A Peaceful Realm The Rise And Fall Of The Indus Civilization:

A Peaceful Realm Jane McIntosh, 2002 Some 5000 years ago civilized societies emerged in the valleys of four great rivers the Nile the Euphrates the Yellow and the Indus Of these primary Old World civilizations that of the Indus remains the least known and the most enigmatic though paradoxically it has left perhaps the most lasting influence on the societies that followed it In this lucid account abundantly illustrated with maps and photographs including sixteen pages in full color archaeologist Jane McIntosh addresses what we know about the rise and fall of the civilization of the Indus and Saraswati valleys what it might be reasonable to speculate and what we still hope to learn While drawing on archaeological and linguistic evidence to create a portrait of the civilization from the inside McIntosh also carefully pieces together a wider picture of the Indus civilization using evidence from its trading partners in Mesopotamia the Persian Gulf the Indian subcontinent and Southwest Asia The result is an outstandingly vivid recreation of one of the world's great but all but lost ancient civilizations

The Indus River Shane Mountjoy, 2004 Discusses the Indus River which is the chief river of Pakistan

The Lost River Michel Danino, 2010 The Indian subcontinent was the scene of dramatic upheavals a few thousand years ago The Northwest region entered an arid phase and erosion coupled with tectonic events played havoc with river courses One of them disappeared Celebrated as Sarasvati in the Rig Veda and the Mahabharata this river was rediscovered in the early nineteenth century through topographic explorations by British officials Recently geological and climatological studies have probed its evolution and disappearance while satellite imagery has traced the river's buried courses and isotope analyses have dated ancient waters still stored under the Thar Desert In the same Northwest the subcontinent's first urban society the Indus civilization flourished and declined But it was not watered by the Indus alone since Aurel Stein's expedition in the 1940s hundreds of Harappan sites have been identified in the now dry Sarasvati's basin The rich Harappan legacy in technologies arts and culture sowed the seeds of Indian civilization as we know it now Drawing from recent research in a wide range of disciplines this book discusses differing viewpoints and proposes a harmonious synthesis a fascinating tale of exploration that brings to life the vital role the lost river of the Indian desert played before its waters gurgled to a stop

The End of Eden Graham Phillips,2007-05-29 Presents compelling evidence that civilizations worldwide became warlike and monotheistic after Earth passed through the tail of a comet in 1500 B C Explores the violent effect of debris from comet 12P Pons Brooks on peaceful cultures such as the Olmec of Mexico and the Megalithic people who built Stonehenge Shows how this comet s appearance was taken as a significant religious event that still has repercussions today In the year 2024 the comet 12P Pons Brooks is due to pass near Earth again for the first time in 3 500 years In 1500 B C Earth passed through this comet s tail and in the decade following cultures the world over began to exhibit significant aggressive tendencies Civilizations in India the Middle East China Japan Europe and Central America suddenly abandoned their peaceful ways and devoted themselves with uncharacteristic fervor to making war on their neighbors and fighting among themselves But this was not the only effect that is linked to this celestial event Sudden outbreaks of monotheism the worship of a single god and a new idea at the time occurred simultaneously in locales spread widely throughout the world Most of these monotheistic religions represented their god symbolically as a circle with a series of lines extending below resembling a simple drawing of a comet In The End of Eden Graham Phillips chronicles the sudden shifts in social demeanor and religious philosophy that swept the world in the wake of 12P Pons Brooks He argues that there is no other explanation for these changes other than the presence of this massive comet in the skies above Earth He contends that debris in the comet s tail contaminated the atmosphere with a chemical known to cause aggressive behavior and that after little more than a decade worldwide hostility abruptly abated He also explores how the appearance of a celestial body that outshone the moon would have been interpreted as a significant religious event the premier appearance of a powerful new god to supplant the deities previously worshipped around the world
