took on a more aggressive character as a new group of black activists challenged the politics of civility traditionally embraced by old guard leaders in favor of a more forceful protest strategy Beth Tompkins Bates traces the rise of this new protest politics which was grounded in making demands and backing them up with collective action by focusing on the struggle of the Brotherhood of Sleeping Car Porters BSCP to form a union in Chicago headquarters of the Pullman Company Bates shows how the BSCP overcame initial opposition from most of Chicago's black leaders by linking its union message with the broader social movement for racial equality As members of BSCP protest networks mobilized the black community around the quest for manhood rights and economic freedom they broke down resistance to organized labor even as they expanded the boundaries of citizenship to include equal economic opportunity By the mid 1930s BSCP protest networks gained platforms at the national level fusing Brotherhood activities first with those of the National Negro Congress and later with the March on Washington Movement Lessons learned during this era guided the next generation of activists who carried the black freedom struggle forward after World War II Race, Law, and American Society Gloria J.
