A New Deal For The World Americas Vision For Human Rights:

A NEW DEAL FOR THE WORLD Elizabeth Borgwardt, 2007-09-30 In a work of sweeping scope and luminous detail Elizabeth Borgwardt describes how a cadre of World War II American planners inaugurated the ideas and institutions that underlie our modern international human rights regime Borgwardt finds the key in the 1941 Atlantic Charter and its Anglo American vision of war and peace aims In attempting to globalize what U S planners heralded as domestic New Deal ideas about security the ideology of the Atlantic Charter buttressed by FDR s Four Freedoms and the legacies of World War I redefined human rights and America s vision for the world Three sets of international negotiations brought the Atlantic Charter blueprint to life Bretton Woods the United Nations and the Nuremberg trials These new institutions set up mechanisms to stabilize the international economy promote collective security and implement new thinking about international justice The design of these institutions served as a concrete articulation of U S national interests even as they emphasized the importance of working with allies to achieve common goals The American architects of these charters were attempting to redefine the idea of security in the international sphere To varying degrees these institutions and the debates surrounding them set the foundations for the world we know today By analyzing the interaction of ideas individuals and institutions that transformed American foreign policy and Americans view of themselves Borgwardt illuminates the broader history of modern human rights trade and the global economy collective security and international law This book captures a lost vision of the American role in the world

Human Rights in American Foreign Policy Joe Renouard, 2016 Global in scope and ambitious in scale Human Rights in American Foreign Policy examines American responses to a broad array of human rights violations

Reclaiming American Virtue Barbara J. Keys Keys, 2014-02-17 The American commitment to promoting human rights abroad emerged in the 1970s as a surprising response to national trauma In this provocative history Barbara Keys situates this novel enthusiasm as a reaction to the profound challenge of the Vietnam War and its aftermath Instead of looking inward for renewal Americans on the right and the left looked outward for ways to restore America s moral leadership Conservatives took up the language of Soviet dissidents to resuscitate the Cold War while liberals sought to dissociate from brutally repressive allies like Chile and South Korea When Jimmy Carter in 1977 made human rights a central tenet of American foreign policy his administration struggled to reconcile these conflicting visions Yet liberals and conservatives both saw human rights as a way of moving from guilt to pride Less a critique of American power than a rehabilitation of it human rights functioned for Americans as a sleight of hand that occluded from view much of America s recent past and confined the lessons of Vietnam to narrow parameters From world s judge to world s policeman was a small step and American intervention in the name of human rights would be a cause both liberals and conservatives could embrace

To Heal Humankind Adam Gaffney, 2017-07-06 The Right to Health in the International Bill of Rights Latin America and the Right to Healthcare Alma Ata and the Advent of Primary Care in the Cold War Return to the US From Medicare to

Universal Healthcare Return to Latin America Alma Ata in Nicaragua 7 The Right to Health in the Age of Neoliberalism Exit
 Alma Ata Enter the World Bank Healthcare and Neoliberalism A Return to Chile Nicaragua China Russia and Cuba HIV AIDS
 and the Human Right to Health Movement The Right to Health in Law International and Domestic Medicines and the Rights
 Commodity Dialectic The Case of South Africa Rights Litigation and Privatization Brazil Colombia India and Canada The
 Healthcare Rights Commodity Dialectic in a Time of Austerity and Reaction Conclusion Index **How Democracy Survives**
 Michael Holm, R. S. Deese, 2022-12-26 How Democracy Survives explores how liberal democracy can better adapt to the
 planetary challenges of our time by evolving beyond the Westphalian paradigm of the nation state The authors bring
 perspectives from Africa Asia Europe Latin America and North America their chapters engaging with the concept of
 transnational democracy by tracing its development in the past assessing its performance in the present and considering its
 potential for survival in this century and beyond Coming from a wide array of intellectual disciplines and policymaking
 backgrounds the authors share a common conviction that our global institutions both governments and international
 organizations must become more resilient transparent and democratically accountable in order to address the cascading
 political economic and social crises of this new epoch such as climate change mass migration more frequent and severe
 natural disasters and resurgent authoritarianism This book will be relevant for courses in international relations and political
 science environmental politics and the preservation of democracy and federalism around the world The Open Access version
 of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non
 Commercial No Derivatives 4.0 license Thanks to the support of libraries working with Knowledge Unlatched www.knowledgeunlatched.org
Voices Raised in Protest Stephanie Bangarth, 2008-07-01 The uprooting and confinement of
 Japanese Americans and Japanese Canadians during the Second World War constituted the worst violations of citizenship
 rights in twentieth century North America *Voices Raised in Protest* examines the meaning and impact of these actions and
 how they diverged in Canada and the United States Many North Americans opposed their governments wartime policies
 toward their fellow citizens of Japanese extraction In this timely book Stephanie Bangarth studies the efforts and discourse of
 anti internment advocates and discusses the various cases they brought before the courts Persons of Japanese ancestry were
 also active in their own defence Their critiques of the removal and deportation policies were seminal examples of a growing
 general interest in civil rights and would provide a foundation for rights activism in subsequent years *Voices Raised in
 Protest* offers valuable perspective for today's debates over ethnic and racial profiling treatment of enemy combatants and
 tensions between civil liberty and security imperatives It will be of interest to activists and general readers as well as to
 scholars and students in history law politics and Asian Canadian American studies *Historians Across Borders* Nicolas
 Barreyre, 2014-03-14 In this stimulating and highly original study of the writing of American history twenty four scholars
 from eleven European countries explore the impact of writing history from abroad Six distinguished scholars from around the

