are best collected to contemporary techniques for analyzing such data Part III of the handbook contains summaries of present trends across all world regions Part IV rounds out the volume with several contributions assessing pressing issues in contemporary policy areas The volume s editor Michael J White has

spent a career studying the pattern and process of internal and international migration urbanization and population distribution in a wide variety of settings from developing societies to advanced economies In this Handbook he brings together contributors from all parts of the world gathering in this one volume both geographical and substantive expertise of the first rank The Handbook will be a key reference source for established scholars as well as an invaluable high level introduction to the most relevant topics in the field for emerging scholars

**Politics from Afar** Terrence Lyons, Peter G. Mandaville, 2012 More than ever diasporas have a direct impact on the politics of their homelands Today's diasporic activists empowered by new media and the ease of travel afforded by globalization engage directly to shape elections and conflicts in distant settings politics from afar Drawing on a global range of cases this groundbreaking volume explores the impact of transnational diaspora politics on development democratization conflict and the changing nature of citizenship The contributors to this collection representing a variety of disciplinary perspectives and area studies expertise reveal the diasporic politics shaping the governance of development in Mexico conflict in Sri Lanka and elections in Ethiopia among other timely cases While some predicted that globalization would usher in a new era of cosmopolitanism Politics from Afar demonstrates that ethno nationalism and patron client relationships are alive and thriving in transnational spaces Cognizant of the political capital residing in diasporas homeland governments opposition political parties and insurgent groups seek to tap their A co nationals abroad to advance development strategies and broader geopolitical agendas Politics from Afar maps an ambitious theoretical and empirical agenda for the analysis of contemporary diaspora politics

*The Routledge International Handbook of Transnational Studies* Margit Fauser, Xóchitl Bada, 2024-01-23 The Routledge International Handbook of Transnational Studies offers a comprehensive overview of the dynamic evolution and the most recent debates in this interdisciplinary field The collection assembles scholarship from the social sciences and the humanities that share a critical perspective extending beyond the nation state The contributions investigate sustained connections events and activities across state borders and acknowledge prevailing global power asymmetries The handbook examines the dynamics of transnational processes across seven main themes epistemological and methodological principles transnational migrant practices and family remittances mobilities and self identities social protection organizations and social movements culture religion and the arts and architecture and urban planning The contributors engage with theoretical developments and analyze empirical cases involving a wide array of critical contemporary topics such as expatriate voting first and second generation return migration state sponsored cross border marriages access to health care transnational social work global religious aesthetics transnational art corridors literary translation remittance financed architecture and transnational processes of real estate development and gentrification among others They display a series of cross cutting approaches including postcolonial theory racism and gender and a focus on agency state policies and macro structures and transnational inequalities This book features multidisciplinary scholars in transnational studies from Australia Belgium Canada Finland

Germany Italy Malaysia Mexico the Philippines Poland Spain Sweden the United Kingdom and the United States This handbook will be of interest to scholars interested in global and transnational perspectives across a wide range of disciplines It will serve as a key resource for academics students and other interested audiences seeking to familiarize themselves with the study of contemporary issues that cross state borders      **Citizenship and Immigration** Christian Joppke, 2013-05-06 This incisive book provides a succinct overview of the new academic field of citizenship and immigration as well as presenting a fresh and original argument about changing citizenship in our contemporary human rights era Instead of being nationally resilient or in postnational decline citizenship in Western states has continued to evolve converging on a liberal model of inclusive citizenship with diminished rights implications and increasingly universalistic identities This convergence is demonstrated through a sustained comparison of developments in North America Western Europe and Australia Topics covered in the book include recent trends in nationality laws what ethnic diversity does to the welfare state the decline of multiculturalism accompanied by the continuing rise of antidiscrimination policies and the new state campaigns to upgrade citizenship in the post 2001 period Sophisticated and informative and written in a lively and accessible style this book will appeal to upper level students and scholars in sociology political science and immigration and citizenship studies

Migration Crises and the Structure of International Cooperation Jeannette Money, Sarah P. Lockhart, 2019-01-15 Although international cooperation on migration is often promoted scholars have been unable to arrive at a consensus about the extent of cooperation in the current system Under what conditions does international cooperation on migration arise and what shape does it take These questions are important because migrants are often vulnerable to human rights abuses during their journeys as well as in the country of destination and international cooperation represents one mechanism for reducing this vulnerability Jeannette Money and Sarah P Lockhart ask these questions as they examine the patterns of migration flows during the post World War II period with particular attention to crises or shocks to the international system as in the case of migration following the recent conflicts in Afghanistan and Syria Their analysis makes several important contributions to this debate First they explain how the broad pattern of migration in the contemporary era generally from poorer less stable countries to wealthier more stable countries fosters cooperation that is predominantly bilateral when cooperation does in fact occur Second they argue that cooperation is unlikely under most circumstances because countries of destination prefer the current system which privileges their sovereignty over migration flows Finally they posit that cooperation may arise under three conditions when the costs of maintaining the status quo increase when countries of origin locate a venue where their numbers allow them to control the bargaining agenda or when migrant flows tend toward reciprocity      *Borders and Belonging* Hiroshi Motomura, 2025 *Borders and Belonging* is a pathbreaking comprehensive and compact analysis of responses to human migration It is for a general audience that wants to view migration issues from many perspectives Though relying primarily on the specifics in the United States its audience should be worldwide By answering questions that

are rarely asked together this book's approach is unique Borders and Belonging starts with an inquiry into how countries restrict movement rights and privileges based on citizenship and immigration status The book next suggests ways to think about challenges to national borders Sometimes people make claims based on their humanity objecting to national borders that inflict harm that no one human being should have to endure At other times people make claims of a different sort based on belonging or being part of communities in a given country Borders and Belonging next applies these concepts to analyze who should be able to enter a country and how to think about someone entering for a temporary or indefinite stay The book next looks at responses to people without lawful status and at enforcement The final three chapters of Borders and Belonging delve deeper starting with ways to respond genuinely to immigration skeptics or opponents and then discussing what it means to address the root causes of migration The last chapter of the book explores the injustices that national borders can enable the best ways to make decisions about immigration and the role of history in immigration policy The unique contribution of Borders and Belonging is its unprecedented synthesis of many ways to think about national borders and migration

The Oxford Handbook of the Politics of International Migration Marc R. Rosenblum, Daniel J. Tichenor, 2012-06-28 Twenty nine specialists offer their perspectives on migration from a wide variety of fields political science sociology economics and anthropology

Eventually, you will certainly discover a additional experience and carrying out by spending more cash. still when? pull off you acknowledge that you require to acquire those all needs behind having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to understand even more just about the globe, experience, some places, behind history, amusement, and a lot more?
