Gender, Genre, and Identity in Women's Travel Writing Kristi Siegel, 2004 Women experience and portray travel differently Gender matters irreducibly and complexly Building on recent scholarship in women s travel writing these provocative essays not only affirm the impact of gender but also cast women s journeys against coordinates such as race class culture religion economics politics and history The book s scope is unique Women travelers extend in time from Victorian memsahibs to contemporary road girls and topics range from Anna

Leonowens's slanted portrayal of Siam later popularized in the movie *The King and I* to current feminist describing of the male road buddy genre. The extensive array of writers examined includes Nancy Prince, Frances Trollope, Cameron Tuttle, Lady Mary Montagu, Catherine Oddie, Kate Karko, Frances Calder n de la Barca, Rosamond Lawrence, Zilpha Elaw, Alexandra David N el, Amelia Edwards, Erica Lopez, Paule Marshall, Bharati Mukherjee, and Marilynne Robinson. ***Sharing the Journey*** Katherine Ball Ross, 2007. A timeless collection of memoirs culled from the pages of *Victoria* magazine by some of the finest women writers around. Such distinguished authors as Diane Ackerman, Jane Howard, Perri Klass, Madeleine L. Engle, Susan Minot, Francine Prose, Carol Shields, and Jane Smiley have contributed to these pages and their emotionally rich, lovingly crafted essays embrace all phases of a woman's life as well as literature and the process of writing itself. The topics so insightfully and often poignantly explored include childhood, motherhood, solitude, rituals, home, sisters, and remembering the past. From Phyllis Theroux's memories of her convent education to Susan Schneider's thoughts on living in *A Gently Haunted House*, each piece will touch your heart, mind, and soul. ***Asian American Studies Now*** Jean Yu-Wen Shen Wu, Thomas Chen, 2010-03-08. *Asian American Studies Now* truly represents the enormous changes occurring in Asian American communities and the world changes that require a reconsideration of how the interdisciplinary field of Asian American studies is defined and taught. This comprehensive anthology arranged in four parts and featuring a stellar group of contributors summarizes and defines the current shape of this rapidly changing field, addressing topics such as transnationalism, U.S. imperialism, multiracial identity, racism, immigration, citizenship, social justice, and pedagogy. Jean Yu wen Shen Wu and Thomas C. Chen have selected essays for the significance of their contribution to the field and their clarity, brevity, and accessibility to readers with little to no prior knowledge of Asian American studies. Featuring both reprints of seminal articles and groundbreaking texts as well as bold new scholarship, *Asian American Studies Now* addresses the new circumstances, new communities, and new concerns that are reconstituting Asian America. ***Bioethics as Practice*** Judith Andre, 2004-08-01. Andre examines the field of bioethics from an insider's point of view, exploring the questions that have dominated the field and encouraging students and practitioners to move beyond end-of-life issues to address issues in the routine practice of medicine. **Best Books for Young Adults** Holly Koelling, 2007-08-13. Wendland, 2010-10 Burnout is common among doctors in the West so one might assume that a medical career in Malawi one of the poorest countries in the world would place far greater strain on the idealism that drives many doctors But as *A Heart for the Work* makes clear Malawian medical students learn to confront poverty creatively experiencing fatigue and frustration but also joy and commitment on their way to becoming physicians The first ethnography of medical training in the global South Claire L. After Harm Nancy Berlinger, 2007-10-22 Medical error is a leading problem of health care in the United States Each year more patients die as a

result of medical mistakes than are killed by motor vehicle accidents breast cancer or AIDS While most government and regulatory efforts are directed toward reducing and preventing errors the actions that should follow the injury or death of a patient are still hotly debated According to Nancy Berlinger conversations on patient safety are missing several important components religious voices traditions and models In *After Harm* Berlinger draws on sources in theology ethics religion and culture to create a practical and comprehensive approach to addressing the needs of patients families and clinicians affected by medical error She emphasizes the importance of acknowledging fallibility telling the truth confronting feelings of guilt and shame and providing just compensation *After Harm* adds important human dimensions to an issue that has profound consequences for patients and health care providers *Measuring Medical Professionalism* David Thomas Stern, 2006

Patients who are confident of physicians intellectual and technical abilities are sometimes not convinced of their professional behavior Systemic and anecdotal cases of physician misconduct conflict of interest and self interest abound Many have even come to mistrust physicians as patient advocates How can patients trust the intellectual and technical aspects of medical care but not the professional In order to enhance and promote professionalism in medicine one should expect it encourage it and evaluate it By measuring their own professional behavior physicians can provide the kind of transparency with which they can regain the trust of patients and society Not only patients but also institutions which accredit organizations have demanded accountability of physicians in their professional behavior While there has been much lament and a few strong proposals for improving professionalism no single reliable and valid measure of the success of these proposals exists This book is a theory to practice text focused on ways to evaluate professional behavior written by leaders in the field of medical education and assessment