world add their commentaries Arguing that historical writing is conditioned crucially by the place from which it is written this volume identifies the formative impact of a wide variety of institutional and cultural factors that are commonly overlooked Examining how American history is written from Europe the contributors shed light on how history is written in the United States and indeed on the way history is written anywhere The innovative perspectives included in *Historians across Borders* are designed to reinvigorate American historiography as the rise of global and transnational history is creating a critical need to understand the impact of place on the writing and teaching of history This book is designed for students in historiography global and transnational history and related courses in the United States and abroad for US historians and for anyone interested in how historians work

Explaining the History of American Foreign Relations

Frank Costigliola, Michael J. Hogan, 2016-03-09 This volume presents substantially revised and new essays on methodology and approaches in foreign and international relations history

Diplomacy and Capitalism Christopher R.W.

Dietrich, 2022-05-20 At the same time as modern capitalism became an engine of progress and a source of inequality the United States rose to global power Hence diplomacy and the forces of capitalism have continually evolved together and shaped each other at different levels of international national and local transformations *Diplomacy and Capitalism* focuses on the crucial questions of wealth and power in the United States and the world in the twentieth century Through a series of wide ranging case studies on the history of international political economy and its array of state and non state actors the volume s authors analyze how material interests and foreign relations shaped each other How did the rising and then disproportionate power of the United States and the actions of corporations creditors diplomats and soldiers shape the twentieth century world How did officials in the United States and other nations understand the relationship between foreign investment and the state How did people outside of the United States respond to and shape American diplomacy and political economic policy In detailed discussions of the exchanges and entanglements of capitalism and diplomacy the authors answer these crucial questions In doing so they excavate how different combinations of material interest geopolitical rivalry and ideology helped create the world we live in today The book thus analyzes competing and shared visions of international capitalism and U S diplomatic influence in chapters that bring the book s readers from the dawn of the twentieth century to its end from Theodore Roosevelt to Ronald Reagan Contributors Abou Bamba Giulia Crisanti Christopher R W Dietrich Max Paul Friedman Joseph Fronczak Alec Hickmott Jennifer M Miller Alanna O Malley Nicole Sackley Jayita Sarkar Erum Sattar Jason Scott Smith

The First Right Bradley R. Simpson, Associate Professor of History and Asian Studies Bradley R

Simpson, 2025-10-14 The idea of self determination is one of the most significant in modern international politics For more than a century diplomats lawyers scholars activists and ordinary people in every part of the globe have wrestled with its meaning and implications for decolonization human rights sovereignty and international order *The First Right* argues that there was no one self determination but a century long contest between contending visions of sovereignty and rights that

were as varied and changing as the nature of sovereignty itself In this globe spanning narrative Simpson argues that self determination s meaning has often emerged not just from the United Nations but from the claims of movements and peoples on the margins of international society Powerful states he shows persistently rejected expansive self determination claims arguing that these threatened great power conflict the dissolution of international order or the unravelling of the world economy Pacific Island territories indigenous peoples regional and secessionist movements and transnational solidarity groups among others rejected the efforts of large powerful states to define self determination along narrow lines Instead international historian Bradley R Simpson shows they offered expansive visions of economic political and cultural sovereignty ranging far beyond the movement for decolonization with which they are often associated As they did so these movements and groups helped to vernacularize self determination as a language of social justice and rights for people around the world An ambitious work of global breadth on a key geopolitical issue The First Right transforms how we think about the making of the twentieth century world order and the place of the global South and decolonization in it **A Companion to Woodrow Wilson** Ross A. Kennedy,2013-01-22 A Companion to Woodrow Wilson presents a compilation of essays contributed by various scholars in the field that cover all aspects of the life and career of America s 28th president Represents the only current anthology of essays to introduce readers to the scholarship on all aspects of Wilson s life and career Offers a one stop destination for anyone interested in understanding how the scholarship on Wilson has evolved and where it stands now

