A Practical Guide:

Playwriting Noël Greig, 2005 Playwriting offers a practical guide to the creation of text for live performance. It contains a wealth of exercises for amateur and professional playwrights. Usable in a range of contexts, the book works as a step by step guide to the creation of an individual play, a handy resource for a teacher or workshop leader, a stimulus for the group devised play. The result of Noël Greig's thirty years' experience as a playwright, actor, director and teacher, Playwriting is the ideal handbook for anyone who engages with playwriting and is ultimately concerned with creating a story and bringing it to life on the stage.

PhD by Published Work Susan Smith, 2020-10-22 This much needed book provides a practical and comprehensive guide to achieving a PhD by published work. It provides an honest assessment of the pros and cons of various routes and helps readers to select the pathway that is right for them. It demystifies key processes and aspects of the award, such as navigating regulations, writing a synthesis and preparing for a viva, and provides a wealth of guidance on how to maximise the impact of your published work. Each chapter is enriched with activities, questions and advice from those who have successfully completed the award to help readers get the most out of their doctoral experience. This text will be invaluable to researchers and academics of all disciplines pursuing a PhD by published work.

Exhibits and Displays Carol Ng-He, Patti Gibbons, 2021-04-13 Exhibits and displays are booming and in demand at all types of libraries. From simple displays of books to full scale museum quality exhibitions, library exhibits can highlight collections that surprise visitors, tell stories and engage audiences in innovative ways. Often exhibits feature more than books, showcasing art, photographs, archival materials, multimedia elements as well as hands on activities. Stepping outside traditional walls, digital exhibits reach audiences beyond the circulation desk and pave another way for libraries to share information, promote resources and even lead change in the community. Despite the growing interest, most library and information science LIS programs do not include exhibit development courses. It is not uncommon for librarians to learn exhibit production on the job or through resources in the museum sector. Wearing many hats, librarians absorb exhibit work as part of community outreach initiatives or take on exhibit duties as a general professional interest in the emerging field. Exhibits Displays is a practical how to guide that helps librarians unleash their library's potential to engage and wow visitors. The guide explains how to kick start and grow an exhibit program through expert advice, insights from professional literature and winning case studies that cover exhibition development from conceptual planning through de installation, packing and evaluation. Exhibits Display: A Practical Guide for Librarians covers Pre planning, Curation and content development, Project management, Graphic design and writing for readability, Preservation and collection care, Legal
