A Net of Dawn and Bones C. Chancy, 2015-07-24 Blood rituals black magic and broken masquerades Names to run away from really fast And maybe the end of the world Welcome to Intrepid North Carolina Where autumn brings leaf season tourists and bloody sacrifice Twenty years have passed since the Dark Day brought creatures of horror onto the evening news Now vampires run nightclubs alchemists deal potions on the street corners and werewolf gangs lay claim to shady alleys The honest cops of Intrepid enforce human laws on supernatural evil and pray Because the turn of the leaves brings Halloween tourists and the return of a serial killer who s plagued Intrepid for over two decades Yet the night holds darker secrets than even the best detectives have unearthed Somewhere in Intrepid a demonic sorcerer plans to bring Hell on earth And the Demongate is almost complete In the midst of a stakeout gone wrong two mysterious wanderers drop into Detective Church s life Aidan who moves like flames and holds secrets in his shadows and Myrrh a holy warrior born of ancient Alexandria Enchantress Heretic Hell raider Welcome to Intrepid Evil s in for a hell of a night This book was written because I couldn t find anything like it on the shelves No seriously After the umpteenth time picking up yet another urban fantasy that looked promising but on closer skimming had the Designated Protagonist choosing the Sexier Evil I kind of snapped Part of the fun of any story is putting yourself in the character s shoes But these shoes I not only didn t want to slip into I wanted to set them on fire Where were the good guys The honest cops The ordinary people choosing to do the Right Thing no matter how hard it was Where was the belief that there is a Right Thing that there is Good and Evil and you pick the side you re going to fight for even if the heavens fall In short where were the heroes I assure you if I were in on ground zero of a vampire versus werewolf blood war my thoughts would not be centered on omigod the two main supernatural guys are so darkly yummy in their hellspawn black leather They would be stake silver where are they and how fast can I reload So here they are an honest cop a half demon and an ancient heretic who just might be a saint Out to kick butt save lives and hopefully save souls Welcome to Intrepid North Carolina I m hoping to stay awhile

Net Loss Nathan Newman,2015-12-16 How has the Internet been changing our lives and how did these changes come about Nathan Newman seeks the answers to these questions by studying the emergence of the Internet economy in Silicon Valley and the

transformation of power relations it has brought about in our new information age Net Loss is his effort to understand why technological innovation and growth have been accompanied by increasing economic inequality and a sense of political powerlessness among large sectors of the population Newman first tells the story of the federal government's crucial role in the early development of the Internet with the promotion of open computer standards and collaborative business practices that became the driving force of the Silicon Valley model He then examines the complex dynamic of the process whereby regional economies have been changing as business alliances built around industries like the Internet replace the broader public investments that fueled regional growth in the past A radical restructuring of once regionally focused industries like banking electric utilities and telephone companies is under way with changes in federal regulation helping to undermine regional planning and the power of local community actors The rise of global Internet commerce itself contributes to weakening the tax base of local governments even as these governments increasingly use networked technology to market themselves and their citizens to global business usually at the expense of all but their most elite residents More optimistically Newman sees an emerging countertrend of global use of the Internet by grassroots organizations such as those in the antiglobalization movements that may help to transcend this local powerlessness