The Concise Princeton Encyclopedia of American Political History Michael Kazin,Rebecca Edwards,Adam Rothman,2011-08-28 Contains 150 articles that provide information about significant topics in American political history including ideas philosophies movements economics religion and more **TRIUMPH OF RACISM** Emmanuel Neba-Fuh,2021-04-05 Emmanuel Neba Fuh in this comprehensive chronological compilation and thorough narrative of the history of white supremacy in Africa provide an unflinching fresh case that African poverty a central tenet of the shithole demonization is not a natural feature of geography or a consequence of culture but a direct product of imperial extraction from the continent a practice that continues into the present A brutal and nefarious tale of slave trade genocides massacres dictators supported progressive leaders murdered weapon smuggling cloak and dagger secret services corruption international conspiracy and spectacular military operations he raised the most basic and fundamental question how was Africa the world s richest continent raped and reduced to what Donald J Trump called shithole By V Mbanwie **Crossed Wires** Dan Schiller,2023 In Crossed Wires Dan Schiller who has conducted archival research on US telecommunications for more than forty years recovers the extraordinary social history of the major network systems of the United States from the nineteenth to the twenty first centuries Drawing on arrays of archival documents and secondary sources Schiller reveals that this history has been shaped by sharp social and political conflict and is embedded in the larger history of an expansionary US political economy This authoritative and comprehensive revisionist history of telecommunications argues that business

economic and regulatory concerns influenced the evolution of this industry far more than the technology A Companion to Harry S. Truman Daniel S. Margolies, 2012-07-30 With contributions from the most accomplished scholars in the field this fascinating companion to one of America's pivotal presidents assesses Harry S. Truman as a historical figure, politician, president, and strategist. Assembles many of the top historians in their fields who assess critical aspects of the Truman presidency. Provides new approaches to the historiography of Truman and his policies. Features a variety of historiographic methodologies.

Human Rights in the Twentieth Century Stefan-Ludwig Hoffmann, 2010-12-13 Has there always been an inalienable right to have rights as part of the human condition as Hannah Arendt famously argued? The contributions to this volume examine how human rights came to define the bounds of universal morality in the course of the political crises and conflicts of the twentieth century. Although human rights are often viewed as a self-evident outcome of this history, the essays collected here make clear that human rights are a relatively recent invention that emerged in contingent and contradictory ways. Focusing on specific instances of their assertion or violation during the past century, this volume analyzes the place of human rights in various arenas of global politics, providing an alternative framework for understanding the political and legal dilemmas that these conflicts presented. In doing so, this volume captures the state of the art in a field that historians have only recently begun to explore.

The US Public and American Foreign Policy Andrew Johnstone, Helen Laville, 2010-06-10 Though often overlooked, public opinion has always played a significant role in the development and promotion of US foreign policy, and this work seeks to comprehensively assess the impact and nature of that opinion through a collection of historical and contemporary essays. The volume evaluates the role of organizations and movements that look to represent public opinion and assesses the nature of their relationship with the government. The contributors utilize a number of different approaches to examine this impact, including polling data, assessments of the role of the media, and the wider consideration of ideas and ideology, moving on to examine the specific role played by the public in the policy-making and policy-promotion process. Engaging with new questions as well as approaching old questions from a new angle, the work argues that whilst the roles change and the extent of influence varies, the power of the public to both initiate and constrain foreign policy clearly exists and should not be underestimated. This work will be of great interest to all those with an interest in American foreign policy, American politics, and American history.

Global America Robert McGreevey, Christopher Fisher (Historian), Alan Dawley, 2018 Global America examines the history of the United States as it affected and continues to affect world history in the 20th and 21st centuries. Global America uses the themes of migration and immigration as useful conduits for exploring global connections and for examining the social and political dimensions of 20th-century US history. This outsider's perspective informs its analysis of the politics, international relations, and social and cultural affairs. The text begins with US imperial expansion in the late 19th century and uses new perspectives to weave together topics such as social reform, the world wars, and the rise of conservatism in a way that helps readers gain a new understanding of American

leadership in recent years Global America helps connect U S History and World History through an innovative macro perspective in an era of globalization and changing societies **America's Cold War** Campbell Craig, Fredrik Logevall, 2020-07-14 A creative carefully researched and incisive analysis of U S strategy during the long struggle against the Soviet Union Stephen M Walt Foreign Policy Craig and Logevall remind us that American foreign policy is decided as much by domestic pressures as external threats America's Cold War is history at its provocative best Mark Atwood Lawrence author of The Vietnam War The Cold War dominated world affairs during the half century following World War II America prevailed but only after fifty years of grim international struggle costly wars in Korea and Vietnam trillions of dollars in military spending and decades of nuclear showdowns Was all of that necessary In this new edition of their landmark history Campbell Craig and Fredrik Logevall engage with recent scholarship on the late Cold War including the Reagan and Bush administrations and the collapse of the Soviet regime and expand their discussion of the nuclear revolution and origins of the Vietnam War Yet they maintain their original argument that America's response to a very real Soviet threat gave rise to a military and political system in Washington that is addicted to insecurity and the endless pursuit of enemies to destroy America's Cold War speaks vividly to debates about forever wars and threat inflation at the center of American politics today

U.S. Foreign Policy and Muslim Women's Human Rights Kelly J. Shannon, 2018 U S Foreign Policy and Muslim Women's Human Rights explores the integration of American concerns about women's human rights into U S policy toward Islamic countries since 1979 reframing U S Islamic relations and challenging assumptions about the drivers of American foreign policy
