## **A Pocket Of The European Resuscitation Council Guidelines For Resuscitation 2005 1e:**

Practical Resuscitation for Healthcare Professionals Pam Moule, John Albarran, 2009-09-08 Practical Resuscitation for Healthcare Professionals is a beginner's guide to practical resuscitation which enables students and newly qualified staff to develop key resuscitation knowledge and skills. It reflects current guidelines and developments in resuscitation including the 2005 European Resuscitation Council Guidelines for Resuscitation. Practical Resuscitation for Healthcare Professionals covers adult, paediatric and trauma resuscitation and addresses current legal and ethical issues including family witnessed resuscitation. Revised in accordance with the 2005 European Resuscitation Council Guidelines for Resuscitation. Covers prevention and management of cardiac arrest and post resuscitation care. Includes evidence based guidelines for basic and advanced life support. Addresses family witnessed resuscitation. Examines early warning scores. Enables staff to develop key clinical competences in resuscitation. Explores legal and ethical issues. Examines adult, paediatric and trauma resuscitation. Includes case studies. From reviews of the first edition: a comprehensive book which reflects current guidelines. It is set out in a logical format with relevant supporting diagrams and illustrations. There are clear learning outcomes for each chapter, a good introduction to resuscitation for nurses. *British Journal of Resuscitation* *Linee guida 2005 per la rianimazione. European Resuscitation Council* Peter Baskett, Jerry Nolan, 2007 **Pocket Prescriber 2010** Donald R J Singer, Ashan Gunarathne, Timothy R J Nicholson, 2009-11-27 Building on the success and popularity of previous editions, Pocket Prescriber 2009-10 has been fully updated to incorporate new drugs, to remove drugs no longer on the market and to reflect recent changes in dosages and prescribing practice. It fills a niche by providing the most essential clinical pharmacology information that busy clinicians need at their fingertips by focusing on the 500 key drugs that are most commonly prescribed in an A to Z listing. The book avoids overwhelming the reader with information and remains user friendly. Information provided includes dosages, indications, contraindications, side effects and interactions. An important section of the book deals with commonly encountered prescribing problems, selection issues where there are many similar drugs to choose from such as antibiotics and anti-hypertensives, and guidance on coping with a wide variety of emergency situations such as anaphylaxis and overdoses. Principally aimed at junior doctors, the book is also an invaluable and accessible revision aid for medical students and a practical handbook for nurse and pharmacist prescribers.
